The 'Calculation Date' was amended from the third London Business Day prior to each LLP Payment Date to the first London Business Day.

The 'Calculation Period' was amended to the period from (and including) the first calendar day of each calendar month to (but excluding) the first calendar day of the next following calendar month.

⁽²⁾ There are no minimum rating requirements on the issuer, although its ratings are linked to certain programme triggers - see the Programme Triggers section.

⁽³⁾ The interest rate swap notional is the sum of all interest rate swap notionals as at the start of the Calculation Period. Note that under an Amendment Agreement dated 24 December 2012, the interest rate swaps

may be consolidated into one "cover pool swap" at a future date, at the LLP's election.

(4) LLP receive/pay margins are an average across all interest rate swaps

⁽⁵⁾ For triggers relating to the swap providers on the cover pool the rating trigger disclosed is the next trigger point - there may be subsequent triggers and these are detailed in the relevant swap agreement. For triggers relating to the covered bond swaps, see table "Programme Triggers"

As part of the ring-fence planning, we have commenced the realignment of the wholesale funding structure of our operating companies, Santander UK plc and Abbey National Treasury Services plc (ANTS).

As a consequence, as of 1st June 16, Santander UK plc will become the issuer in respect of the outstanding notes which were issued by ANTS under its wholesale funding programmes and some standalone securities. Please see additional information published in Santander UK Investor Update Q1 2016 Results

http://www.santander.co.uk/uk/about-santander-uk/investor-relations/santander-uk-group-holdings-plc
and the RNS published on the 27th of April 2016

http://www.londonstockexchange.com/exchange/news/market-news/market-news-detail/84LC/12793766.html

As of 30th of March 2016, Abbey National Treasury Services transferred all the rights, duties and obligations as the provider of the Swap on the Cover Pool to Santander UK plc

Abbey National Treasury Services will still act as Covered Bond Swap Provider to the LLP to hedge certain interest rate, currency and/other risks in respects of amounts received by the LLP under the loans in the portfolio and any relevant Interest Rate Swaps. Currently Abbey National Treasury acts as a Covered Bond Swap provider for the whole programme (except for Series 3, 59, 60 and 61 which are all, or partially, externally hedged)

⁽²⁵⁾ Seasoning is the age of the loan at the report date in months based on the main mortgage completion date. Main mortgage completion date means the date the borrower first took out a loan on the secured property. The initial loan may have been repaid and replaced by subsequent lending under the same mortgage.

Glossary:

Arrears	For the purposes of the Asset Coverage Test, arrears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the servicer calculates as of the date of determination the difference between the sum of all monthly payments that were due and payable by a borrower on any due date up to that date of determination (less the aggregate amount of all authorised underpayments made by such borrower up to such date of determination) and the sum of all payments actually made by that borrower up to that date of determination. If the result arrived at by dividing that difference (if any) by the amount of the required current monthly payment equals or exceeds 1 the account is deemed to be in arrears. Arrears classification is determined based on the number of equivalent full current monthly payments that have been missed. A borrower that has missed payments that in the aggregate equal or exceeding 2 monthly payments (but for which the aggregate of missed payments is less than 3 monthly payments) would be classified as being 2 to <3 months in arrears, and so on. An account is treated as being in default if it is 3 or more months in arrears. For the purposes of Investor Reporting, if unpaid at the end of the reporting period, the due amounts which were due on the latest due date are included in the aggregate
Amount / Current Balance (GBP)	In relation to any Loan at any date (the current balance determination date), the aggregate at such date (but avoiding double counting) of: (i) the Initial Advance; (ii) Further Advances and/or Flexible Loan Drawings; (iii) Capitalised Expenses; (iv) Capitalised Interest; and (v) all expenses, chees, premium or payment due and owing by the Borrower which have not yet been capitalised, in each case relating to such Loan less all prepayments, repayments or payments of any of the foregoing made on or prior to the amount balance determination date; and in relation to any Mortgage Account at the amount balance determination date, the aggregate at such date of the Amount balance in respect of each Loan comprised in the relevant Mortgage Account
Default	Default is defined as a property having been taken into possession.
