Programme triggers

Event (please list all triggers)	Summary of Event	Trigger (S&P, Moody's, Fitch, DBRS: short-term, long-term)	Trigger breached (yes/no)	Consequence of a trigger breach
Reserve Fund trigger	Loss of required rating by the Issuer	ST: <A-1+ / <P-1 / <F1 LT: - / - / <A	Yes (S&P)	Requirement to establish and maintain a reserve fund and also to trap any Available Revenue Receipts (in accordance with the relevant waterfall) as necessary to fund the Reserve Fund up to the Reserve Fund Required Amount.
Account Bank rating trigger	Loss of required rating by the Account Bank	ST: <A-1 / <P-1 / <F1 LT: - / - / <A	No	Termination of the Bank Account Agreement, unless the Account Bank, within 30 London Business Days, closes the LLP Accounts with it and opens replacement accounts with a financial institution having the required ratings or obtain a guarantee of its obligations under the Bank Account Agreement from a financial institution having the required ratings (provided also that rating agency confirmations are obtained ). Note that the Cash Management Agreement still refers to an S&P trigger on the bank accounts of A-1+ if the amounts on deposit in the GIC Account exceed 20% of the sterling equivalent of the Covered Bonds then outstanding, in which case the Cash Manager shall transfer the excess to the stand-by accounts (however, the rating agency criteria do not require stand-by accounts any longer, which have therefore been terminated).

Glossary:

Arrears	For the purposes of the Asset Coverage Test, arrears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the servicer calculates as of the date of determination the difference between the sum of all monthly payments that were due and payable by a borrower on any due date up to that date of determination (less the aggregate amount of all authorised underpayments made by such borrower up to such date of determination) and the sum of all payments actually made by that borrower up to that date of determination. If the result arrived at by dividing that difference (if any) by the amount of the required current monthly payment equals or exceeds 1 the account is deemed to be in arrears. Arrears classification is determined based on the number of equivalent full current monthly payments that have been missed. A borrower that has missed payments that in the aggregate equal or exceeding 2 monthly payments (but for which the aggregate of missed payments is less than 3 monthly payments) would be classified as being 2 to <3 months in arrears, and so on. An account is treated as being in default if it is 3 or more months in arrears. For the purposes of Investor Reporting, if unpaid at the end of the reporting period, the due amounts which were due on the latest due date are included in the aggregate
Amount / Current Balance (GBP)	In relation to any Loan at any date (the current balance determination date), the aggregate at such date (but avoiding double counting) of: <div>(i) the Initial Advance; (ii) Further Advances and/or Flexible Loan Drawings; (iii) Capitalised Expenses; (iv) Capitalised Interest; and (v) all expenses, charges, fees, premium or payment due and owing by the Borrower which have not yet been capitalised,</div> in each case relating to such Loan less all prepayments, repayments or payments of any of the foregoing made on or prior to the amount balance determination date; and in relation to any Mortgage Account at the amount balance determination date, the aggregate at such date of the Amount balance in respect of each Loan comprised in the relevant Mortgage Account
Default	Default is defined as a property having been taken into possession.
