(incorporated under the laws of England and Wales)

Structured Note and Certificate Programme

Santander UK plc (the "**Issuer**") may from time to time issue notes (the "**Notes**") and redeemable certificates (the "**Certificates**") and, together with Notes, the "**N&C Securities**") denominated in any currency as agreed between the Issuer and the relevant Dealer (as defined below) under this Structured Note and Certificate Programme (the "**Programme**").

This document (the "**Base Prospectus**") constitutes a base prospectus for the purposes of Article 8 of the Prospectus Regulation. When used in this Base Prospectus, "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

The Base Prospectus has been approved by the Central Bank of Ireland, as the competent authority in Ireland under the Prospectus Regulation. The Central Bank of Ireland only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer or of the quality of the securities that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the N&C Securities (as described below). Such approval relates only to the N&C Securities which are to be admitted to trading on the regulated market of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**") or other regulated markets for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**") and/or which are to be offered to the public in a Member State of the European Economic Area ("**EEA**") or in the United Kingdom (the "**UK**").

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to N&C Securities which are to be admitted to trading on a regulated market in the EEA or in the UK and/or offered to the public in the EEA or in the UK other than in circumstances where an exemption is available under Article 1(4) of the Prospectus Regulation. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

The Issuer may request the Central Bank of Ireland, in accordance with Article 25(1) of the Prospectus Regulation, to provide the relevant competent authority of the United Kingdom and/or such other competent authorities as it may require, from time to time, with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation.

Application has been made to Euronext Dublin for N&C Securities issued under the Programme to be admitted to the official list (the "**Official List**") and to trading on its regulated market. The regulated market of Euronext Dublin is a regulated market for the purposes of MiFID II.

Application may also be made to the United Kingdom Financial Conduct Authority in its capacity as competent authority (the "**FCA**") under the Financial Services and Markets Act 2000 (the "**FSMA**") for N&C Securities issued under the Programme to be admitted to the official list maintained by the FCA and to the London Stock Exchange plc (the "**London Stock Exchange**") for such N&C Securities to be admitted to trading on the London Stock Exchange's regulated market (which is a regulated market for the purposes of MiFID II). The Programme provides that N&C Securities may be unlisted or listed on such other or further stock exchange(s) as may be agreed between the Issuer and the relevant Dealer and as specified in the Final Terms or Pricing Supplement, as applicable.

The N&C Securities may be issued on a continuing basis to the Dealer specified below and any additional Dealer appointed under the Programme from time to time (the "**Dealer**" and together the "**Dealers**"), which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the "**relevant Dealer**" shall, in the case of an issue of N&C Securities being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such N&C Securities.

Notice of the aggregate nominal amount or issue size of N&C Securities, interest (if any) payable in respect of N&C Securities, where applicable, the issue price of N&C Securities, details of the relevant preference shares by which amounts payable on redemption of the N&C Securities will be determined and certain other information which is applicable to each Tranche (as defined in the Conditions) of N&C Securities will (other than in the case of Exempt N&C Securities, as defined below) be set out in the applicable Final Terms which will be filed with the Central Bank of Ireland, (when publicly offered or listed on a regulated market in the United Kingdom) the FCA and, where listed, the London Stock Exchange or Euronext Dublin, as applicable. Copies of Final Terms in relation to N&C Securities to be listed on the London Stock Exchange will be published on the website of the London Stock Exchange through a regulatory information service and copies of Final Terms in relation to N&C Securities to be listed on Euronext Dublin will be published on the website of Euronext Dublin. In the case of Exempt N&C Securities (as defined herein), notice of the aggregate nominal amount of N&C Securities, interest (if any) payable in respect of N&C Securities, the issue price of N&C Securities and certain other information which is applicable to each Tranche will be set out in a pricing supplement document (the "**Pricing Supplement**").

Prospective investors should consider carefully the risks set forth herein under "Risk Factors" prior to making an investment decision with respect to the N&C Securities. If prospective investors are in any doubt about the risks or suitability of a particular N&C Security, they should seek professional advice.

The N&C Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or under any state securities laws and N&C Securities are subject to certain United States tax law requirements.

The N&C Securities, or interests therein, may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States (including any state of the United States and the District of Columbia), its territories, possessions and other areas subject to its jurisdiction (the "**United States**") or directly or indirectly offered, sold, resold, traded, pledged, redeemed, transferred or delivered to, or for the account or benefit of, any person who is (i) a "U.S. person" as defined in Regulation S under the Securities Act ("**Regulation S**"), (ii) a person who comes within any definition of U.S. person for the purposes of the United States Commodity Exchange Act of 1936, as amended (the "**CEA**") (including but not limited to a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the Commodity Futures Trading Commission (the "**CFTC**") pursuant to the CEA and a person other than a "Non-United States person" as defined in CFTC Rule 4.7(a)(1)(iv) excluding for the purposes of CFTC Rule 4.7(a)(1)(iv)(D) the exception for qualified eligible persons who are not "Non-United States persons"), or (iii) a "United States person" as defined in the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder, in each case, as such definition may be amended, modified or supplemented from time to time (each such person, a "**U.S. Person**").

The N&C Securities do not constitute and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the N&C Securities has not been approved by the CFTC pursuant to the CEA.

Amounts payable under the N&C Securities may be calculated by reference to one or more "benchmarks" for the purposes of Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 (the "**Benchmarks Regulation**"). In this case, a statement will be included in the applicable Final Terms or Pricing Supplement, as the case may be, as to whether or not the relevant administrator of the "benchmark" is included in the European Securities and Markets Authority's ("**ESMA**") register of administrators under Article 36 of the Benchmarks Regulation.

Independent Investigation

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any N&C Securities (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by the Issuer or any of the Dealers that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any N&C Securities should purchase any N&C Securities. Each investor contemplating purchasing any N&C Securities should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any N&C Securities constitutes an offer or invitation by or on behalf of the Issuer or any of the Dealers to any person to subscribe for or to purchase any N&C Securities. Furthermore, neither this Base Prospectus, nor any other information supplied in connection with the Programme or any N&C Securities is, nor does it purport to be, investment advice. Subscription and sales and transfer restrictions in the United States

Persons into whose possession offering material comes must inform themselves about and observe any such restrictions. This Base Prospectus does not constitute, and may not be used for or in connection with, an offer to any person to whom it is unlawful to make such an offer or a solicitation by anyone not authorised so to act. See "*Subscription and Sale*" below.

The N&C Securities that are debt for U.S. federal income tax purposes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to or for the account or benefit of U.S. Persons, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the

meanings given to them by the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder.

Important information relating to the use of this Base Prospectus and offers of N&C Securities generally

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any N&C Securities in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of N&C Securities may be restricted by law in certain jurisdictions. The Issuer and the Dealers do not represent that this Base Prospectus may be lawfully distributed, or that any N&C Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering, or that all actions have been taken by the Issuer or the Dealers which would permit a public offering of any N&C Securities or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. In particular, unless specifically indicated to the contrary in the applicable Issue Terms, no action has been taken by the Issuer or the Dealers which would permit a public offering of any N&C Securities or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no N&C Securities may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any N&C Securities may come must inform themselves about, and observe any such restrictions on the distribution of this Base Prospectus and the offering and sale of N&C Securities. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of N&C Securities in the United States, the UK and the EEA (including Ireland), see "*Subscription and Sale*".

Investment Considerations

The N&C Securities may not be suitable for all investors.

Each potential investor in the N&C Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- has sufficient knowledge and experience to make a meaningful evaluation of the N&C Securities, the merits and risks of investing in the N&C Securities and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the N&C Securities and the impact the N&C Securities will have on its overall investment portfolio;
- has sufficient financial resources and liquidity to bear all of the risks of an investment in the N&C Securities, including N&C Securities with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understands thoroughly the terms of the N&C Securities and is familiar with the behaviour of any relevant indices and financial markets; and
- is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

An investment in N&C Securities (including N&C Securities which are Equity Index Linked Interest N&C Securities or Inflation Index Linked Interest N&C Securities) may entail significant risks not associated with investments in conventional securities such as debt or equity securities, including, but not limited to, the risks set out in "*Risks associated with N&C Securities where interest amounts are linked to one or more Reference Item(s)*" and "*Risks associated with N&C linked to Preference Shares*" below.

In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the N&C Securities being offered, including the merits and risks involved.

Certain of the Dealers and their affiliates have engaged and may in the future engage in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its respective affiliates.

Neither the Dealers nor the Issuer makes any representation to any investor in the N&C Securities regarding the legality of its investment under any applicable laws. Any investor in the N&C Securities should satisfy itself that it is able to bear the economic risk of an investment in the N&C Securities for an indefinite period of time.

Purchasers of such N&C Securities are deemed to have sufficient knowledge, experience and professional advice to make their own investment decisions and to have undertaken their own legal, financial, tax, accounting and other business evaluation of the risks and merits of investments in such N&C Securities and should ensure that they fully understand the risks associated with investments of this nature which are intended to be sold only to sophisticated investors. Purchasers of N&C Securities are solely responsible for making their own independent appraisal of an investigation into the business, financial condition, prospects, creditworthiness, status and affairs of the issuer of the Preference Shares, the relevant Preference Shares (including the relevant underlying reference item(s) for the Preference Shares), the information relating to any Reference Item(s) relevant for the determination of interest and the level or fluctuation of the relevant Preference Shares for the purposes of determining amounts payable at redemption or of any Reference Item(s) relevant for the determination of interest.

IMPORTANT – EEA AND UK RETAIL INVESTORS – Other than as provided in the Final Terms in respect of any N&C Securities (or Pricing Supplement, in the case of Exempt N&C Securities), the N&C Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the "EEA") or in the United Kingdom (the "UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, save in relation to any jurisdiction(s) or period(s) for which the "Prohibition of Sales to EEA and UK Retail Investors" is specified to be not applicable in any Final Terms (or Pricing Supplement, in the case of Exempt N&C Securities), no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the N&C Securities or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the N&C Securities or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

MiFID II product governance / target market – The Final Terms in respect of any N&C Securities (or Pricing Supplement, in the case of Exempt N&C Securities) will include a legend entitled "*MiFID II product governance*" which will outline the target market assessment in respect of the N&C Securities and which channels for distribution of the N&C Securities are appropriate. Any person subsequently offering, selling or recommending the N&C Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the N&C Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any N&C Securities is a manufacturer in respect of such N&C Securities, but otherwise neither the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

In connection with the issue of any Tranche of N&C Securities, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) may over-allot N&C Securities (provided that, in the case of any Tranche of N&C Securities to be admitted to trading on a regulated market in the EEA or in the UK, the aggregate principal amount of N&C Securities allotted does not exceed 105.00 per cent. of the aggregate principal amount of the relevant Tranche) or effect transactions with a view to supporting the market price of the N&C Securities of the Series (as defined below) of which such Tranche forms part at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of N&C Securities is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of N&C Securities and 60 days after the date of the allotment of the relevant Tranche of N&C Securities. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

RISK FACTORS

An investment in the N&C Securities may involve a high degree of risk. In purchasing N&C Securities, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the N&C Securities. There are a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the N&C Securities. The Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the N&C Securities.

In addition, factors which are material for the purpose of assessing the market risk associated with N&C Securities issued under the Programme are detailed below. The factors discussed below regarding the risks of acquiring or holding any N&C Securities are not exhaustive, and additional risks and uncertainties that are not presently known to the Issuer or that the Issuer currently believes to be immaterial could also have a material impact on the N&C Securities.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Words and expressions defined in the "General Terms and Conditions of the N&C Securities" below or elsewhere in this Base Prospectus have the same meanings in this section.

RISK FACTORS RELATING TO THE ISSUER AND THE GROUP

The risks set out below relating to the Issuer and the Group could have a material adverse effect on the Group's operations, financial condition and prospects. These effects in turn could have an effect on the Issuer's ability to fulfil its obligations under the Conditions of the N&C Securities including its ability to pay any interest or redemption amounts to investors.

1. Geopolitical and Macro-Economic Risks

The Group's operations, financial condition and prospects may be materially impacted by economic conditions in the UK and disruptions in the global economy and global financial markets

The Group's business activities are concentrated in the UK, where it offers a range of banking and financial products and services to UK retail and corporate customers. As a consequence, the Group's operations, financial condition and prospects are significantly affected by the general economic conditions in the UK.

In particular, the Group may face, among others, the following risks related to any future economic downturn:

- Reduced demand for the Group's products and services.
- Inability of the Group's borrowers to comply fully or in a timely manner with their existing obligations.
- The process the Group uses to estimate losses inherent in its credit exposure requires complex judgements and assumptions, including forecasts of economic conditions, if such economic conditions develop more adversely than the Group's estimates it may impair the ability of the Group's borrowers to repay their loans.
- The degree of uncertainty concerning economic conditions may adversely affect the accuracy of the Group's estimates, which may, in turn, impact the reliability of the process and the sufficiency of the Group's loan loss allowances.
- Lower or negative interest rates, reducing the Group's interest margins.
- The value and liquidity of the portfolio of investment securities that the Group holds may be adversely affected.
- The recovery of the international financial industry may be delayed and impact the Group's operations, financial condition and prospects.
- Adverse macroeconomic developments may have a negative impact on the household income of the Group's retail customers and the profitability of the Group's business customers, which may adversely affect the recoverability of the Group's loans and other extensions of credit and result in increased credit losses.

Adverse changes in the credit quality of the Group's borrowers and counterparties or a general deterioration in UK economic conditions could reduce the recoverability and value of the Group's assets and require an increase in its level of provisions for bad and doubtful debts. There can be no assurance that the Group will not have to

increase its provisions for loan losses in the future as a result of increases in non-performing loans or for other reasons beyond its control. Material increases in the Group's provisions for loan losses and write-offs or charge-offs could have a material adverse effect on its operations, financial condition and prospects. Any significant related reduction in the demand for its products and services could also have a material adverse effect on the Group's operations, financial condition and prospects.

The UK's withdrawal from the European Union could have a material adverse effect on the Group's operations, financial condition and prospects

On 31 January 2020 the UK ceased to be a member of the European Union ("EU"), on withdrawal terms which establish a transition period until 31 December 2020. During the transition period the UK will be treated as if it were still a member of the EU for trading purposes. EU legislation will continue to apply in the UK and negotiations on a trade agreement will be conducted, as well as negotiations on the extent of legislative and regulatory convergence and regulatory cooperation. The EU will also carry out regulatory equivalence assessments for financial services. Such assessments, even if positive, do not guarantee that equivalence will be granted to the UK as a third country pursuant to equivalence regimes in existing EU financial services legislation. Although the withdrawal agreement foresees the possibility to extend the transition period for two more years after the 31 January 2020, this is not automatic as the UK has enshrined the 31 December 2020 date in domestic legislation passing the withdrawal agreement as the end of the transition period, signalling a current desire not to extend it.

Uncertainty remains around the terms of the UK's relationship with the EU at the end of the transition period. If the transition period were to end without a comprehensive trade agreement, the UK's economic growth may be negatively impacted. At the end of the transition period, even if a trade agreement is entered into and/or if equivalence is granted to certain areas of the UK's financial services, contingency measures may still be necessary in certain economic or financial matters to avoid uncertainty and adverse economic effects and there may be some changes in the products and services that the Group can continue to offer into the EEA and to EEA residents or EEA incorporated entities. Where possible, the Group would look to service such EEA customers from Banco Santander SA instead.

While the longer term effects of the UK's anticipated withdrawal from the EU are difficult to predict, there is ongoing political and economic uncertainty, which is likely to continue in the medium term. Management has identified a number of risks to the Group as a consequence of this uncertainty and the result of the withdrawal process, including the following:

- *Increased market volatility:* There could be a negative impact on the Group's cost of or access to funding, especially in an environment in which the Group's credit ratings are impacted, it could affect interest and currency exchange rates and the value of assets in the Group's banking book or of securities held by the Group for liquidity purposes.
- *The Group is subject to substantial EU-derived regulation and oversight:* Although legislation has now been passed transferring EU regulation into UK law, there remains significant uncertainty as to the legal and regulatory environment in which the Group and its subsidiaries will operate when the transition period ends.
- *Uncertainty on cross-border operations:* The Group and other financial institutions will not be able to rely on the European passporting framework for financial services and may not be able to utilise EU financial markets infrastructure, and it is unclear what alternative regime may be in place following the UK's departure from the EU, which would limit the ability of the Group to carry on cross-border business in the EU.
- An adverse effect on the UK economy impacting on the Group's customers and clients.

Were one or more of these risks to arise it could have a material adverse effect on the Group's operations, financial condition and prospects.

2. **Business Model Risks**

The Group is exposed to competition from other financial institutions, including new entrants into the financial services sector

The markets for UK financial services are very competitive and the Group has seen strong competition from incumbent banks and large building societies. In addition, the Group faces competition from a number of new entrants, non-banks and other providers. The UK government and regulators are actively supporting the emergence of new entrants into the UK financial services market. The internet and mobile technologies are also changing customer behaviour and the competitive environment. There has been a steep rise in customer use of mobile banking in recent years. The Group faces competition from established providers of financial services as well as from banking business developed by non-financial companies, including technology companies and large retail companies with strong brand recognition.

Management expects such competition to continue or intensify as a result of customer behaviour and trends, technological changes, competitor behaviour, the growth in digital banking, new lending models and changes in regulation (including the recent introduction of Open Banking and changes arising from the Second Payment Services Directive (the "PSD2")). As a result of any restructuring or evolution in the market, there may emerge one or more new viable competitors in the UK banking market or a material strengthening of one or more of the Group's existing competitors in that market, limiting the Group's ability to increase its customer base and expand its operations, increasing competition for investment opportunities and potentially reducing the Group's market share.

Any of these factors or a combination thereof could result in a significant reduction in the profit of the Group. The Group gives consideration to the competitive position in its management actions, such as pricing, product decisions and our business model. Increasing competition could mean that the Group increases rates offered on deposits or lowers the rates it charges on loans, or changes its cost base, any of which could have a material adverse effect on its operations, financial condition and prospects.

The Group's ability to maintain its competitive position depends, in part, on the success of new financial and investment products and services it offers its customers and its ability to meet its customers' changing financial and investment needs

The success of the Group's operations and its profitability depends, in part, on the success of new financial and investment products and services it offers to customers. However, the Group cannot guarantee that such new products and services will meet the needs or preferences of the Group's customers which may change over time, and such changes may render the Group's products and services obsolete, outdated or unattractive, and the Group may not be able to develop new products that meet its customers' changing financial and investment needs in a timely manner. As the Group expands the range of its financial and investment products and services, some of which may be at an early stage of development in the UK market, it will be exposed to known, new and potentially increasingly complex risks, including conduct risk, and development expenses. The Group's employees and risk management systems, as well as its experience and that of its partners, may not be sufficient or adequate to enable it to properly handle or manage such risks. In addition, the cost of developing products that are not launched is likely to affect its operating results.

Any or all of the above factors, individually or collectively, could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's loan portfolio is subject to risk of prepayment

The Group's loan portfolio is subject to prepayment risk resulting from the ability of a borrower or issuer to pay a debt obligation prior to maturity. Generally, in a low interest rate environment, prepayment activity increases, which reduces the weighted average lives of the Group's earning assets and could have a material adverse effect on the Group's operations, financial condition and prospects.

As a result the Group could be required to amortise net premiums into income over a shorter period of time, thereby reducing the corresponding asset yield and net interest income and there is a risk that the Group is not able to accurately forecast amortisation schedules for these purposes which may affect its profitability. Prepayment risk also has a significant adverse impact on credit card and collateralised mortgage loans, since prepayments could shorten the weighted average life of these assets, which may result in a mismatch in the Group's funding obligations and reinvestment at lower yields. The risk of prepayment and its ability to accurately forecast amortisation schedules is inherent in the Group's commercial activity and an increase in prepayments or a failure to accurately forecast amortisation schedules could have a material adverse effect on the Group's operations, financial condition and prospects.

If the Group is unable to manage the growth of its operations, this could have a material adverse impact on its profitability

The Group allocates management and planning resources to develop strategic plans for organic growth, and to identify possible acquisitions and disposals and areas for restructuring its businesses when necessary. From time to time, the Group evaluates acquisition, disposal, and partnership opportunities that it believes could offer additional value to its shareholders and customers, and are consistent with its business strategy. However, the Group may not be able to identify suitable acquisition or partnership candidates, and may not be able to acquire promising targets or form partnerships on favourable terms, or at all. Furthermore, preparations for acquisitions that the Group does not complete can be disruptive. The Group bases its assessment of potential acquisitions and partnerships on limited and potentially inexact information and on assumptions with respect to value, operations, profitability and other matters that may prove to be incorrect. The Group's ability to benefit from any such acquisitions and partnerships will depend in part on its successful integration of those businesses. Such integration entails significant risks such as challenges in retaining the customers and employees of the acquired businesses, unforeseen difficulties in integrating operations and systems and unexpected liabilities or contingencies relating to the acquired businesses, including legal claims and regulatory investigations. Moreover, the success of the acquisition or venture will at least in part be subject to a number of political, economic and other factors that are beyond the Group's control. The Group can give no assurances that its expectations with regard to integration and synergies will materialise.

The Group cannot provide assurance that it will, in all cases, be able to manage its growth effectively or to implement its strategic growth decisions, including its ability to:

- Manage efficiently the operations and employees of expanding businesses
- Maintain or grow its existing customer base
- Successfully execute its strategy
- Fully due diligence and assess the value, strengths and weaknesses of investment or acquisition candidates
- Finance strategic opportunities, investments or acquisitions
- Fully integrate strategic investments, or newly-established entities or acquisitions, in line with its strategy
- Align its current information technology systems adequately with those of an enlarged group
- Apply its risk management policy effectively to an enlarged group

Any or all of these factors, individually or collectively, could have a material adverse effect on the Group's operations, financial condition and prospects.

Damage to the Group's reputation could cause harm to its business prospects

Maintaining a positive reputation is critical to attracting and retaining customers, investors and employees and conducting business transactions with counterparties. Damage to the reputation of the Group or Banco Santander SA (as the ultimate parent of the Group), the reputation of affiliates operating under the 'Santander' brand or any of its other brands could therefore cause significant harm to the Group's business and prospects. Harm to the Group's reputation can arise directly or indirectly from numerous sources, including, among others, employee misconduct (including the possibility of employee fraud), litigation, regulatory interventions and enforcement action, failure to deliver minimum standards of service and quality, disruption to service due to a cyber-attack, wider IT failures, compliance failures, third party fraud, financial crime, breach of legal or regulatory requirements, unethical behaviour (including adopting inappropriate sales and trading practices), and the activities of customers, suppliers, counterparties and the perception of the financial services industry as a whole. Further, negative publicity regarding the Group, whether true or not, could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group could suffer significant reputational harm if it fails to identify and manage potential conflicts of interest properly. The failure, or perceived failure, to adequately address conflicts of interest could affect the willingness of customers to deal with the Group, or give rise to litigation or regulatory enforcement actions against the Group. Therefore, there can be no assurance that conflicts of interest will not arise in the future that could cause material harm to the Group's financial condition and prospects.

3. Capital and Liquidity Risks

The Group is subject to regulatory capital, liquidity and leverage requirements that could limit its operations, and changes to these requirements may further limit and could have a material adverse effect on the Group's operations, financial condition and prospects

The Group is subject to capital adequacy requirements applicable to banks and banking groups under directly applicable EU legislation and as adopted by the Prudential Regulation Authority ("**PRA**") (for more information on these capital adequacy requirements, see the "*Description of the Issuer*" and the section entitled "*Regulatory Overview – Capital Requirements Regulation and Capital Requirements Directive IV*"). Any changes imposed or action taken by the PRA or the Financial Policy Committee (the "**FPC**") under such requirements and any failure by the Group to comply with such requirements may result in administrative actions or sanctions and/or could have a material adverse effect on the Group's operations, financial condition and prospects.

In addition to the above, regulators in the UK and worldwide have produced a range of proposals for future legislative and regulatory changes which could force the Group to comply with certain operational restrictions or take steps to raise further capital, or could increase the Group's expenses and could have a material adverse effect on the Group's operations, financial condition and prospects.

There is a risk that changes to the UK's capital adequacy regime (including any increase to minimum leverage ratios) may result in increased minimum capital requirements, which could reduce available capital for new business purposes and adversely affect the Group's cost of funding, profitability and ability to pay dividends, continued organic growth (including increased lending), or pursue acquisitions or other strategic opportunities (alternatively the Group could be required to restructure its balance sheet to reduce the capital charges incurred pursuant to the PRA's rules in relation to the assets held, or raise additional capital but at increased cost and subject to prevailing market conditions). In addition, changes to the eligibility criteria for Tier 1 and Tier 2 capital may affect the Group's ability to raise Tier 1 and Tier 2 capital and impact the recognition of existing Tier 1 and Tier 2 capital resources in the calculation of the Group's capital position. Furthermore increased capital requirements may negatively affect the Group's return on equity and other financial performance indicators.

The Group's business could be affected if its capital is not managed effectively or if these measures limit the Group's ability to manage its balance sheet and capital resources effectively or to access funding on commercially acceptable terms. Effective management of the Group's capital position is important to the Group's ability to operate its business, to continue to grow organically and to pursue its business strategy. There is a risk that implementing and maintaining existing and new liquidity requirements, such as through enhanced liquidity risk

management systems, may incur significant costs, and more stringent requirements to hold liquid assets may materially affect the Group's lending business as more funds may be required to acquire or maintain a liquidity buffer, thereby reducing future profitability. This could in turn adversely impact the Group's operations, financial condition and prospects.

Liquidity and funding risks are inherent in the Group's business and could have a material adverse effect on the Group's operations, financial condition and prospects

Liquidity risk is the risk that the Group either does not have available sufficient financial resources to meet its obligations as they fall due or can secure them only at excessive cost. This risk is inherent in any retail and commercial banking business and can be heightened by a number of enterprise-specific factors, including over-reliance on a particular source of funding, changes in credit ratings or market-wide phenomena such as market dislocation. While the Group maintains a liquid asset buffer and implements liquidity management processes to seek to mitigate and control these risks, in particular, unforeseen systemic market factors like those experienced during the last financial crisis make it difficult to eliminate these risks completely. There can be no assurance that such circumstances will not reoccur. Extreme liquidity constraints may affect the Group's operations and its ability to fulfil regulatory liquidity requirements, as well as limit growth possibilities. Disruption and volatility in the global financial markets could have a material adverse effect on the Group's ability to access capital and liquidity on financial terms acceptable to it. A sudden or unexpected shortage of funds in the banking system could threaten the stability of the banking system, and lead to increased funding costs, a reduction in the term of funding instruments or require the Group to liquidate certain assets, thereby impacting the Group's liquidity position and its ability to pay its debts. If these circumstances were to arise, this could have a material adverse effect on the Group's results, operations, financial condition and prospects.

The Group's cost of funding is directly related to prevailing interest rates and to its credit spreads. Increases in interest rates and the Group's credit spreads can significantly increase the cost of its funding. Changes in the Group's credit spreads are market-driven and may be influenced by market perceptions of its creditworthiness. Changes to interest rates and the Group's credit spreads occur continuously and may be unpredictable and highly volatile.

If wholesale markets financing ceases to be available, or becomes excessively expensive, the Group may be forced to raise the rates it pays on deposits, with a view to attracting more customers, and/or to sell assets, potentially at depressed prices. The persistence or worsening of these adverse market conditions, significant increases in capital markets funding costs or deposit rates could have a material adverse effect on the Group's interest margins, its cost of funding, access to liquidity and its profitability and therefore on its operations, financial condition and prospects.

In recent years the Group has also made use of central bank funding schemes such as the Bank of England's (the "BoE") Funding for Lending scheme and Term Funding Scheme. As at 30 September 2019, the Group had drawn £10.75bn of UK Treasury Bills under the Term Funding Scheme and £1.0bn of UK Treasury Bills under BoE's Term Funding Scheme. A rapid removal or significant reduction, in outstanding quantitative easing purchase programmes could have an adverse effect on the Group's ability to access liquidity and on its funding costs. Any significant reduction or withdrawal of any central bank funding facilities the Group may be utilising at any given time could cause an increased dependence on term funding issues and increase its funding costs.

Each of the factors described above could have a material adverse effect on the Group, including its ability to access capital and liquidity on financial terms acceptable to it and, more generally, on its operations, financial condition and prospects.

Further, the Group aims for a funding structure that is consistent with its assets, avoids excessive reliance on short-term wholesale funding, attracts enduring retail and commercial deposits and provides diversification in products and tenor. The Group therefore relies, and will continue to rely, on retail and commercial deposits to fund a significant proportion of lending activities. The on-going availability of this type of funding is sensitive to a variety of factors outside the Group's control, such as general economic conditions and the confidence of depositors in the economy, in the financial services industry in general, confidence in Santander UK specifically,

the Group's credit rating and the availability and extent of deposit guarantees, as well as competition between banks for deposits or competition with other products, such as mutual funds. A change in any of these factors could significantly increase the amount of commercial deposit withdrawals in a short period of time, thereby reducing its ability to access deposit funding on appropriate terms, or at all, in the future, and therefore have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's liquidity planning assumes that customers will continue to make a volume of deposits with the Group (particularly demand deposits and short-term time deposits), and the Group intends to maintain its emphasis on the use of deposits as a source of funds. The short-term nature of some deposits could cause liquidity problems for the Group in the future if deposits are not made in the volumes anticipated or are withdrawn at short notice or are not renewed. If a substantial number of depositors withdraw their demand deposits or do not roll over their time deposits upon maturity, there may be a material adverse effect on the Group's operations, financial condition and prospects.

An adverse movement in the Group's external credit rating would likely increase its cost of funding, require the Group to post additional collateral or take other actions under some of its derivative contracts and adversely affect the Group's operations, financial condition and prospects

Credit ratings affect the cost and other terms upon which the Group is able to obtain funding. Credit rating agencies regularly evaluate the Group, and their credit ratings of the Group and the Group's issued debt are based on a number of factors, including the Group's financial strength, the strength of the UK economy and conditions affecting the financial services industry generally.

Any downgrade in the external credit ratings assigned to the Group or any of the Group's debt securities could have an adverse impact on the Group. In particular, such downgrade in the Group's credit ratings could increase its borrowing costs and could require it to post additional collateral or take other actions under some of derivatives, loan facilities or other financial contracts, and could limit its access to capital markets and have a material adverse effect on its operations, financial condition and prospects. For example, a credit rating downgrade could have a material adverse effect on the Group's ability to sell or market certain products, engage in certain longer-term or derivatives transactions and retain its customers or investors, particularly those who need a minimum rating threshold in order to transact or invest.

Any of these results of a credit rating downgrade could, in turn, result in outflows and reduce the Group's liquidity and have an adverse effect on the Group, including its operations, financial condition and prospects. For example, the Group estimates that at 31 December 2018, if Fitch, Moody's and Standard & Poor's had concurrently downgraded the long-term credit ratings of the Group by one notch, and thereby trigger a short-term credit rating downgrade, this could have resulted in an outflow of £3.6bn of cash and collateral. A hypothetical two notch downgrade would have resulted in a further outflow of £0.2bn of cash and collateral at 31 December 2018. These potential outflows are captured under the Liquidity Coverage Ratio ("LCR") regime. However, while certain potential impacts are contractual and quantifiable, the full consequences of a credit rating downgrade are inherently uncertain, as they depend upon numerous dynamic, complex and inter-related factors and assumptions, including market conditions at the time of any downgrade, whether any downgrade of a firm's long-term credit rating precipitates downgrades to its short-term credit rating, whether any downgrade precipitates changes to the way that the financial institutions sector is rated, and assumptions about the ratings of other financial institutions and the potential behaviours of various customers, investors and counterparties. Actual outflows will also depend upon certain other factors including any management or restructuring actions that could be taken to reduce cash outflows and the potential liquidity impact from a loss of unsecured funding (such as from money market funds) or loss of secured funding capacity.

There can be no assurance that the credit rating agencies will maintain the Group's current credit ratings or outlooks. A failure to maintain favourable credit ratings or outlooks could increase the Group's cost of funding, adversely affect the Group's interest margins, and reduce its ability to secure both long-term and short-term funding. If a downgrade of a Group member's long-term credit ratings were to occur, it could also impact the short-term credit ratings of other members of the Group. The occurrence of any of these events could have a material adverse effect on the Group's operations, financial condition and prospects.

Negative changes to the UK sovereign credit rating, or the perception that further negative changes may occur, could have a material adverse effect on the Group's operations, financial condition, prospects and the marketability and trading value of its securities. This might also have an impact on the Group's own credit rating, borrowing costs and ability to secure funding. Negative changes to the UK sovereign credit rating, or the perception that further negative changes may occur, could also have a material effect in depressing consumer confidence, restricting the availability, and increasing the cost, of funding for individuals and companies, further depressing economic activity, increasing unemployment and reducing asset prices, which could in turn have a material adverse effect on the Group's operations, financial condition and prospects.

Changes in the Group's pension liabilities and obligations could have a materially adverse effect on the Group's operations, financial condition and prospects

The majority of current employees are provided with pension benefits through defined contribution arrangements. Under these arrangements the Group's obligation is limited to the cash contributions paid. The Group provides retirement benefits for many of its former and current employees in the UK through a number of defined benefit pension schemes established under trust. Santander UK plc is the principal employer under the majority of these schemes, but it has only limited control over the rate at which it pays into such schemes. Under the UK statutory pension funding requirements employers are usually required to contribute to the schemes at the rate they agree with the scheme trustees although, if they cannot agree, the rate can be set by the Pensions Regulator. The scheme trustees may, in the course of discussions about future valuations, seek higher employer contributions. The scheme trustees' power in relation to the payment of pension contributions depends on the terms of the trust deed and rules governing the pension schemes, but, in some cases, the scheme trustees may have the unilateral right to set the employer's relevant contribution.

The Pensions Regulator has the power to issue a financial support direction to companies within a group in respect of the liability of employers participating in the UK defined benefit pension schemes where that employer is a service company, or is otherwise 'insufficiently resourced' (as defined for the purposes of the relevant legislation). As some of the employers within the Group are service companies, if the Pensions Regulator determines that they have become insufficiently resourced and no suitable mitigating action is undertaken, other companies within the Group which are connected with or an associate of those employers are at risk of a financial support direction in respect of those employers' liabilities to the defined benefit pension schemes in circumstances where the Pensions Regulator properly considers it reasonable to issue one. Such a financial support direction could require the companies to guarantee or provide security for the pension liabilities of those employers, or could require additional amounts to be paid into the relevant pension schemes in respect of them.

The Pensions Regulator can also issue contribution notices if it is of the opinion that an employer has taken actions, or failed to take actions, deliberately designed to avoid meeting its pension promises or which are materially detrimental to the scheme's ability to meet its pension promises. A contribution notice can be issued to any company or individual that is connected with or an associate of such employer in circumstances where the Pensions Regulator considers it reasonable to issue it and multiple notices could be issued to connected companies or individuals for the full amount of the debt. The risk of a contribution notice being imposed may inhibit the Group's freedom to restructure or to undertake certain corporate activities. There is a risk that the Group could incur an obligation to make a contribution to the scheme by virtue of section 75 or 75A of the Pensions Act 1995 as a result of a reorganisation or disposal of the Group's businesses.

Should the value of assets to liabilities in respect of the defined benefit schemes operated by the Group record a deficit or an increased deficit (as appropriate), due to either a reduction in the value of the pension fund assets (depending on the performance of financial markets) not matched by a fall in the pension fund liabilities and/or an increase in the scheme liabilities not matched by an increase in the pension fund assets due to changes in legislation, mortality assumptions, discount rate assumptions, inflation, or other factors, or there is a change in the actual or perceived strength of the employer's covenant, this could result in the Group having to make increased contributions to reduce or satisfy the deficits which would divert resources from use in other areas of its business and reduce its capital resources. While the Group can control a number of the above factors, there are some over which the Group has no or limited control. Although the trustees of the defined benefit pension

schemes are obliged to consult with the Group before changing the pension schemes' investment strategy, the trustees have the final say and ultimate responsibility for investment strategy rests with them.

Changes in UK legislation and regulation to address perceived failings in pension protection following recent high profile company insolvencies with large pension deficits may also affect the Group's position. Specific areas where concerns have been raised are levels of dividends where there is a pension scheme with a deficit and the length of time taken to address deficits. Changes in legislation or regulation could result in the Group having to make increased contributions to reduce or satisfy the deficits which would divert resources from use in other areas of its business and reduce its capital resources.

Any increase in the Group's pension liabilities and obligations as a result of the foregoing factors could have a material adverse effect on the Group's operations, financial conditions and prospects.

4. Market Risks

The Group's financial results are constantly exposed to market risk. The Group is subject to fluctuations in interest rates and other market risks, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Market risk refers to the probability of variations in the Group's net interest income or in the market value of its assets and liabilities due to volatility of interest rates, exchange rates or equity prices.

Changes in interest rates would affect the following areas, among others, of the Group's business:

- Net interest income.
- The value of the Group's derivatives transactions.
- The market value of the Group's securities holdings.
- The value of the Group's loans and deposits.
- The volume of loans originated.

Interest rates are highly sensitive to many factors beyond the Group's control, including increased regulation of the financial sector, monetary policies, domestic and international economic and political conditions and other factors. Variations in interest rates could affect the interest earned on the Group's assets and the interest paid on its borrowings, thereby affecting its net interest income, which comprises the majority of its revenue, reducing its growth rate and profitability and potentially resulting in losses. In addition, costs the Group incurs putting into place strategies to reduce interest rate exposure could increase in the future, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Increases in interest rates may reduce the volume of loans originated by the Group. Sustained high interest rates have historically discouraged customers from borrowing and have resulted in increased delinquencies in outstanding loans and deterioration in the quality of assets. Increases in interest rates may also reduce the propensity of the Group's customers to prepay or refinance fixed-rate loans, reduce the value of its financial assets and reduce gains or require the Group to record losses on sales of the Group's loans or securities, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Due to the historically low interest rate environment in the UK in recent years, the rates on many of the Group's interest-bearing deposit products have been priced at or near zero, which may limit the Group's ability to further reduce customer rates in the event of further cuts in BoE Base Rate. If a generally low interest rate environment in the UK persists in the long term, it may be difficult to increase the Group's net interest income, which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group is exposed to risks relating to the integrity and continued existence of reference rates

LIBOR and other interest rates are used in securities issued and held by the Group and in contracts with its financial counterparts, customers and investors. Reference rates and indices, including LIBOR and other interest rate benchmarks are subject to national, international and other regulatory guidance and proposals for reform and transition to alternative rates. On 29 November 2017, the FCA announced that its Working Group on Sterling Risk-Free Rates was to be mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("SONIA") over the next four years across sterling bond, loan and derivative markets, so that SONIA is established as the primary sterling interest rate benchmark and regulators in the United Kingdom continue to seek the replacement of LIBOR by the end of 2021.

Any such changes to, or replacement of benchmarks may cause contracts in which they are used to perform differently than in the past, or may have other consequential effects on any of the Group's rights and obligations which depend on such benchmarks and any fallbacks. In particular, the transition from GBP LIBOR to SONIA and the elimination of the LIBOR benchmark will require an adjustment to the terms of financial contracts to which the Group is a party which relate to LIBOR. This could have a material adverse effect on the Group's operations, financial condition and prospects.

It is not yet clear whether LIBOR will cease to exist entirely before the end of 2021, whether the use of LIBOR will be made unlawful or impermissible in future, and whether there will be any transitional arrangements set out either by law, regulation or market practice. The lack of a legal or regulatory framework for the automatic transition of legacy contracts and agreements, makes such transition more complex and subject to risks that could have a material adverse effect on the Group's operations, financial condition and prospects.

When LIBOR is replaced or ceases to exist (or if the methodology for calculating LIBOR or any successor benchmark rate changes for any reason), interest rates on the Group's floating rate obligations, loans, deposits, derivatives, and other financial instruments linked to LIBOR rates, as well as the revenue and expenses associated with those financial instruments, may be adversely affected. In addition, any uncertainty regarding the continued use and reliability of LIBOR as a benchmark interest rate could adversely affect the value of the Group's floating rate obligations, loans, deposits, derivatives, and other financial instruments linked to LIBOR rates. Any such issues relating to LIBOR or other benchmarks or reference rates (including SONIA) could have a material adverse effect on the Group's operations, financial condition and prospects.

Market conditions have resulted in, and could continue to result in, material changes to the estimated fair values of the Group's financial assets. Negative fair value adjustments could have a material adverse effect on the Group's operations, financial condition and prospects

The Group has material exposures to securities, loans, derivatives and other investments that are recorded at fair value and are therefore exposed to potential negative fair value adjustments. Asset valuations in future periods, reflecting the prevailing market conditions, may result in negative changes in the fair values of the Group's financial assets. In addition, the value ultimately realised by the Group on disposal may be lower than the current fair value, during the last global financial crisis, financial markets were subject to periods of significant stress resulting in steep falls in perceived or actual financial asset values, particularly due to volatility in global financial markets and the resulting widening of credit spreads. Any of these factors could require the Group to record negative fair value adjustments, which could have a material adverse effect on its operations, financial condition and prospects.

In addition, to the extent that fair values are determined using financial valuation models, such values may be inaccurate or subject to change, as the data used by such models may not be available or may become unavailable due to changes in market conditions, particularly for illiquid assets and in times of economic instability. In such circumstances, the Group's valuation methodologies require it to make assumptions, judgements and estimates in order to establish fair value.

Reliable assumptions are difficult to make and are inherently uncertain. Moreover, valuation models are complex, making them inherently imperfect predictors of actual results. Any consequential impairments or write-downs could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group invests in debt securities of the UK Government largely for liquidity management purposes. At 31 December 2019, approximately 9 per cent. of the Group's total assets and 48 per cent. of the Group's securities portfolio were comprised of debt securities issued by the UK Government. Any failure by the UK Government to make timely payments under the terms of these securities, or a significant decrease in their market value, could have a material adverse effect on the Group's operations, financial condition and prospects.

5. Credit Risks

If the level of non-performing loans increases or the credit quality of the Group's loans deteriorates in the future, or if the Group's loan loss reserves are insufficient to cover loan losses, this could have a material adverse effect on the Group's operations, financial condition and prospects

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Group's businesses. Non-performing or low credit quality loans have in the past, and could continue to, have a material adverse effect on the Group's operations, financial condition and prospects.

In particular, the amount of the Group's reported non-performing loans may increase in the future as a result of growth in the Group's total loan portfolio, including as a result of loan portfolios that the Group may acquire in the future (the credit quality of which may turn out to be worse than the Group had anticipated), or factors beyond the Group's control, such as adverse changes in the credit quality of the Group's borrowers and counterparties, a general deterioration in the UK or global economic conditions, the impact of political events, events affecting certain industries or events affecting financial markets and global economies.

There can be no assurance that the Group will be able to effectively control the level of impaired loans in, or the credit quality of, its total loan portfolio, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Interest rates payable on a significant portion of the Group's outstanding mortgage loan products fluctuate over time due to, among other factors, changes in the BoE Base Rate. As a result, borrowers with variable interest rate mortgage loans are exposed to increased monthly payments when the related mortgage interest rate adjusts upward. Similarly, borrowers of mortgage loans with fixed or introductory rates adjusting to variable rates after an initial period are exposed to the risk of increased monthly payments at the end of this period. Over the last few years both variable and fixed interest rates have been at historically low levels, which has benefited borrowers of new loans and those repaying existing variable rate loans regardless of special or introductory rates. Future increases in borrowers' required monthly payments may result in higher delinquency rates and losses related to non-performing loans in the future. Borrowers seeking to avoid these increased monthly payments by refinancing their mortgage loans may no longer be able to find available replacement loans at comparably low interest rates. These events, alone or in combination, may contribute to higher delinquency rates and losses for the Group, which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's current loan loss reserves may not be adequate to cover an increase in the amount of non-performing loans or any future deterioration in the overall credit quality of the Group's total loan portfolio. The Group's loan loss reserves are based on the Group's current assessment of various factors affecting the quality of its loan portfolio, including its borrowers' financial condition, repayment abilities, the realisable value of any collateral, the prospects for support from any guarantor, government macroeconomic policies, interest rates and the legal and regulatory environment. Many of these factors are beyond the Group's control. As a result, there is no precise method for predicting loan and credit losses, and no assurance can be provided that the Group's current or future loan loss reserves will be sufficient to cover actual losses.

If the Group's assessment of and expectations concerning the above mentioned factors differ from actual developments the Group may need to increase its loan loss reserves, which may adversely affect the Group's operations, financial condition and prospects. Additionally, in calculating its loan loss reserves, the Group employs qualitative tools and statistical models which may not be reliable in all circumstances and which are dependent upon data that may not be complete. If the Group is unable to control or reduce the level of its non-performing or poor credit quality loans, this could have a material adverse effect on the Group's operations, financial condition and prospects.

The value of the collateral, including real estate, securing the Group's loans may not be sufficient, and the Group may be unable to realise the full value of the collateral securing the Group's loan portfolio

The value of the collateral securing the Group's loan portfolio may significantly fluctuate or decline due to factors beyond the Group's control, including macroeconomic factors affecting the UK's economy. The Group's residential mortgage loan portfolio is one of its principal assets, comprising 81 per cent. of the Group's loan portfolio at 31 December 2019. As a result, the Group is highly exposed to developments in the residential property market in the UK.

House price growth has slowed since the UK Referendum to exit the EU, most noticeably in London, although UK house prices have generally continued to be supported by certain economic fundamentals including historically low mortgage rates and low unemployment rates. Nevertheless, any increase in house prices may be limited given low levels of consumer confidence and low levels of real earnings growth. The depth of the previous house price declines as well as the continuing uncertainty as to the extent and sustainability of the UK economic recovery will mean that losses could be incurred on loans should they go into possession.

The value of the collateral securing the Group's loan portfolio may also be adversely affected by force majeure events such as natural disasters like floods or landslides exacerbated by climate change trends. Any force majeure event may cause widespread damage and could have an adverse impact on the economy of the affected region and may therefore impair the asset quality of the Group's loan portfolio in that area.

The Group may also not have sufficiently up-to-date information on the value of collateral, which may result in an inaccurate assessment for impairment losses on loans secured by such collateral.

If any of the above events were to occur, the Group may need to make additional provisions to cover actual impairment losses of its loans, which could have a material adverse effect on the Group's operations, financial condition and prospects.

6. Legal & Regulatory Risks

The Group is subject to substantial and evolving regulation and governmental oversight which could have a material adverse effect on the Group's operations, financial conditions and prospects

As a financial services group, the Group is subject to extensive financial services laws, regulations, administrative actions and policies in the UK, the EU and in each other location in which the Group operates. The sector is facing unprecedented levels of government and regulatory intervention and scrutiny, and changes to the regulations governing financial institutions and the conduct of business. In addition, regulatory and governmental authorities have continued to consider further enhanced or new legal or regulatory requirements intended to reduce the probability and impact of future crises (or otherwise assure the stability of institutions under their supervision), enhance consumer protection and improve controls in relation to financial crime-related risks. The Group expect regulatory and government intervention in the banking sector to remain high for the foreseeable future. An intensive approach to supervision is maintained in the United Kingdom by the PRA, the Legal Services Board ("**LSB**"), FCA, the Payment Systems Regulator ("**PSR**") and the Competition and Markets Authority ("**CMA**").

As well as being subject to UK regulation, as part of the Santander Group, the Group is also affected by other regulators such as the Banco de España (the "**Bank of Spain**") and the European Central Bank (the "**ECB**"), as

well as various legal and regulatory regimes (including the US) that have extra-territorial effect. Extensive legislation and implementing regulations affecting the financial services industry have recently been adopted in regions that directly or indirectly affect the Group's business, including Spain, the U.S., the EU and other jurisdictions.

The manner in which financial services laws, regulations and policies are applied to the operations of financial institutions has gone through great change which is still being implemented and reviewed. Recent proposals and measures taken by governmental, tax and regulatory authorities and further future changes in supervision and regulation (in particular in the UK), are beyond the Group's control and could materially affect the Group's business.

Changes in UK legislation and regulation to address the stability of the financial sector may also affect the Group's competitive position, particularly if such changes are implemented before international consensus is reached on key issues affecting the industry.

To the extent these laws, regulations and policies apply to it, the Group may face higher compliance costs. The Group may lack the capacity to readily respond to multiple regulatory or government policy changes simultaneously. Any legislative or regulatory actions and any required changes to the Group's business operations resulting from such laws, regulations and policies as well as any deficiencies in the Group's compliance with such laws, regulations and policies could result in significant loss of revenue, could have an impact on the Group's strategy, limit its ability to pursue business opportunities in which the Group might otherwise consider engaging, limit the Group's ability to provide certain products and services and result in enforcement action and the imposition of financial and other penalties. They may also affect the value of assets that the Group holds, requiring the Group to increase its prices thereby reducing demand for the Group's products or otherwise have a material adverse effect on its operations, financial condition and prospects. Accordingly, there can be no assurance that future changes in laws, regulations and policies or in their interpretation or application by the Group or by regulatory authorities will not adversely affect the Group.

Specific examples of areas where regulatory changes and increased regulatory scrutiny could have a material adverse effect on the Group's operations, financial condition and prospects include, but are not limited to, the following:

- **Banking Reform:** Given the complexity of the ring-fencing regulatory regime under the Financial Services (Banking Reform) Act 2013 and the material impact on the way the group now conducts its business operations in the UK, there is a risk that the Group and/or Santander UK plc may be found to be in breach of one or more ring-fencing requirements. This might occur, for example, if prohibited business activities are found to be taking place within the ring-fence, mandated retail banking activities are found being carried on in a UK entity outside the ring-fenced part of the group or the Group breached a PRA ring-fencing rule. From 1 January 2019, if the Group were found to be in breach of any of the ring-fencing requirements placed upon it under the ring-fencing regime, it could be subject to supervisory or enforcement action by the PRA, the consequences of which might include substantial financial penalties, imposition of a suspension or restriction on the Group's UK activities or, in the most serious of cases, forced restructuring of the Group, entitling the PRA (subject to the consent of the UK Government) to require the sale of a Santander ring-fenced bank or other parts of the Group.
- **Competition:** Reviews and investigations by competition authorities (which in the United Kingdom include the CMA, the FCA and the PSR) into any aspect of the Group's operations or the functioning of any markets in which the Group operates, including, but not limited to, personal current accounts, mortgages and the SME retail banking market could have a material adverse effect on the Group's operations, financial condition and prospects.
- **Payments:** Open Banking (which opened up access to customers' online account and payments data to third party providers) and PSD2 both have the potential to exacerbate a number of existing risks including data loss/data protection, cyber security, fraud and wider financial crime risk, which in turn could give rise to increased costs, litigation risk and risk of regulatory investigation and enforcement activity. Examples of

the heightened risk include the risk of fraud relating to activities of a TPP pursuant to which funds are redirected to a third party not chosen by the customer; and the risk of data misuse by a TPP/other third party. If the arrangements that the Group has made to comply with the Group's Open Banking obligation prove to be inadequate or incompatible with legal and regulatory requirements or expectations, the Group could be required to make extensive and costly changes to the Group's systems and controls, policies and practices. The Group might also be fined by regulators, be subject to compensation claimed by customers and might suffer reputational damage. Any requirement to make such changes, any liability to customers, any regulatory fines, or any reputational damage, could have a material adverse effect on the Group's operations, financial condition and prospects.

- **Data Privacy:** Failure to comply with emerging and recently implemented laws and regulations concerning data privacy and localisation in a number of jurisdictions across the globe may result in regulatory sanctions. In particular, the coming into effect of the EU General Data Protection Regulation (the "**GDPR**") on 25 May 2018 has introduced new obligations on data controllers and rights for data subjects. The changes have had, and could continue to have, an adverse impact on the Group's business by increasing its operational and compliance costs. If there are breaches of the GDPR obligations, the Group could face significant administrative and monetary sanctions as well as reputational damage. The occurrence of any of these events could have a material adverse effect on the Group's operations, financial condition and prospects.
- **LIBOR:** There is uncertainty as to whether LIBOR will cease to exist entirely before the end of 2021, whether the use of LIBOR will be made unlawful or impermissible in future, and whether there will be any transitional arrangements set out either by law, regulation or market practice. The lack of a legal or regulatory framework for the automatic transition of legacy contracts and agreements makes such transition more complex and subject to risks that could have a material adverse effect on the Group's operations, financial condition and prospects.
- **Evolving conduct and regulatory policy:** Regulatory changes arising from current FCA initiatives and the development of the CMA of its role and responsibilities in relation to consumer protection could have a material adverse effect on the Group's operations, financial condition and prospects.

See also "*Description of the Issuer*" and the section entitled "*Regulatory Overview*".

The Group may become subject to the provisions of the Banking Act 2009, including bail-in and write down powers

The special resolution regime set out in the Banking Act 2009 (the "**Banking Act**") provides regulators with the powers to impose a "bail-in" order on certain liabilities of banks (for more information on the regime, see "*Description of the Issuer*" and the section entitled "*Regulatory Overview – Banking Act 2009*").

If an instrument or order were made under the Banking Act in respect of an entity in the Group, such instrument or order may affect matters in respect of the Group or such entity and/or other aspects of the shares or other securities of the Group or such entity, which may negatively affect the ability of the Group or such entity to meet its obligations in respect of such shares or securities.

The bail-in power under the Banking Act may potentially be exercised in respect of any unsecured debt securities issued by a bank under resolution or an entity in the Group, regardless of when they were issued. Accordingly, the bail-in power under the Banking Act could be exercised in respect of the Group's debt securities. Public financial support would only be used as a last resort, if at all, after having assessed and utilised, to the maximum extent practicable, the resolution tools including the bail-in tool and the occurrence of circumstances in which bail-in powers would need to be exercised in respect of the Group or any entity in the Group would have a material adverse effect on the Group's operations, financial condition and prospects.

The PRA also has the power to make rules requiring a parent undertaking of a bank to make arrangements to facilitate the exercise of resolution powers, including a power to require a member of a banking group to issue

debt instruments. The exercise of such powers could have an impact on the liquidity of the Group's debt instruments and could materially increase the Group's cost of funding.

In addition, the Bank Recovery and Resolution Directive 2014/59/EU (the "**BRRD**") provides for resolution authorities to have the power to require institutions and groups to make structural changes to ensure legal and operational separation of 'critical functions' from other functions where necessary, or to require institutions to limit or cease existing or proposed activities in certain circumstances. As a result of changes to the PRA Rulebook made to implement the BRRD, Santander UK is now required to identify such 'critical functions' as part of its resolution and recovery planning. If used in respect of the Group, these ex ante powers could have a material adverse effect on the Group's operations, financial condition and prospects.

Further, amendments to the Insolvency Act 1986 and secondary legislation have introduced changes to the treatment and ranking of certain debts with the result that certain eligible deposits will rank in priority to the claims of ordinary (i.e. non-preferred) unsecured creditors in the event of an insolvency. This may negatively affect the ability of unsecured creditors to recover sums due to them in an insolvency scenario.

The Group must comply with anti-money laundering, anti-terrorism, anti-bribery and corruption, sanctions and anti-tax evasion laws and regulations and a failure to prevent or detect any illegal or improper activities fully or on a timely basis could have a material adverse effect on the Group's operations, financial condition or prospects

The Group is required to comply with applicable anti-money laundering ("**AML**"), counter-terrorism financing ("**CTF**"), anti-bribery and corruption, sanctions, anti-tax evasion and other laws and regulations in the jurisdictions in which the Group operates (for more information, see "*Description of the Issuer*" and the section entitled "*Regulatory Overview – Financial Crime*"). If the Group is unable to apply the necessary scrutiny and oversight in relation to such matters, or if such oversight proves insufficient to detect illegal or improper activities, there remains a risk of regulatory breach and this could have a material adverse effect on its operations, financial condition and prospects.

The implementation of new UK legislation related to financial crime has required substantial amendments to its AML / CTF procedures and policies, with additional training and guidance required for employees. Further such amendments will likely be required going forward to reflect changes to UK laws and Government policy post-Brexit. Any changes could adversely impact the Group's business by increasing its operational and compliance costs and reducing the value of its assets and operations, which would in turn have a material adverse effect on the Group's operations, financial condition and prospects.

If the Group is unable to fully comply with applicable laws, regulations and expectations, its regulators and relevant law enforcement agencies have the ability and authority to pursue civil and criminal proceedings against it, to impose significant fines and other penalties on it, including requiring a complete review of the Group's business systems, day-to-day supervision by external consultants, imposing restrictions on the conduct of the Group's business and operations and ultimately the revocation of the Group's banking licence. The reputational damage to its business and brand could be severe if the Group were found to have materially breached AML, CTF, anti-bribery and corruption or sanctions requirements. The Group's reputation could also suffer if it were unable to protect the Group's customers or its business from being used by criminals for illegal or improper purposes. Any of these outcomes could have a material adverse effect on the Group's operations, financial condition and prospects.

At an operational level, geo-political, economic and social changes can provide opportunities to financial criminals and alter the risks posed to banks. Effective intelligence and monitoring systems within strengthened public/private partnerships to share knowledge on emerging risks are required to help mitigate these risks. However, there can be no guarantee that any intelligence shared by public authorities or other financial institutions will be accurate or effective in helping the Group to combat financial crime, and if, despite such efforts, the Group fails to combat financial crime effectively then this could have a material adverse effect on the Group's operations, financial condition and prospects.

In addition, while the Group reviews its relevant counterparties' internal policies and procedures (for example, under its correspondent banking relationships) with respect to such matters, the Group, to a large degree, relies upon its relevant counterparties to maintain and properly apply their own appropriate anti-financial-crime procedures. Such measures, procedures and compliance may not be completely effective in preventing third parties from using its (and its relevant counterparties') services as a conduit for money laundering (including illegal cash operations) without its (or its relevant counterparties') knowledge. There are also risks that other third parties, such as suppliers, could be involved in financial crime. If the Group is associated with, or even accused of being associated with, financial crime (or a business involved in financial crime), then its reputation could suffer and it could become subject to civil or criminal proceedings that could result in penalties, sanctions and legal enforcement (including being added to "black lists" that would prohibit certain parties from engaging in transactions with it), any one of which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group is subject to tax-related risks

The Group is subject to the substance and interpretation of UK tax laws and is subject to routine review and audit by tax authorities in relation thereto. The Group's interpretation or application of these tax laws may differ from those of the relevant tax authorities. While the Group provides for potential tax liabilities that may arise on the basis of the amounts expected to be paid to the tax authorities, the amounts ultimately paid may differ materially from the amounts provided depending on the ultimate resolution of such matters. In general, changes to tax laws and tax rates, including as a result of policy changes by governments and/or regulators, and penalties for failing to comply with such changes, could have a material adverse effect on the Group's operations, financial condition and prospects. Some of these changes may be specific to the banking/financial services sectors and therefore result in the Group incurring an additional tax burden when compared to other industry sectors.

Group is exposed to risk of loss and damage from civil litigation and/or criminal legal and regulatory proceedings

The Group faces various legal and regulatory issues that may give rise to civil or criminal litigation, arbitration, and/or criminal, tax, administrative and/or regulatory investigations, inquiries or proceedings. Failure to adequately manage the risks arising in connection with legal and regulatory issues, including the Group's obligations under existing applicable laws and regulations or its contractual obligations, including arrangements with its customers and suppliers, or failing to properly implement applicable laws and regulations could result in significant loss or damage including reputational damage, all of which could have a material adverse effect on the Group's operations, financial condition and prospects.

Additionally, the current regulatory environment, with the continuing heightened supervisory focus and associated enforcement activity, combined with uncertainty about the evolution of the regulatory regime, may lead to material operational and compliance costs. Relevant risks include:

- Regulators, agencies and authorities with jurisdiction over the Group, including the BoE, the PRA and the FCA, HM Treasury, HM Revenue & Customs ("**HMRC**"), the CMA, the Commission, the Information Commissioner's Office, the Financial Ombudsman Service (the "**FOS**"), the PSR, the Serious Fraud Office (the "**SFO**"), the National Crime Agency (the "**NCA**") or the Courts, may determine that certain aspects of the Group's business have not been or are not being conducted in compliance with applicable laws or regulations (or that policies and procedures are inadequate to ensure compliance), or, in the case of the FOS, with what is fair and reasonable in the FOS's opinion. Changes in policy, laws and regulations including in relation to SME dispute resolution and liability for authorised push payment fraud and unauthorised payment fraud, may have significant consequences and lead to material implementation, operational and compliance costs. In particular, the new Business Banking Resolution Service to oversee the resolution of historical and new complaints from SMEs is likely to be operational in mid-2020, with the pilot anticipated to start in Q1 2020. While the details of the eligibility criteria are still being finalised, it is clear that the relevant customer cohort eligible for the service will be SMEs that have: (i) historical unresolved complaints dating back to 2001; or (ii) new complaints made from 1 April 2019 onwards, but are ineligible for the FOS. As a result of this new service, it is likely that there will be a revival of old and an in-flow of new complaints.

- An adverse finding by a regulator, agency or authority could result in the need for extensive changes in systems and controls, business policies, and practices coupled with suspension of sales, restrictions on conduct of business and operations, withdrawal of services, customer redress, fines and reputational damage.
- The increased focus on competition law in financial services and concurrent competition enforcement powers for the FCA and PSR may increase the likelihood of competition law related inquiries or investigations initiated by either the CMA or these authorities. In addition, the CMA's widening focus on market outcomes may result in increased reviews by the CMA of the markets in which the Group operates.
- The alleged historical or current misselling of financial products, such as mortgages, arising from causes such as the alleged overcharging of interest and the inappropriate sale of interest-only mortgages and Payment Protection Insurance (the "**PPI**"), including as a result of having sales practices and/or rewards structures that are deemed to have been inappropriate, presents a risk of civil litigation (including claims management company driven legal campaigns) and/or enforcement action requiring the Group to amend sales processes, withdraw products or provide restitution to affected customers, any of which may require additional provisions to be recorded in the Group's financial statements and could adversely impact future revenues from affected products. In the case of PPI claims specifically, there is an increased risk of litigation as a consequence of the FCA time bar which came into force on 30 August 2019.
- The Group may hold bank accounts for entities that might be or are subject to scrutiny from various regulators and authorities, including the SFO, the NCA and regulators in the US and elsewhere, which could lead to the Group's conduct being reviewed as part of any such scrutiny.
- The Group may be liable for damages to third parties harmed by the Group's conduct of business. For competition law, there are efforts by governments across Europe to promote private enforcement as a means of obtaining redress for harm suffered as a result of competition law breaches. Under the Consumer Rights Act 2015, there is scope for class actions to be used to allow the claims of a whole class of claimants to be heard in a single action in both follow-on and standalone competition cases.

The Group is (and will continue from time to time to be) subject to certain legal or regulatory investigations, inquiries and proceedings, both civil and criminal including in connection with the Group's lending and payment activities, treatment of customers, relationships with the Group's employees, financial crime, and other commercial or tax matters. These may be brought against the Group under UK legal or regulatory processes, or under legal or regulatory processes in other jurisdictions, such as the EU and the U.S., in circumstances where overseas regulators and authorities may have jurisdiction by virtue of its activities or operations.

In view of the inherent difficulty of predicting the outcome of legal or regulatory proceedings, particularly where opportunistic claimants seek very large or indeterminate damages, cases present novel legal theories, involve a large number of parties or are in the early stages of discovery, or where the approaches of regulators or authorities to legal or regulatory issues and sanctions applied are subject to change, the Group cannot state with confidence what the eventual outcome of any pending matters will be and any such pending matters are not disclosed by name because they are under assessment. The Group's provisions in respect of any pending legal or regulatory proceedings are made in accordance with relevant accounting requirements. These provisions are reviewed periodically. However, in light of the uncertainties involved in such legal or regulatory proceedings, there can be no assurance that the ultimate resolution of these matters will not exceed the provisions currently accrued by the Group. As a result, the outcome of a particular matter (whether currently provided or otherwise) could have a material adverse effect on the Group's operations, financial condition and prospects.

The developing legal and regulatory regime in which the Group operates requires it to be compliant across all aspects of its business, including the training, authorisation and supervision of personnel and the development of systems, processes and documentation. If the Group fails to be compliant with relevant law or regulation, there is a risk of an adverse impact on its business from more proactive regulatory intervention (including by any overseas regulator which establishes jurisdiction), investigation and enforcement activity leading to sanctions, fines, civil or criminal penalties, or other action imposed by or agreed with the regulatory authorities,

as well as increased costs associated with responding to regulatory inquiries and defending regulatory actions. Customers of financial services institutions, including the Group's customers, may seek redress if they consider that they have suffered loss for example as a result of the misselling of a particular product, or through incorrect application or enforcement of the terms and conditions of a particular product or in connection with a competition law infringement and the Group's rights under a contract with its customers may in certain circumstances be unenforceable or otherwise impaired.

The Financial Services and Markets Act 2000 (Designated Consumer Bodies) Order 2013 (the "**Designated Consumer Bodies Order**") was made on 16 December 2013 and came into force on 1 January 2014. The Designated Consumer Bodies Order designates the National Association of Citizens Advice Bureaux, the Consumers' Association, the General Consumer Council for Northern Ireland and the National Federation of Self Employed and Small Businesses as consumer bodies that may submit a 'super-complaint' to the FCA. A 'super-complaint' is a complaint made by any of these designated consumer bodies to the FCA on behalf of consumers of financial services where it considers that a feature, or a combination of features, of the market for financial services in the UK is seriously damaging the interests of these customers. Complaints about damage to the interests of individual consumers will continue to be dealt with by the FOS. If a 'super-complaint' were to be made against a Group entity by a designated consumer body under the Designated Consumer Bodies Order, any response published or action taken by the FCA could have a material adverse effect on the Group's operations, financial condition and prospects.

Given the: (i) requirement for compliance with an increasing volume of relevant laws and regulations; (ii) more proactive regulatory intervention and enforcement and more punitive sanctions and penalties for infringement; (iii) inherent unpredictability of litigation; (iv) evolution of the jurisdiction of FOS and CMA and related impacts; (v) the development of a voluntary dispute resolution service to oversee the resolution of historic complaints from SMEs that meet the relevant eligibility criteria and new complaints from SMEs that would be outside the FOS' proposed revised jurisdiction; (vi) the introduction of a voluntary code to enhance protection for customers who are victims of authorised push payment fraud; and (vii) the high volume of new regulations or policy changes from multiple regulators and authorities which the Group is mandated to implement within compressed timescales; it is possible that related costs or liabilities could have a material adverse effect on the Group's operations, financial condition and prospects.

7. Operational Risks

Failure to successfully apply or to improve the Group's credit risk management systems could have a material adverse effect on the Group's operations, financial condition and prospects

As a commercial banking group, one of the main types of risks inherent in the Group's business is credit risk. For example, an important feature of the Group's credit risk management system is to employ the Group's own credit rating system to assess the particular risk profile of a customer. This system is primarily generated internally, but, in the case of counterparties with a global presence, also builds off the credit assessment assigned by other members of the Santander Group. As this process involves detailed analysis of the customer or credit risk, taking into account both quantitative and qualitative factors, it is subject to human and IT systems errors. In exercising their judgement on current or future credit risk behaviour of the Group's customers, the Group's employees may not always be able to assign a correct credit rating, which may result in a larger exposure to higher credit risks than indicated by the Group's risk rating system. The Group may not be able to detect all possible risks before they occur, or its employees may not be able to effectively apply its credit policies and guidelines due to limited tools available to the Group, which may increase its credit risk.

Any failure to effectively apply, consistently monitor and refine the Group's credit risk management systems may result in an increase in the level of non-performing loans and higher losses than expected, which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's data management policies and processes may not be sufficiently robust which could have a material adverse effect on the Group's operations, financial condition and prospects

Critical business processes across the Group rely on large volumes of financial data from a number of different systems and sources. If data governance (including data retention and deletion, data quality and data architecture policies and procedures) is not sufficiently robust, manual intervention, adjustments and reconciliations may be required to reduce the risk of error in the Group's external reports or in reporting to senior management or regulators. Inadequate policies and processes may also affect the Group's ability to use financial data to service customers more effectively or to improve the Group's financial and investment product offerings. The Group must also comply with requirements under law or regulation which require classification of customers, counterparties, financial transactions or instruments. Financial institutions that fail to comply with in-country (local) and global regulatory and compliance requirements may face supervisory measures, which could in turn have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's business is subject to risks related to cyber-crime

The Group's systems, software and networks may be vulnerable to unauthorised access, misuse, computer viruses or other malicious code and other events that could have a security impact. An interception, misuse or mishandling of personal, confidential or proprietary information sent to or received from a client, vendor, service provider, counterparty or third party could result in legal liability, regulatory action and reputational harm, and therefore have a material adverse effect on the Group's operations, financial condition and prospects.

Furthermore, the Group may be required to expend significant additional resources to modify the Group's protective measures or to investigate and remediate vulnerabilities or other exposures. The Group expects its programmes of change to have an effect on its risk profile, both technological and regulatory. Whether it is the opportunities from adoption of cloud technology, systems to support important regulatory initiatives, or the desire to identify, prioritise and remove obsolete systems from operations, the operational risk associated with systems change is likely to increase and this will therefore remain an area of key focus in the Group's risk management. There can be no assurance that the Group will not suffer material losses from such operational risks in the future, including those relating to any security breaches, which could have a material adverse effect on the Group's operations, financial condition and prospects.

In particular, in recent years the computer systems of companies and organisations have been targeted by cyber criminals, activists and nation-state-sponsored groups. Like other financial institutions, the Group manages and holds confidential personal information of customers in the conduct of its banking operations, as well as a large number of assets. Consequently, the Group has been, and continues to be, subject to a range of cyber-attacks, such as malware, phishing and denial of service.

Cyber-attacks could give rise to the loss of significant amounts of customer data and other sensitive information, as well as significant levels of liquid assets (including cash). In addition, cyber-attacks could give rise to the disablement of the Group's electronic systems used to service its customers. Any material disruption or slowdown of the Group's systems could cause information, including data related to customer requests, to be lost or to be delivered to the Group's clients with delays or errors, which could reduce demand for the Group's services and products. As attempted attacks continue to evolve in scope and sophistication, the Group may incur significant costs in order to modify or enhance its protective measures against such attacks, or to investigate or remediate any vulnerability or resulting breach, or in communicating cyber-attacks to its customers. If the Group fails to effectively manage its cyber security risk, the impact could be significant and may include harm to the Group's reputation and make the Group liable for the payment of customer compensation, regulatory penalties and fines. Factors such as failing to apply critical security patches from its technology providers, to manage out obsolete technology or to update the Group's processes in response to new threats could give rise to these consequences, which, if they occur, could have a material adverse effect on the Group's operations, financial condition and prospects.

In addition, the Group may also be affected by cyber-attacks against national critical infrastructures in the UK or elsewhere, for example, the telecommunications network or cloud computing providers used by the Group. In common with other financial institutions the Group is dependent on such networks and any cyber-attack against these networks could negatively affect its ability to service its customers. As the Group does not operate these networks it has limited ability to protect the Group's business from the adverse effects of cyber-attack

against them. Further, the domestic and global financial services industry, including key financial market infrastructure, may be the target of cyber disruption and attack by cyber criminals, activists or governments looking to cause economic instability. The Group has limited ability to protect its business from the adverse effects of cyber disruption or attack against its counterparties and key national and financial market infrastructure. If such a disruption or attack were to occur it could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group is exposed to risk from potential non-compliance with policies, employee misconduct, human error, negligence and fraud

The Group is exposed to risk from potential non-compliance with policies, employee misconduct, human error, negligence and fraud. It is not always possible to deter or prevent such non-compliance, employee misconduct, human error, negligence or fraud and the precautions the Group takes to detect and prevent this activity may not always be effective. Any such matters could result in regulatory sanctions and cause reputational or financial harm, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Any failure to effectively manage changes in the Group's information technology infrastructure and management information systems in a timely manner could have a material adverse effect on the Group's operations, financial condition and prospects

The Group's businesses and its ability to remain competitive depends to a significant extent upon the functionality of its information technology systems and on its ability to upgrade and expand the capacity of its information technology infrastructure on a timely and cost-effective basis. The proper functioning of the Group's financial control, risk management, credit analysis and reporting, accounting, customer service, financial crime, conduct and compliance and other information technology systems, as well as the communication networks between branches and main data processing centres, are critical to its businesses and its ability to compete. Investments and improvements in the Group's information technology infrastructure are regularly required in order to remain competitive. It cannot be certain that in the future the Group will be able to maintain the level of capital expenditure necessary to support the improvement, expansion or upgrading of its information technology infrastructure as effectively as its competitors; this may result in a loss of any competitive advantages that the Group's information technology systems provide. Any failure to effectively improve, expand or upgrade its information technology infrastructure and management information systems in a timely manner could have a material adverse effect on the Group's operations, financial condition and prospects.

From time to time the Group is required to migrate information relating its customers to new information technology systems. Any failure to manage such migration effectively could have a negative impact on the Group's ability to provide services to its customers and could cause reputational damage to the Group which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group may be exposed to unidentified or unanticipated risks despite its risk management policies, procedures and methods and may be exposed to risk related to errors in the Group's risk modelling

The management of risk is an integral part of the Group's activities. The Group seek to monitor and manage its risk exposure through a variety of risk reporting systems. While the Group employs a broad and diversified set of risk monitoring and risk mitigation techniques and strategies, they may not be fully effective in mitigating the Group's risk exposure in all economic market environments or against all types of risk, including risks that the Group fails to identify or anticipate.

Some of the Group's tools and metrics for managing risk are based upon its use of observed historical market behaviour. The Group applies statistical and other tools to these observations to arrive at quantifications of its risk exposures. These tools and metrics may fail to predict future risk exposures. These risk exposures could, for example, arise from factors the Group did not anticipate or correctly evaluate in its statistical models. This would limit its ability to manage its risks. The Group's losses thus could be significantly greater than the historical measures indicate. In addition, the Group's quantified modelling does not take all risks into account. The Group's more qualitative approach to managing those risks could prove insufficient, exposing it to material, unanticipated

losses. The Group could face adverse consequences as a result of decisions, which may lead to actions by management, based on models that include errors or are otherwise inadequately developed, implemented or used, or as a result of the modelled outcome being misunderstood. If existing or potential customers or counterparties believe its risk management is inadequate, they could take their business elsewhere or seek to limit their transactions with the Group. These occurrences could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group relies on third parties and affiliates for important infrastructure support, products and services

Third party providers and certain affiliates provide key components of the Group's business infrastructure such as loan and deposit servicing systems, back office and business process support, information technology production and support, internet connections and network access. Relying on these third party providers and affiliates is a source of operational and regulatory risk, including with respect to security breaches affecting such parties and other parties that interact with these parties. As the depth of the Group's relationship with these third parties and affiliates increases, including through the use of cloud based services, the Group increasingly face the risk of operational failure with respect to their systems. The Group may be required to take steps to protect the integrity of its operational systems, thereby increasing its operational costs. In addition, any problems caused by these third parties or affiliates, including as a result of them not providing the Group their services for any reason, or performing their services poorly, could adversely affect the Group's ability to deliver products and services to customers and otherwise conduct its business, which could lead to reputational damage and regulatory investigations and intervention. Replacing these third party vendors or affiliates could also entail significant delays and expense. Further, the operational and regulatory risk the Group faces as a result of these arrangements may be increased to the extent that it restructures such arrangements. Any restructuring could involve significant expense to the Group and entail significant delivery and execution risk which could have a material adverse effect on the Group's operations, financial condition and prospects.

Failure by the Group to recruit, retain and develop appropriate senior management and skilled personnel could have a material adverse effect on the Group's operations, financial condition and prospects

The Group's continued success depends in part on the continued service of key members of its senior executive team and other key employees. The ability to continue to attract, train, motivate and retain highly qualified and talented professionals from the financial services industry is a key element of the Group's strategy. The successful implementation of the Group's strategy depends on the availability of skilled and appropriate management with relevant experience in the banking industry, both at the Group's head office and in each of its business units. There is also an increasing demand for the Group to hire individuals with digital skills such as data scientist, engineering and designer skill sets. Such individuals are very sought after by all organisations, not just the banking industry, and thus its ability to attract and hire this talent will determine how quickly the bank is able to respond to technological change. If the Group fails to staff its operations appropriately, or loses one or more of its key senior executives or other key employees and fails to replace them in a satisfactory and timely manner, it could have a material adverse effect on the Group's operations, financial condition and prospects.

In addition, the financial services industry has and may continue to experience more stringent regulation of employee compensation, which could have an adverse effect on the Group's ability to hire or retain the most qualified employees. If the Group fails or is unable to attract and appropriately train, motivate and retain qualified professionals, it could have a material adverse effect on the Group's operations, financial condition and prospects.

8. Financial Reporting Risks

The Group's financial statements are based in part on judgements and accounting estimates which, if inaccurate, could cause material misstatement of the Group's future financial results and financial condition.

The preparation of the Group's financial statements requires management to make judgements and accounting estimates that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of income and expenses during the reporting period. Management evaluates its judgements and

accounting estimates, which are based on historical experience and on various other factors that are believed to be reasonable under the circumstances, on an ongoing basis. Actual amounts may differ from these accounting estimates under different assumptions or conditions. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Limited significant judgements have been made in the process of applying the Group's accounting policies. Those accounting estimates, as well as the judgements inherent within them, are considered important to the portrayal of the financial results and financial condition because: (i) they are highly susceptible to change from period to period as assumptions are made to calculate the estimates; and (ii) any significant difference between the estimated amounts and actual amounts could have a material impact on the Group's operations, financial condition and prospects.

Changes in accounting standards could affect reported earnings

The accounting standard setters and other regulatory bodies periodically change the financial accounting and reporting standards that govern the preparation of the Group's consolidated financial statements. These changes can materially affect how the Group records and reports its financial condition and operating results. In some cases, the Group could be required to apply a new or revised standard retroactively, resulting in the restatement of prior period financial statements. Any change in reported earnings as a result of the foregoing could have a material adverse effect on the Group's operations, financial condition and prospects.

RISK FACTORS RELATING TO THE N&C SECURITIES

9. Risks associated with certain features and other terms and conditions of the N&C Securities

The N&C Securities are unsecured obligations of the Issuer and do not have the benefit of any deposit protection and investors will lose some or all of their investment if the Issuer fails

All N&C Securities will represent direct, unconditional and unsecured obligations of the Issuer. All N&C Securities will rank *pari passu* and without any preference among themselves and subject to any applicable statutory provisions or judicial order, at least equally with all other present and future unsecured and unsubordinated obligations of the Issuer.

As the N&C Securities are unsecured, investors are dependent on the Issuer's ability to pay all amounts due on the N&C Securities. Investors are therefore subject to the Issuer's credit risk and in the event that the Issuer is subject to resolution, insolvency and administration procedures. Return of an investor's initial capital investment remains dependent on the Issuer's ability to meet its obligations in full.

The N&C Securities issued by Santander UK plc are not savings accounts or deposits of the Issuer or any member of the Santander Group. The N&C Securities are not protected by the UK Financial Services Compensation Scheme or any other government or private protection scheme.

Where the Issuer is unable to meet its payment obligations under the N&C Securities in full, an investor will lose some and possibly all of the amount invested.

The N&C Securities may be redeemed prior to their scheduled maturity and the holder may not be able to reinvest the proceeds at an effective interest rate as high as any interest rate on the N&C Securities

In certain circumstances, the Early Redemption Amount payable on the early redemption of a N&C Security prior to its scheduled maturity may be less than its original purchase price and could be as low as zero. In addition, no amount of interest is payable on early redemption unless the relevant Interest Payment Date has occurred prior to the relevant Early Redemption Date and the relevant amount of interest has not already been paid.

Following early redemption of N&C Securities, the holders of such N&C Securities may not be able to reinvest the redemption proceeds (if any) at an effective interest rate as high as any interest rate or yield (if any) on the N&C Securities and may only be able to do so at a significantly lower rate. Investors in N&C Securities should consider such reinvestment risk in light of other investments available at that time.

N&C Securities may be redeemed early for a number of reasons, including any of the following reasons:

- (i) the exercise by the Issuer of a call option, if specified to be applicable in the relevant Issue Terms;
- (ii) in certain circumstances where the Issuer determines that it will be obliged to account for any present or future taxes, duties, assessments or governmental charges;
- (iii) the receipt by the Issuer of a notice of early redemption of the Preference Shares from the issuer of the Preference Shares for any reason other than a financial product relating to the Preference Shares (such as the N&C Securities) being subject to early redemption;
- (iv) the Issuer determines that its performance under any N&C Security or any arrangements made to hedge the Issuer's obligations under any N&C Security has become unlawful in whole or in part for any reason;
- (v) any hedging party being unable to deal in hedging arrangements to hedge the price risk of the Issuer performing its obligations in respect of the N&C Securities;
- (vi) the Calculation Agent determines that a change in applicable law or regulation has occurred and solely by reason of the N&C Securities being outstanding, will result in the Issuer being required to be regulated by any additional jurisdiction or regulatory authority or being subject to any additional legal requirement or regulation considered by the Issuer to be materially onerous;
- (vii) the Calculation Agent determines that an Administrator/Benchmark Event (including, without limitation, any amendment or cessation of a relevant benchmark, any relevant authorisation or registration being refused or suspended, use of the relevant benchmark not being commercially reasonable for reasons related to cost or licensing issues) has occurred and the Issuer elects to redeem the N&C Securities rather than make adjustments to them; or
- (viii) following an Event of Default.

The Early Redemption Amount in respect of each N&C Security shall be an amount determined by the Calculation Agent on the same basis as the final redemption amount but determined following the occurrence of the relevant event on the date specified in the relevant notice or, following an Event of Default, the fifth business day following date of the N&C Securityholder's notice. The Early Redemption Amount may be less than the investor's initial investment and therefore an investor may lose some or all of the initial investment.

The Issuer of the N&C Securities may be substituted with another company

The Issuer (or any previously substituted company as issuer from time to time) shall, without the consent of the holders of N&C Securities, be entitled at any time to substitute for the Issuer any affiliate of the Issuer (the "**Substitute Issuer**") as principal obligor in respect of all obligations arising from or in connection with the N&C Securities. Any such substitution is subject to certain conditions, including the creditworthiness of the Substitute Issuer. Nevertheless, substitution of the Issuer for a Substitute Issuer could have a material adverse effect on the return on and value of the N&C Securities.

The terms and conditions of the N&C Securities contain provisions which may permit their modification without the consent of all investors

The Agency Agreement contains provisions for calling meetings of N&C Securityholders to consider matters affecting their interests generally or to pass resolutions in writing or through the use of electronic consents, including, without limitation, modifications of certain provisions of the relevant N&C Securities or Coupons or the Agency Agreement (as the case may be). The provisions permit defined majorities to bind all N&C Securityholders including N&C Securityholders who did not attend and vote at the relevant meeting or, as the case may be, did not sign the written resolution or give their consent electronically, and including those N&C Securityholders who voted in a manner contrary to the majority.

The N&C Security Conditions also provide that the Issuer may, without the consent of N&C Securityholders, agree to certain modifications of the N&C Securities, including:

- (i) certain modifications of the provisions of the N&C Securities, the Coupons or the Agency Agreement which are not prejudicial to the interests of the N&C Securityholders; or
- (ii) any modification of any of the provisions of the Conditions, the N&C Securities, the Coupons or the Agency Agreement (as the case may be) which is of a formal, minor or technical nature or is made to correct a manifest or proven error or is to comply with mandatory provisions of applicable law.

The Issuer may rely on third parties and the N&C Securityholders may be adversely affected if such third parties fail to perform their obligations

The Issuer may be a party to contracts with a number of other third parties that have agreed to perform services in relation to the N&C Securities. For example, the Paying Agents have agreed to perform services in connection with the N&C Securities; and Euroclear and Clearstream, Luxembourg have, in respect of N&C Securities in global form deposited with them ("**Global N&C Securities**"), agreed, *inter alia*, to accept such Global N&C Securities as eligible for settlement and to properly service the same, and to maintain up-to-date records in respect of the total amount or number outstanding of such Global N&C Securities. In the event that any relevant third party was to fail to perform its obligations under the respective agreements to which it is a party, the N&C Securityholders may be adversely affected.

10. Risks associated with the liquidity and value of the N&C Securities

An active secondary market in respect of the N&C Securities may never be established or may be illiquid and this would adversely affect the ability of an investor to sell the N&C Securities and/or the value at which an investor could sell the N&C Securities

N&C Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their N&C Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for N&C Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. As such, the N&C Securities generally would have a more limited secondary market and more price volatility than conventional securities.

The Issuer cannot predict when market conditions may change and whether, if and when they do change, there will be a more or less liquid market for the N&C Securities as a result. If a trading market were to develop, the N&C Securities could trade at prices that may be higher or lower than the relevant initial issue price and this may result in a return that is greater or less than any interest or other additional amounts payable in respect of the N&C Securities.

In addition, certain N&C Securities have a more limited trading market and experience more price volatility because they were designed for specific investment objectives or strategies. There may be a limited number of

buyers when an investor decides to sell such N&C Securities. This may affect the price an investor receives for such N&C Securities, or the ability of an investor to sell such N&C Securities at all.

Application may be made to list an issue of N&C Securities on a stock exchange, as indicated in the applicable Issue Terms. The fact that the N&C Securities may be listed does not necessarily lead to greater liquidity. Additionally, the Issuer is not required to maintain the listing on such stock exchange or any other exchange. The price at which the N&C Securities trade on the relevant stock exchange (or any other exchange on which they are traded or quoted) may not reflect the applicable redemption amount.

If N&C Securities are not traded on any stock exchange, pricing information for such N&C Securities may be more difficult to obtain, and the liquidity and market prices of such N&C Securities may be adversely affected. The liquidity of the N&C Securities may also be affected by restrictions on offers and sales of N&C Securities in some jurisdictions as set forth under "*Subscription and Sale*". Also, to the extent N&C Securities of a particular issue are cancelled or redeemed, as the case may be, the number of N&C Securities of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining N&C Securities of such issue. A decrease in the liquidity of an issue of N&C Securities may cause, in turn, an increase in the volatility associated with the price of such issue of N&C Securities.

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more N&C Securities than those which are to be subscribed or purchased by third party investors. The Issuer (or any of its affiliates) may hold such N&C Securities for the purpose of meeting any investor interest in the future. Prospective investors in the N&C Securities should therefore not regard the issue size of any Series as indicative of the depth or liquidity of the market for such Series, or of the demand for such Series.

Each of the Issuer, any Dealer and any financial intermediary may, but is not obliged to, at any time purchase N&C Securities at any price in the open market or by tender or private treaty. Any N&C Securities so purchased may be held or resold or surrendered for cancellation. A Dealer or any financial intermediary may, but is not obliged to, be a market-maker for an issue of N&C Securities. Even if a Dealer or any financial intermediary is a market-maker for an issue of N&C Securities, the secondary market for such N&C Securities may be limited. To the extent that an issue of N&C Securities becomes illiquid, an investor may have to await redemption of such N&C Securities to realise their value.

The Issue Price of the N&C Securities may be more than the market value of such N&C Securities as at the Issue Date, and the price of the N&C Securities in secondary market transactions

The Issue Price specified in the relevant Issue Terms in respect of any N&C Securities may be more than the market value of such N&C Securities as at the relevant Issue Date, and the price, if any, at which the relevant Dealer(s) or any other person willing to purchase such N&C Securities in secondary market transactions. In particular, the Issue Price in respect of any N&C Securities may not reflect their inherent value and may take into account several types of proceeds, benefits or costs to the Issuer. These may include amounts with respect to inducements, commissions and/or other fees (including fees to be paid to distributors and/or introducing brokers) relating to the issue and sale or distribution of such N&C Securities as well as up-front payments or other amounts relating to the hedging of the Issuer's obligations under such N&C Securities. Secondary market prices are likely to exclude such amounts. In addition, pricing models of relevant market participants may differ or produce a different result. Additionally, the N&C Securities are linked to the value of Preference Shares and the performance of the relevant reference item(s) to which the relevant Preference Shares relate (such underlying reference item(s), the "**Preference Share Underlying(s)**") may be such that, as at the Issue Date, the market value of the N&C Security is less than the Issue Price. This can cause a difference between the theoretical value of the N&C Securities and any bid and offer prices quoted by the Issuer, any Affiliate or any third party in the secondary market. Such differences may be greater when the N&C Securities are initially traded on any secondary markets and the N&C Securities may gradually decline in value during the term of the N&C Securities. The sale of the N&C Securities in the secondary market could therefore result in a loss of all or part of the original Issue Price (or other purchase price).

The market value of the N&C Securities at any time is dependent on other matters in addition to the credit risk of the Issuer and the performance of the Preference Shares

The market value of the N&C Securities at any time will be affected by a number of factors including:

- (i) market interest and yield rates;
- (ii) fluctuations in currency exchange rates;
- (iii) the creditworthiness of the Issuer;
- (iv) liquidity of the N&C Securities and/or of Preference Share Underlying(s) in the secondary market;
- (v) the time remaining to any redemption date or maturity date, as the case may be;
- (vi) the performance of the relevant Reference Item(s), where the interest amount is determined by reference to the performance of such Reference Item(s), and the performance of the Preference Shares; and
- (vii) numerous other events (e.g. economic, financial, regulatory, political, terrorist or military events) in one or more jurisdictions, including factors affecting capital markets generally or the stock exchanges on which any of the N&C Securities, the Preference Shares Underlying(s) or other Reference Item(s) may be traded.

The amount(s) which are or may be payable in respect of N&C Securities are typically expected to be but may not be greater than the trading price of such N&C Securities at any time prior to redemption. The sale of N&C Securities in the secondary market could result in a loss from the original purchase price.

Effect of credit ratings assigned to the Issuer

The value of the N&C Securities is expected to be affected, in part, by investors' general appraisal of the Issuer's creditworthiness. Such perceptions are generally influenced by the ratings accorded to the Issuer's outstanding securities by standard statistical rating services. A reduction in the rating, if any, accorded to outstanding debt securities of the Issuer by one of these rating agencies could result in a reduction in the trading value of the N&C Securities.

A credit rating assigned to the Issuer may not reflect the potential impact of all of the risks related to the structure, market, type of return or suitability of the N&C Securities as an investment but may affect the value of the N&C Securities. Any rating agency may lower its ratings or withdraw its rating if, in the sole judgement of the rating agency, the credit quality of the Issuer has declined or is in question. In addition, at any time any rating agency may revise its relevant rating methodology with the result that, amongst other things, any rating assigned to the Issuer may be lowered.

If any rating assigned to the Issuer is lowered or withdrawn, the secondary market value of any N&C Securities may be reduced.

The N&C Securities may have a Minimum Tradable Size

Prospective investors should be aware that for any N&C Security which has a Minimum Tradable Size specified in the applicable Issue Terms and a smaller minimum Specified Denomination, it is possible that such N&C Securities may only be traded in a nominal amount, for a consideration or in the number, as the case may be, that is at least equal to the Minimum Tradable Size.

In such a case, a holder who holds a nominal amount or number of N&C Securities or wishes to transfer a nominal amount or number of N&C Securities which is less than the Minimum Tradable Size will be unable to sell or transfer such holding. If a holder holds a nominal amount or number of N&C Securities that is less than

the Minimum Tradable Size, in order for such holder to sell or transfer its holding of N&C Securities such holder would first need to purchase such additional identical N&C Securities such that it is in a position to sell or transfer a total nominal amount or number, as the case may be, of N&C Securities at least equal to the Minimum Tradable Size. Investors should be aware that it may not always be possible to purchase such additional N&C Securities and as such they may be unable to sell or transfer any such holding.

If N&C Securities which have a Minimum Tradable Size are in definitive form, holders should be aware that definitive N&C Securities with a denomination that is less than the Minimum Tradable Size may be illiquid or difficult to trade.

Investors who hold less than the minimum Specified Denomination may be unable to sell their N&C Securities and may be adversely affected if definitive N&C Securities are subsequently required to be issued

In relation to any issue of N&C Securities which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such N&C Securities may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination.

In such a case, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of N&C Securities at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time, may not receive definitive N&C Securities in respect of such holding (should definitive N&C Securities be printed) and would need to purchase a principal amount of N&C Securities at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such N&C Securities in definitive form are issued, holders should be aware that definitive N&C Securities which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Discontinuation or withdrawal of offer period

Unless otherwise specified in the applicable Issue Terms, the offer period in relation to any N&C Securities may be discontinued or extended at any time.

In addition, the Issuer and/or the other entities indicated in the Issue Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Issue Terms. In such case, any amounts segregated by a distributor or financial intermediary as intended payment of the offer price by an investor will be released to the relevant investor by the distributor or financial intermediary but may or may not accrue interest depending on the agreements between the investor and the relevant distributor or financial intermediary or depending on the policies applied by the distributor or financial intermediary in this regard. In these circumstances, there may also be a time lag in the release of any such amounts and, unless otherwise agreed with the relevant distributor or financial intermediary, no amount will be payable as compensation and the investor may be subject to reinvestment risk.

Unless otherwise provided in the applicable Issue Terms, the Issuer and/or the other entities specified in the applicable Issue Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Issue Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of N&C Securities issued and therefore may have an adverse effect on the liquidity of the N&C Securities.

Furthermore, under certain circumstances, the Issuer and/or the other entities indicated in the applicable Issue Terms will have the right to postpone the originally designated Issue Date. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement to this Base Prospectus in accordance with the provisions of the Prospectus Regulation. In the event that the issue date is so delayed, no compensation or amount in respect of interest shall be payable or otherwise accrue in relation to such N&C Securities unless otherwise agreed between the investor and the relevant distributor or the policies of the distributor or financial intermediary so provide.

11. Risks associated with the structure of a particular issue of N&C Securities

The inclusion of an Issuer call option in respect of N&C Securities will generally mean that (a) the holder will not be able to participate in any future upside performance of the Preference Shares (had they remained outstanding) and in turn the Preference Share Underlying following the effective date of the Issuer call option, (b) the market value of the N&C Securities may be limited and (c) if the call option is exercised, the holder may not be able to reinvest the proceeds at an effective interest rate as high as any interest rate or rate of return on the N&C Securities

If the applicable Issue Terms specify that the N&C Securities are redeemable at the option of the Issuer, the Issuer may redeem such N&C Securities at times when the prevailing interest rates may be relatively low. As a consequence, the yields (if any) received upon redemption may be lower than expected, and the redeemed face amount of the N&C Securities may be lower than the purchase price for the N&C Securities paid by the N&C Securityholder. As a consequence, part of the capital invested by the N&C Securityholder may be lost, so that the N&C Securityholder in such case would not receive the total amount of the capital invested. Accordingly, an investor generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate, if applicable, as high as that of the N&C Securities. Furthermore, during any period when the Issuer may elect to redeem the N&C Securities, the market value of those N&C Securities generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

The value of Fixed Rate N&C Securities may be adversely affected by movements in market interest rates

Fixed Rate N&C Securities are subject to the risk that if the market interest rates subsequently increase above the rate paid on the Fixed Rate N&C Securities, this will adversely affect the value of the Fixed Rate N&C Securities.

N&C Securities which are issued with variable interest rates or which are structured to include a multiplier or other leverage factor are likely to have more volatile market values than more standard securities

N&C Securities with floating interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market value may be more volatile than those for securities that do not include these features. An investor may receive substantially less or no interest at all on such Floating Rate N&C Securities.

If the Issuer has the right to convert the interest rate on any N&C Securities from a fixed rate to a floating rate, or vice versa, this may affect the secondary market value of the N&C Securities concerned

Fixed/Floating Rate N&C Securities are N&C Securities which may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the N&C Securities since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate N&C Securities may be less favourable than the then prevailing spreads on comparable floating rate notes relating to the same reference rate. In addition, the new floating rate at any time may be lower than the interest rates payable on other N&C Securities. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing market rates.

Euro-system Eligibility in relation to Global N&C Securities issued in NGN form

The ECB maintains and publishes a list of assets which are recognised as eligible collateral for Eurosystem monetary and intra-day credit operations. In certain circumstances, recognition may impact on (among other things) the liquidity of the reference items. Recognition (and inclusion on the list) is at the discretion of the Eurosystem and is dependent upon satisfaction of certain Eurosystem eligibility criteria and rules. If application is made to the European Control Board for any N&C Securities to be recognised and added to the list of eligible assets, there can be no assurance that such N&C Securities will be so recognised, or, if they are recognised, that they will continue to be recognised at all times during their life. None of the Issuer, any Dealer, the Book-Entry Depositary or any agent makes any representation or warranty as to the eligibility of any N&C Security for the Eurosystem.

Certain Considerations relating to Book-Entry Interests

Until and unless definitive N&C Securities in registered form are issued in exchange for the N&C Securities, holders of the Book-Entry Interests will not be considered the owners or holders of N&C Securities with regard to payment. To the extent the N&C Securities are issued in the form of Immobilised Bearer Global N&C Securities, the Book-Entry Depositary or its nominee will be the sole holder of such N&C Securities. The Issuer, the Principal Paying Agent and the Registrar will treat the bearer of the Immobilised Bearer Global N&C Securities as the owner thereof for the purposes of receiving payments and for all other purposes. Upon receipt of amounts owing in respect of the Immobilised Bearer Global N&C Securities, the Book-Entry Depositary will pay the amounts so received to the relevant clearing system(s) for onward payment to applicable owners of Book-Entry Interests in accordance with their procedures. Accordingly, holders of a Book-Entry Interest must rely on the procedures of the relevant clearing system(s) to exercise any rights and remedies of a N&C Securityholder under the N&C Securities.

Limitations on ownership of Book-Entry Interests

Ownership of Book-Entry Interests will be limited to persons with an account with Euroclear and/or Clearstream, Luxembourg or persons who may hold interests through such participants. Book-Entry Interests will be shown on, and transfers thereof will be affected only through, records maintained in book-entry form by Euroclear and/or Clearstream, Luxembourg and their participants.

Accordingly, the Book-Entry Interests will not be held in definitive form. Instead, Euroclear and/or Clearstream, Luxembourg (as applicable) will credit on their respective book-entry registration and transfer systems a participant's account with the interest beneficially owned by such participant. The laws of some jurisdictions, including certain states of the United States, may require that certain purchasers of securities take physical delivery of such securities in definitive form. Limitations on ownership of Book-Entry Interests may impair the ability to own, transfer or pledge Book-Entry Interests. While the Immobilised Bearer N&C Securities are in global form, holders of Book-Entry Interests will not be considered the N&C Securityholders of such N&C Securities for any purpose.

Certain Considerations relating to CREST Depository Interests

Investors who hold interests in the N&C Securities through Euroclear UK & Ireland Limited (formerly known as CRESTCo Limited) ("**CREST**") through CREST Depository Interests will not be the legal owners of the N&C Securities (the "**Underlying Securities**") to which such CREST Depository Interests relate. CREST Depository Interests are separate legal instruments from the Underlying Securities and represent indirect interests in the interests of the CREST Nominee (as defined below) in such Underlying Securities. CREST Depository Interests will be issued by the CREST Depository to investors and will be governed by English law.

The Underlying Securities (as distinct from the CREST Depository Interests representing indirect interests in such Underlying Securities) will be held in an account with a custodian. The custodian will hold the Underlying Securities through the relevant Clearance System. Rights in the Underlying Securities will be held through custodial and depositary links through the relevant Clearance System. The legal title to the Underlying Securities

or to interests in the Underlying Securities will depend on the rules of the relevant Clearance System in or through which the Underlying Securities are held.

CREST International Nominees Limited or another entity appointed to act as nominee (the "**CREST Nominee**") in accordance with the CREST Global Deed Poll (in the form from time to time contained in Chapter 8 of the CREST International Manual (which forms part of the CREST Manual (as defined below)) (the "**CREST Deed Poll**") will hold the legal title to the Underlying Securities and the direct enforcement right in respect of the Underlying Securities. This could result in a holder of CREST Depository Interests receiving less than, or none of, the full amount payable in respect of the Underlying Securities in the event of any insolvency or liquidation of any relevant intermediary, in particular where the Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

Rights in respect of the Underlying Securities cannot be enforced by holders of CREST Depository Interests except indirectly through CREST Depository Limited or any successor thereto (the "**CREST Depository**") and the CREST Nominee who in turn can enforce rights indirectly through the intermediary depositaries and custodians described above. The enforcement of rights in respect of the Underlying Securities will therefore be subject to the local law of the relevant intermediary.

These arrangements could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

If a matter arises that requires a vote of N&C Securityholders, the Issuer may make arrangements to permit the holders of Crest Depository Interests to instruct the CREST Depository to exercise the voting rights of the CREST Nominee in respect of the Underlying Securities. However, there is no guarantee that it will be possible to put such voting arrangements in place for holders of CREST Depository Interests.

Holders of CREST Depository Interests will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to the CREST International Manual and the CREST Rules applicable to the CREST International Settlement Links Service (in each case as amended, modified, varied or supplemented from time to time (the "**CREST Manual**")). Holders of CREST Depository Interests must comply in full with all obligations imposed on them by such provisions.

Investors in CREST Depository Interests should note that the provisions of the CREST Deed Poll and the CREST Manual (including, for the avoidance of doubt, the provisions of the CREST International Manual and the CREST Rules) contain indemnities, warranties, representations and undertakings to be given by holders of CREST Depository Interests and limitations on the liability of the CREST Depository as issuer of the CREST Depository Interests. Holders of CREST Depository Interests may incur liabilities pursuant to or resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them and the rights of and returns received by holders of CREST Depository Interests may differ from those of holders of N&C Securities which are not represented by CREST Depository Interests.

Investors in CREST Depository Interests should note that holders of CREST Depository Interests may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Underlying Securities through the CREST International Settlement Links Service.

Investors in CREST Depository Interests should note that none of the Issuer, any Dealer or any Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or

accountholders acting in connection with CREST Depository Interests or for the respective obligations of such intermediaries, participants or accountholders under the rules and procedures governing their operations.

12. Risks associated with N&C Securities where interest amounts are linked to one or more Reference Item(s)

The interest amounts payable on N&C Securities may be dependent on the performance of the underlying Reference Item(s) and therefore subject to risks in relation to the Reference Item(s)

N&C Securities for which the determination of the relevant interest amounts are linked to the performance of Reference Item(s) represent an investment linked to the economic performance of the Reference Item(s) and investors should note that any interest on their investment in such N&C Securities will depend upon the performance of such Reference Item(s).

If interest amounts payable in respect of N&C Securities are linked to the performance of the Reference Item(s), an investor in such a N&C Security must generally be correct as to the direction, timing and magnitude of an anticipated change in the value of the Reference Item(s). However, it is impossible to make such predictions with any degree of certainty, as the price, performance or investment return of the Reference Item(s) may be subject to sudden and large unpredictable changes over time known as "**volatility**". The volatility of the Reference Item(s) may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the return on the N&C Securities. Potential purchasers should also note that whilst the market value of such N&C Securities linked to such Reference Item(s) will be influenced (positively or negatively) by the performance of such Reference Item(s), any change may not be comparable or directly proportionate to the change in value of such Reference Item(s). The historical performance of the Reference Item(s) should not be taken as an indication of future performance of such Reference Item(s) during the term of such N&C Security.

Investors have no claim against any Reference Item

An N&C Security is not equivalent to a direct investment in the Reference Item(s) or any component thereof and will not represent a claim against any Reference Item or any such component and, in the event of any loss, an N&C Securityholder will not have recourse under an N&C Security to any Reference Item. The N&C Securities are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an underlying Reference Item and such entities have no obligation to take into account the consequences of their actions on any N&C Securityholders.

The market value of N&C Securities and the interest amount(s) payable on the N&C Securities may be affected due to the application of leverage or reduced exposure in the structure

Where a formula used to determine the interest amount(s) payable with respect to the N&C Securities contains a multiplier participation rate or leverage factor (whether implicit or explicit) greater than one or 100.00 per cent., then the percentage change in the interest amount that may be payable in respect of the N&C Security may be greater than any positive and/or negative performance of the Reference Item(s).

Where a formula used to determine the interest amount(s) payable with respect to the N&C Securities contains an explicit or implicit multiplier participation rate or leverage factor of less than one or 100.00 per cent., then the percentage change in the interest amount that may be payable in respect of the N&C Security may be less than any positive and/or negative performance of the Reference Item(s).

There are certain risks in N&C Securities that include an averaging feature

The calculation of the performance of a Reference Item in respect of certain N&C Securities may be based on the average of the price or level or other measure of such Reference Item over two or more Averaging Dates (as applicable). The effect of such averaging may be that the performance of the Reference Item will not increase proportionately if the price or level or other measure of the Reference Item temporarily increases but the price

or level or other measure of the Reference Item has been correspondingly lower on the remaining averaging dates. Accordingly, the effect of the averaging feature may be to lead to a reduced performance (and therefore a reduced return on the relevant N&C Securities) as compared to the position where the performance of the Reference Item is measured on a single valuation date. On the other hand, a temporary decrease of price or level or other measure of the Reference Item will also not lead to a proportionate decrease of the performance of the Reference Item if the price or level or other measure of the Reference Item has been correspondingly higher on the remaining averaging dates.

The regulation and reform of certain published rates, indices and other values or benchmarks may adversely affect the value of and return on N&C Securities linked to such values or benchmarks

A number of major interest rates, other rates, indices and other published values or benchmarks are the subject of national and international regulatory reforms including those imposed by the EU Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmarks Regulation**") (for more information, see "*Description of the Issuer*" and the section entitled "*Regulatory Overview – Benchmarks Reform*"). These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on the value of and return on N&C Securities linked to any such value or benchmark.

The Benchmarks Regulation could have a material impact on any N&C Securities linked to a benchmark. For example:

- (i) any of these reforms or pressures described above or any other changes to a relevant interest rate benchmark (including LIBOR and EURIBOR) could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be;
- (ii) the methodology or other terms of the benchmark maybe changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark;
- (iii) if a benchmark is discontinued or is otherwise unavailable, then the rate of interest on the N&C Securities may be determined for a period by any applicable fall-back provisions under the relevant N&C Securities documentation, although such provisions may not operate as intended (depending on market circumstances and the availability of rates information or quotes from reference banks at the time); or
- (iv) the occurrence of an Administrator/Benchmark Event may cause early redemption or adjustment of the N&C Securities which may include selecting one or more successor benchmarks and making related adjustments to the N&C Securities, including if applicable to reflect increased costs.

Separately, the reforms and eventual replacement of Interbank Offered Rates ("**IBORs**") with risk free rates may cause the relevant IBOR to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. The replacement risk free rate may have little, if any, historical track record and may be subject to changes in its methodology. Any of these developments could have a material adverse effect on the value of and return on N&C Securities linked to any such rates.

There are risks in utilising the N&C Securities for hedging purposes

It may not be possible to use the N&C Securities as a perfect hedge against the market risk associated with investing in a Reference Item. Prospective purchasers intending to purchase N&C Securities to hedge against the market risk associated with investing in a Reference Item should recognise the complexities of utilising N&C Securities in this manner. For example, the value of the N&C Securities may not exactly correlate with the value of the Reference Item. Due to fluctuating supply and demand for the N&C Securities, there is no assurance that

their value will correlate with movements of the Reference Item. For these reasons, among others, it may not be possible to purchase or liquidate N&C Securities in a portfolio at the prices used to calculate the value of any Reference Item.

There are risks relating to Inventory N&C Securities which have been issued prior to the date of their purchase

In the case of N&C Securities which have been issued prior to the date of their purchase and which the Dealer has been holding from time to time on its own account ("**Inventory N&C Securities**"), the disclosure in relation to the Reference Item(s) (if any) or Preference Shares to which the relevant Inventory N&C Securities may be linked as set forth in the Issue Terms will have been extracted by the Issuer from publicly available sources but will not have been prepared by, or on behalf of, and will not have been verified by, or on behalf of, the Issuer, the Dealer or any other member of the Santander Group, each of which will have disclaimed any responsibility for such information. Such information may be out of date and none of the Issuer, the Dealer or any other member of the Santander Group shall provide any updated information in relation to the Reference Item(s) (if any) or Preference Share(s). If there has been any change in the Reference Item(s) (if any) or Preference Shares since the date of the Issue Terms, this may have an adverse effect on the pay-out and/or value of the relevant Inventory N&C Securities. Furthermore, any change in the situation or condition of the Issuer since the date of the Issue Terms will not be disclosed and may have an adverse effect on the value of the relevant Inventory N&C Securities.

N&C Securities which are exposed to one or more emerging markets elements are subject to particular risks

Where the determination of interest amounts in respect of the N&C Securities relate to Reference Items associated with the currencies of, emerging market countries, or the Preference Share Underlying(s) are associated with, or denominated in the currencies of, emerging market countries, investors should note that the risk of the occurrence of and the severity of the consequences of the matters described herein may be greater than they would otherwise be in relation to more developed countries. Emerging markets jurisdictions may be characterised as politically unstable and/or lacking a stable and fully developed economy and financial system and/or lacking in established rule of law. Emerging markets investments generally have greater risks than those from developed jurisdictions including political risk, economic risk, currency risk, market risk, regulatory/legal risk and shareholder risk as further described below:

Political risk: The relative instability of political systems of emerging markets jurisdictions may leave them more vulnerable to public unrest and instability. Such circumstances, in turn, could lead to a reversal of some or all economic or political reform including such policies as confiscatory taxation, exchange controls or expropriation of foreign-owned assets without adequate compensation. Any such policies could have an adverse effect on the value of the Reference Item(s) or the Preference Share Underlying(s) and, in turn, the relevant N&C Securities.

Economic risk: Businesses and governments of emerging markets jurisdictions may be relatively inexperienced in dealing with difficult market conditions (such as the on-going global recession) and may have a limited capital base from which to borrow funds. In addition, an emerging markets jurisdiction may lack a developed banking sector and its financial institutions may not be adequately regulated. These factors, among other economic issues, could affect the functioning of the economy and have a corresponding adverse effect on the performance of the Reference Item(s) or the Preference Share Underlying(s) and, in turn, the relevant N&C Securities.

Currency risk: Reference Item(s), the Preference Share Underlying(s) or N&C Securities denominated in the currencies of emerging markets jurisdictions may be subject to greater volatility and possibly the suspension of the ability to exchange or transfer currency, or the devaluation of the currency.

Market risk: The financial systems and markets of emerging markets jurisdictions may lack the level of transparency and liquidity found in more developed markets. As a result, such markets may suffer from extreme price volatility, price discrepancies and lack of liquidity. Any such circumstances or events may have an adverse

effect on the performance of the Reference Item(s) or the Preference Share Underlying(s) and, in turn, the relevant N&C Securities.

Regulatory/Legal risk: In emerging markets jurisdictions there may be less government regulation of business and industry practices, stock exchanges, over-the-counter markets and market participants than in more developed countries. Legislation to safeguard the rights of private ownership and to prevent stock market manipulation may not be fully developed and regulations governing investments in securities may not exist or may be subject to inconsistent or arbitrary application or interpretation and may be subject to change with retroactive effect. The holder of Preference Share Underlying(s) of an emerging markets jurisdiction may not be able to pursue legal remedies in the courts of such jurisdictions. Any such circumstances or events may have an adverse effect on the performance of the Reference Item(s) or the Preference Share Underlying(s) and, in turn, the relevant N&C Securities.

Risks relating to Equity Index Linked Interest N&C Securities

The Issuer may issue Equity Index Linked Interest N&C Securities where the amount of interest payable is dependent upon the level of an equity index or indices and/or by whether that level is equal to, above or below one or more specified levels. Such interest amounts would therefore be dependent upon the economic performance of the specified equity index and be subject to the risks relating to indices as set out in "*Risks relating to Index Linked Preference Shares*" below.

Equity Index Linked Interest N&C Securities may be subject to certain disruption provisions. In particular, the Calculation Agent may determine that an event giving rise to a Disrupted Day (as defined in the Equity Index Linked Conditions) has occurred at any relevant time. Any such determination may have an effect on the timing of valuation, and consequently the value of the N&C Securities. In addition certain extraordinary events may lead to early redemption of the N&C Securities and such an event may have an adverse effect on the value of the N&C Securities. Whether and how such provisions apply to the N&C Securities can be ascertained by reading the Equity Index Linked Conditions in conjunction with the applicable Issue Terms.

Risks relating to Inflation Index Linked Interest N&C Securities

The Issuer may issue Inflation Index Linked Interest N&C Securities where the amount of interest payable is dependent upon the level of an inflation/consumer price index or indices and/or whether the level of inflation/consumer price index or indices is equal to, above or below one or more specified levels. Such interest amounts would therefore be dependent upon the economic performance of the specified inflation/consumer price index and be subject to the risks relating to indices as set out in "*Risks relating to Index Linked Preference Shares*" below.

Inflation Index Linked Interest N&C Securities may be subject to certain disruption provisions or extraordinary event provisions. Relevant events may relate to market disruptions, or other extraordinary events in relation to the relevant level of inflation/consumer price index or indices. If the Calculation Agent determines that any such event has occurred this may delay valuations under the N&C Securities and consequently adversely affect the value of the N&C Securities. In addition, certain extraordinary or disruption events may lead to early redemption of the N&C Securities which may have an adverse effect on the value of the N&C Securities. Whether and how such provisions apply to the relevant N&C Securities can be ascertained by reading the Inflation Index Linked Conditions in conjunction with the applicable Issue Terms.

13. Risks associated with N&C Securities linked to Preference Shares

The value of and return on N&C securities is dependent on the performance of the underlying Preference Shares and therefore subject to risks in relation to the Preference Shares

Amounts payable upon redemption of the N&C Securities are determined by reference to the economic performance of specified Preference Shares which will be linked to the economic performance of one or more

Preference Share Underlying(s). These Preference Share Underlying(s) may include equities (or baskets of equities) and indices (or baskets of indices) (including equity or inflation indices).

As the amounts payable on redemption of N&C Securities are linked to Preference Shares which are in turn linked to the performance of the relevant Preference Share Underlying(s), a purchaser of an N&C Security must generally be correct as to the direction, timing and magnitude of an anticipated change in the value of the relevant Preference Share Underlying(s). However, it is impossible to make such predictions with any degree of certainty, as the price, performance or investment return of the Preference Share Underlying(s) may be subject to volatility. The volatility of the Preference Share Underlying(s) may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the return on the N&C Securities. Assuming all other factors are held constant, the lower the value of the Preference Shares and the shorter the remaining term to redemption, the greater the risk that purchasers of such N&C Securities will lose all or part of their investment. In contrast to a direct investment in the relevant Preference Share Underlying(s), the N&C Securities only represent the right to receive payment of the Final Redemption Amount(s) and, whilst the redemption amount of the N&C Securities is linked to the market value of Preference Shares which will be influenced (positively or negatively) by the part of the Preference Share Underlying(s) in respect of the relevant Preference Shares, any change may not be comparable to a direct investment in such Preference Share Underlying(s) and may be disproportionate.

The historical performance of the Preference Shares or any relevant Preference Share Underlying(s) should not be taken as an indication of future performance of such Preference Shares or such Preference Share Underlying(s) during the term of such N&C Security.

Fluctuations in the value and/or volatility of the relevant Preference Share Underlying(s) will affect the value of the relevant Preference Shares and as a result, the value of the N&C Securities and the return on investment for N&C Securityholders. Other factors which may influence the market value of the Preference Shares and as a result, the value of the N&C Securities, include interest rates, potential dividend or interest payments (as applicable) in respect of the relevant Preference Share Underlying(s), changes in the method of calculating the relevant Preference Share Underlying(s) from time to time and market expectations regarding the future performance of the relevant Preference Share Underlying(s) and its composition.

The value of the Preference Shares and the relevant Preference Share Underlying(s) may be observed for valuation purposes at a particular time(s) on a particular day(s). The value of the Preference Shares and the relevant Preference Share Underlying(s) may move significantly in very short periods of time. As such prospective purchasers should be aware that the value observed for the Preference Shares and/or the relevant Preference Share Underlying(s) may not reflect the value of the Preference Shares and/or the relevant Preference Share Underlying(s) which have prevailed at other times on the relevant valuation day or in the period immediately preceding such day. Whilst the terms of the Preference Shares may include provisions to allow postponement of valuation of the relevant Preference Share Underlying(s) in the event of certain disruptions in the market, not all significant market movements will be covered by these provisions. Depending on the relevant Preference Share Underlying(s) for the Preference Shares, the volatility of prices at the opening or closing of relevant markets (which is traditionally caused as many trades are executed at such time) may itself have an effect on the prices of the Preference Shares and consequently the N&C Securities. Such volatility may have a negative impact on the return of N&C Securities.

The price at which a N&C Securityholder will be able to sell N&C Securities prior to maturity may be at a discount, which could be substantial, to the market value of such N&C Securities on the Issue Date, if, at such time, the value of the Preference Shares is below, equal to or not sufficiently above the value of the Preference Shares on the Issue Date.

The Preference Shares may be early redeemed and affect the value and return of the N&C securities

The issuer of the relevant Preference Shares (the "**Preference Share Issuer**") may early redeem or cancel the Preference Shares if the Preference Share Issuer or the calculation agent in respect of the Preference Shares (the "**Preference Share Calculation Agent**") (on behalf of the Preference Share Issuer) determines that:

- (i) any event occurs in respect of which the adjustment provisions under the terms and conditions of the Preference Shares provide the Preference Shares may be redeemed; or
- (ii) the performance of the obligations of the Preference Share Issuer under the Preference Shares, or any relevant hedging arrangement made to hedge the Preference Share Issuer's obligations under the Preference Shares, has or will become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power, or the interpretation thereof; or
- (iii) a change in applicable law or regulation occurs that in the determination of the Preference Share Calculation Agent results, or will result, by reason of the Preference Shares being outstanding, in the Preference Share Issuer being required to be regulated by any additional jurisdiction or regulatory authority, or being subject to any additional legal requirement or regulation or tax considered by the Preference Share Issuer to be onerous to it; or
- (iv) the Preference Share Issuer is notified that any related financial product (such as the N&C Securities) have become subject to early redemption.

If the Issuer receives a notice from the Preference Share Issuer of early redemption of the Preference Shares, each N&C Security shall be redeemed at its Early Redemption Amount.

The Early Redemption Amount in this case is determined taking into account the value of the Preference Shares immediately prior to the time of the early redemption of the N&C Securities and such Preference Share value in turn may take into account deduction of certain costs of the Preference Share Issuer and also certain costs of issuers and their hedging counterparties in relation to financial products (such as the N&C Securities) related to the Preference Shares. This may mean the value of the Preference Shares and consequently the Early Redemption Amount in respect of the N&C Securities may be less than the investor's initial investment and therefore an investor may lose some or all of the initial investment.

Investors have no claim against any Preference Share or any Preference Share Underlying

An N&C Security will not represent a claim against any Preference Share or any Preference Share Underlying and, in the event of any loss, an N&C Securityholder will not have recourse under an N&C Security to any Preference Share or any Preference Share Underlying. The N&C Securities are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an underlying Preference Share or any Preference Share Underlying and such entities have no obligation to take into account the consequences of their actions on any N&C Securityholders.

14. Risks relating to Preference Share Underlyings

The value of the Preference Shares will be linked to the economic performance of the relevant Preference Share Underlying(s). Potential investors in N&C Securities linked to Preference Shares should be aware that, depending on the terms of the Preference Shares, payments may occur at a different time than expected and they may lose all or a substantial portion of their investment if the value of the Preference Shares, determined by reference to the value of the Preference Share Underlying(s), does not move in the anticipated direction.

In addition, the movements in the level or price of the Preference Share Underlying(s) may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices or shares and the timing of changes in the relevant level or price of the Preference Share Underlying(s) may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier

the change in the level or price of Preference Share Underlying(s) or result of a formula, the greater the effect on yield to investors.

If amounts payable under the Preference Shares are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the Preference Share Underlying(s) on the Preference Shares will be magnified. This may, in turn, be reflected in the market value of the Preference Shares (which will be relevant to calculating the Final Redemption Amount, any Optional Redemption Amount or any Early Redemption Amount of the N&C Securities).

Prospective purchasers should review the Base Prospectus, the relevant Issue Terms and the terms and conditions of the relevant Preference Shares to ascertain whether and how adjustment provisions apply to the Preference Shares, the potential for the Preference Shares to be cancelled or redeemed and the effect of such adjustments on the N&C Securities.

Risks relating to Index Linked Preference Shares

The performance of the Preference Shares may be dependent on the level of or changes in the level of an index or a basket of indices ("**Index Linked Preference Shares**"). The relevant index or indices may be equity indices or inflation indices, and may be a well known and widely published or available index or indices or an index or indices established by the Issuer or another entity which may not be widely published or available. The market price of N&C Securities linked to Index Linked Preference Shares may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities notionally comprising the index or indices may be traded.

Various unpredictable factors may affect the performance of equity indices

Equity indices are comprised of a synthetic portfolio of shares, and as such, the performance of an equity index is dependent upon the macroeconomic factors relating to the shares that underlie such equity index, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as the index composition, which may change over time.

Actions by the index sponsor may negatively affect the Preference Shares

The sponsor of the equity index(s) will have no involvement in the offer and sale of the securities linked to or referencing such equity index(s) and will have no obligation to the holders of such securities. For example, the sponsor can add, delete or substitute the components of an index at its discretion, and may also alter the methodology used to calculate the level of the equity index. The sponsor may also alter, discontinue or suspend calculation or dissemination of the equity index. Any of these actions may have a detrimental impact on the level of the equity index, which in turn could have a negative impact on the value of the Preference Shares and consequently on the amount payable on the N&C Securities.

The return on Index Linked Preference Shares may be lower than a direct investment in the components of an underlying index

The return on Index Linked Preference Shares may be less than the return on a direct holding of the shares of the companies comprising the components of the equity index. This is because the closing index level on any specified valuation date may reflect the prices of such index components without taking into account any dividend payments on those component shares. Accordingly, the return on Index Linked Preference Shares may be lower than a direct investment in those shares.

The level of an Inflation Index may not correlate with other indices or otherwise not track the actual level of inflation in the relevant jurisdiction

A relevant consumer price index or other formula linked to a measure of inflation to which the Preference Shares are linked may be subject to significant fluctuations that may not correlate with other indices. Any movement in the level of the index may result in a reduction of the amount payable on the N&C Securities (if applicable).

The timing of changes in the relevant consumer price index or other formula linked to the measure of inflation comprising the relevant index or indices may affect the actual yield on the Preference Shares, even if the average level is consistent with expectations.

An index to which payments of Index Linked Preference Shares are linked is only one measure of inflation for the relevant jurisdiction, and such Index may not correlate perfectly with the rate of inflation experienced by N&C Securityholders in such jurisdiction.

United States CFTC "commodity pool" regulations

Unlike an investment in the N&C Securities, an investment in a collective investment vehicle that invests in futures or swap contracts linked to interest rates, exchange rates, broad based credit indices (such as the CDX Index or the iTraxx Index) and broad based equity indices (such as the S&P 500 Index) on behalf of its participants may be regulated as a commodity pool and its operator may be required to be registered with and regulated by the CFTC as a commodity pool operator. The Issuer's board of directors and the issuer of the Preference Shares will not be registered with the CFTC as commodity pool operators, and the N&C Securityholders will not benefit from the CFTC's or any non-U.S. regulatory authority's regulatory protections afforded to persons who trade in futures or swap contracts or who invest in regulated commodity pools.

Indices to which Index Linked Preference Shares may be indexed may include over the counter contracts (such as swaps and forward contracts) traded on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. As a result, trading in such contracts, and the manner in which prices and volumes are reported by the relevant trading facilities, may not be subject to the same provisions of, and the protections afforded by, the CEA, or other applicable United States or foreign statutes and related regulations, that govern trading on regulated futures exchanges.

In addition, many electronic trading facilities have only recently initiated trading and do not have significant trading histories. As a result, the trading of contracts on such facilities and the inclusion of such contracts in the relevant Index may be subject to certain risks not presented by most exchange related futures contracts, including risks related to the liquidity and price histories of the relevant contracts. At the same time, legislation recently enacted in the United States and pending in the European Union will increase the regulation of many of these over the counter contracts, including in some cases requiring them to be cleared and traded through regulated facilities, although the extent and nature of such regulation will differ from the regulation of futures.

Risks relating to Equity Linked Preference Shares

The performance of the Preference Shares may be dependent on the price of or changes in the price of shares or a basket of shares or the price of a GDR/ADR or a basket of GDRs/ADRs ("**Equity Linked Preference Shares**"). Accordingly, an investment in N&C Securities linked to Equity Linked Preference Shares may bear similar market risks to a direct equity investment and investors should take advice accordingly.

The value of Equity Linked Preference Shares may be volatile and may be affected by the time remaining to the redemption date, the volatility of the share or shares, the dividend rate (if any) and the financial results and prospects of the issuer or issuers of the relevant share or shares as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) of quotation system(s) on which any such shares may be traded.

Generally no issuer of the relevant share(s) will have participated in the preparation of the relevant issue documents or in establishing the terms and conditions of the Equity Linked Preference Shares and neither the Issuer nor any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of shares or in the documents from which such information was

extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of any publicly available information) that would affect the trading price of the share will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of shares could affect the trading price of the share and therefore the value of the Equity Linked Preference Shares, and therefore the value of the N&C Securities and the return on such N&C Securities.

Holders of N&C Securities linked to Equity Linked Preference Shares will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares to which such Preference Shares relate.

15. Risks associated with foreign exchange

Where the terms and conditions of the N&C Securities provide that payment under such N&C Securities will be made in a currency which is different from the currency of the Preference Share Underlying(s), changes in a relevant exchange rate may indirectly influence the value of any Preference Share Underlying(s) which, in turn, could have a negative effect on the return on the N&C Securities. In addition:

If an investor holds N&C Securities which are not denominated in the investor's home currency, the investor will be exposed to movements in exchange rates adversely affecting the value of the investor's holding. In addition, the imposition of exchange controls in relation to any N&C Securities could result in an investor not receiving payments on those N&C Securities

The Issuer will pay principal, interest and other amounts on the N&C Securities in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency equivalent yield on the N&C Securities, (2) the Investor's Currency equivalent value of the principal payable on the N&C Securities, and (3) the Investor's Currency equivalent market value of the N&C Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the N&C Securities. As a result, investors may receive less interest or principal than expected, or no interest or principal.

There is generally foreign exchange currency exposure in respect of N&C Securities which provide for payment to be made in a currency which is different from the currency of the Preference Share Underlying(s)

Where the terms and conditions of the N&C Securities provide that payment under such N&C Securities will be made in a currency which is different from the currency of the Preference Share Underlying(s), and such Preference Share Underlying(s) do not have a "quanto" feature (i.e. the Preference Share Underlying(s) themselves take no account of currency rate movements or otherwise hedge the currency risk), there are additional risks. Holders of such N&C Securities may be exposed not only to the performance of the Preference Share Underlying(s) but also to the performance of such foreign currency, which cannot be predicted. Investors should be aware that foreign exchange rates are, and have been, highly volatile and determined by supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks (e.g. imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency).

There are risks relating to currency-protected or "quanto" N&C Securities which provide for payment to be made in a currency which is different to the currency of the Preference Share Underlying(s)

If the Preference Share Underlying(s) are not denominated in the currency of the N&C Securities and at the same time only the performance of the Preference Share Underlying(s) in their denominated currency is relevant to the payout on the N&C Securities, such N&C Securities are referred to as currency-protected N&C Securities or N&C Securities with a "quanto" feature. Under such feature, the investment return of the N&C Securities depends only on the performance of the Preference Share Underlying(s) (in the relevant currency) and any change in the rate of exchange between the currency of the Preference Share Underlying(s) and the N&C Securities is disregarded. Accordingly, the application of a "quanto" feature means that N&C Securityholders will not benefit from any change in the rate of exchange between the currency of the Preference Shares and the N&C Securities that would otherwise increase the performance of the Preference Share Underlying(s) in the absence of such "quanto" feature but will also not be exposed to any such change that would otherwise decrease such performance.

16. Risks associated with taxation

The United Kingdom tax treatment of the N&C Securities for N&C Securityholders depends on their individual circumstances, the particular terms of the relevant series of N&C Securities and the views of HM Revenue & Customs in respect of the proper application of tax law, regulations and practice to the N&C Securities. Prospective holders should seek their own professional advice.

In particular, potential holders are referred to the section "*Taxation – United Kingdom Taxation*". Any potential holder who purchases any N&C Securities on the basis that they will be treated as "excluded indexed securities" should be aware that HM Revenue & Customs have not approved that treatment or otherwise represented in any way that the N&C Securities will be treated as "excluded indexed securities". It is therefore possible that HM Revenue & Customs may not agree with this treatment.

The United Kingdom tax treatment of the N&C Securities may also change during the period between their issue and the date on which they are sold, redeemed or otherwise realise value. Such change may be in the form of new legislation or amendments to existing legislation, decisions of the tribunals or courts or changes in HM Revenue & Customs practice, and in each case may affect N&C Securities already in issue and can otherwise be with retrospective effect.

Accordingly, the United Kingdom tax treatment of the N&C Securities for N&C Securityholders may be more onerous than was envisaged at the time when a decision to subscribe for the N&C Securities was taken and, as a consequence, the proceeds received and retained by investors after the application of applicable taxes may be less than N&C Securityholders envisage at the time of purchasing the N&C Securities.

U.S. withholding on dividend equivalent payments

Section 871(m) of the U.S. Internal Revenue Code of 1986 (the "**Code**") causes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met (such instruments, "**Specified N&C Securities**"). If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section "*Taxation-U.S. Dividend Equivalent Withholding*".

For purposes of withholding under the U.S. Foreign Account Tax Compliance Act, commonly known as FATCA, Specified N&C Securities are subject to a different grandfathering rule than other N&C Securities. Prospective investors should refer to the section "*Taxation – Foreign Account Tax Compliance Act*".

17. Risks associated with conflicts of interest of the Issuer, the Group, the Calculation Agent and the Dealer and the discretionary powers of the Issuer and the Calculation Agent

Role of Santander UK

Santander UK is acting in a number of capacities (e.g. Calculation Agent, Issuer and Dealer) in connection with the transactions described in this Base Prospectus. Santander UK, acting in such capacities in connection with such transactions, shall have only the duties and responsibilities expressly agreed to by it in its relevant capacity and shall not, by virtue of its acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity. Santander UK, in its various capacities in connection with the contemplated transactions, may enter into business dealings, including the acquisition of investment securities as contemplated by its constitutional and other corporate documents, from which it may derive revenues and profits in addition to the fees, if any, stated in its constitutional and other corporate documents, without any duty to account therefor.

In the ordinary course of its business, including without limitation in connection with its market making activities, Santander UK and/or any of its affiliates may effect transactions for its own account or for the account of its customers and hold long or short positions in any Preference Shares, the relevant Preference Share Underlying(s), other Reference Item(s) or related derivatives. In addition, in connection with the offering of any N&C Securities, Santander UK and/or any of its affiliates may enter into one or more hedging transactions with respect to any Preference Shares, the relevant Preference Share Underlying(s), other Reference Item(s) or related derivatives. Such hedging or market-making activities or with respect to proprietary or other trading activities by Santander UK and/or any of its affiliates, Santander UK and/or any of its affiliates may enter into transactions in any Preference Shares, the relevant Preference Share Underlying(s), other Reference Item(s) or related derivatives which may affect the market price, liquidity or value of the relevant N&C Securities and which could be deemed to be adverse to the interests of the relevant N&C Securityholders.

There is no limitation or restriction on Santander UK, or any of its respective Affiliates, with regard to acting as adviser (or in a similar role) to other parties or persons. This and other future activities of Santander UK and/or its Affiliates may give rise to additional potential conflicts of interest.

Santander UK in its capacity as Issuer and Dealer may at the date hereof or at any time hereafter, be in possession of information in relation to Preference Shares, the relevant Preference Share Underlying(s) and/or other Reference Item(s) that is or may be material in the context of the N&C Securities and may or may not be publicly available to N&C Securityholders. There is no obligation on Santander UK or any Dealer to disclose to N&C Securityholders any such information.

There may be potential conflicts of interests if intermediaries are appointed in connection with the offer or placement of the N&C Securities

Given that the intermediaries appointed from time to time as distributors and the other entities acting in connection with the offer or placement of the N&C Securities act in their institutional capacity pursuant to a mandate granted by the Issuer and receive fees on the basis of the placement activity carried out and its outcome, such intermediaries generally act in a situation that may give rise to a potential conflict of interest.

Investors in N&C Securities through an intermediary (including by way of introducing broker) should be aware that the existence of commissions that may be payable to such intermediary in respect of the N&C Securities to the extent permitted by applicable law may give rise to conflicts of interest, as an intermediary may be interested in selling to its customers primarily N&C Securities where it receives the highest commissions. Investors should request details of any such commission or fee payment from such intermediary and any potential conflicts of interest before making any purchase of N&C Securities.

Calculation Agent's discretion

The Calculation Agent (which may be Santander UK or an affiliate of Santander UK) has a very broad discretionary authority to make various determinations and adjustments under the N&C Securities, any of which may have an adverse effect on the value and/or the amounts payable under the N&C Securities. For example, the Calculation Agent has a broad discretion to, without limitation, (i) determine whether a Disrupted Day, Index Adjustment Event, Extraordinary Event and/or any other event and/or matters so specified in the Conditions has occurred, (ii) determine any resulting adjustments and calculations as described in the Conditions and (iii) make determinations in respect of any other matters as may be specified in the applicable Issue Terms. Prospective purchasers should be aware that any determinations made by the Calculation Agent may have an impact on the value and financial return of the N&C Securities. Any such discretion exercised by, or any calculation made by, the Calculation Agent (in the absence of manifest error) shall be binding on the Issuer and all holders of the N&C Securities. An entity (which will likely be Santander UK or an affiliate of Santander UK) will act as calculation agent under the terms of the Preference Shares and may exercise comparable discretions in respect of the Preference Shares, which may in turn affect the value of the N&C Securities.

An issue of N&C Securities or the related Preference Shares may provide that if any scheduled valuation date (including an averaging date) (i) falls on a day which is not a Scheduled Trading Day or any other day which is subject to adjustment in accordance with the terms and conditions of the relevant N&C Securities or Preference Shares and/or (ii) falls on a day in respect of which a disruption or similar event has occurred and is continuing in respect of the Reference Item or Preference Share Underlying(s) which affects the valuation of such Reference Item or Preference Share Underlying(s), the relevant calculation agent has broad discretion to make any consequential postponement of, or any alternative provisions for, valuation of such Reference Item or Preference Share Underlying(s) provided in the terms and conditions of the N&C Securities or Preference Shares, including a determination of the value of such Reference Item Preference Share Underlying(s) by the Calculation Agent in its discretion, each of which may have an adverse effect on the value of the N&C Securities or Preference Shares.

Regulatory Overview

As a financial services group, the Group is subject to extensive financial services laws, regulations, administrative actions and policies in the UK, the EU and in each other location in which the Group operates. Specific examples of such laws and regulations are set out below.

Capital Requirements Regulation and Capital Requirements Directive IV

The Group is subject to capital adequacy requirements applicable to banks and banking groups under directly applicable EU legislation and as adopted by the PRA. The Group is required to maintain a minimum ratio of Common Equity Tier 1 (the "**CET1**") capital to risk-weighted assets, Tier 1 capital to risk-weighted assets, total capital to risk-weighted assets and Tier 1 capital to total adjusted assets for leverage monitoring purposes. Any failure by the Group to maintain such ratios above prescribed regulatory minimum levels may result in administrative actions or sanctions. These could potentially include requirements on the Group to cease all or certain lines of new business, to raise new capital resources or, in certain circumstances, a requirement for the Group existing capital instruments (potentially including the Group's debt securities) to be subjected to bail-in or write down (for more information, see the section entitled "*Banking Act 2009*" below).

The Capital Requirements Directive IV (the "**CRD IV Directive**") and the Capital Requirements Regulation (the "**CRR**" and together with the CRD IV Directive, "**CRD IV**") implemented changes proposed by the Basel Committee on Banking Supervision (the "**Basel Committee**") to the capital adequacy framework, known as 'Basel III' in the EU. In implementing CRD IV, the PRA has required the capital resources of UK banks to be maintained at levels which exceed the base capital requirements prescribed by CRD IV and to cover relevant risks in their business. In addition, a series of capital buffers

Description of the Issuer

have been established under CRD IV and PRA rules to ensure a bank can withstand a period of stress. Though the results of the PRA's 2018 stress test did not impact on the level of capital that the Group is required to hold, the PRA could, in the future, as a result of stress testing exercises (both in the UK and EU wide) and as part of the exercise of UK macro-prudential capital regulation tools, or through supervisory actions, require the Group to increase its capital resources further.

The LCR

The LCR is intended to ensure that a bank maintains an adequate level of unencumbered, high quality liquid assets which can be used to offset the net cash outflows the bank could encounter under a short-term significant liquidity stress scenario. The current minimum requirement for LCR is set at 100 per cent. The Group's current liquidity position is in excess of the minimum requirements set by the PRA, however there may be future changes to the applicable liquidity requirements.

Leverage Ratios

The Financial Services Act 2012 also provides the Financial Policy Committee (the "**FPC**") of the BoE with certain other macro-prudential tools for the management of systemic risk including quarterly setting of the countercyclical capital buffer rate and powers of direction relating to leverage ratios. All major UK banks and banking groups (including the Group) are required to hold enough Tier 1 capital (75 per cent. of which must be CET1 capital) to satisfy a minimum leverage ratio requirement of 3.25 per cent. and enough CET1 capital to satisfy a countercyclical leverage ratio buffer of 35 per cent. of each bank's institution-specific countercyclical capital buffer rate. The PRA require UK globally systemically important banks (the "**G-SIBs**") and ring fenced bodies to hold enough CET1 capital to meet an additional leverage ratio buffer of 35 per cent. of the institution-specific G-SIB buffer rate or Systemic Risk Buffer ("**SRB**") rate, and for consolidated groups which include a ring fenced body to hold enough CET1 capital to meet Leverage Ratio Group Add-on. The FPC can also direct the PRA to adjust capital requirements in relation to particular sectors through the imposition of sectoral capital requirements. Action taken in the future by the FPC in exercise of any of its powers could result in the regulatory capital requirements applied to the Group being further increased.

Further Regulatory Changes

Regulators in the UK and worldwide have also proposed that additional loss absorbency requirements should be applied to systemically important institutions to ensure that there is sufficient loss absorbing and recapitalisation capacity available in resolution. The BRRD requires that EU Member States and the United Kingdom ensure that EU and UK banks meet a Minimum Requirement for Eligible Liabilities ("**MREL**"). The BoE is required to set MREL for all institutions. The BoE expects banks to comply with end-state MREL requirements by 1 January 2022.

On 7 June 2019 amendments to CRD IV, BRRD and the single resolution mechanism ("**SRM**") through Regulation (EU) 2019/876 of the European Parliament and of the Council amending CRR ("**CRR II**") and Directive (EU) 2019/878 of the European Parliament and of the Council amending CRD IV ("**CRD V**") were published. CRR II and CRD V introduce changes to the leverage ratio, requirements for own fund and MREL, counterparty credit risk, market risk, exposures to central counterparties, large exposures, reporting and disclosure requirements, remuneration, capital conservation measures and the net stable funding ratio ("**NSFR**") amongst others. The NSFR is defined as the amount of available stable funding relative to the amount of required stable funding. The majority of the provisions of CRR II will apply from 28 June 2021, although certain provisions, such as those relating to definition of own funds were implemented from 27 June 2019.

In addition to the above, regulators in the UK and worldwide have produced a range of proposals for future legislative and regulatory changes which could force the Group to comply with certain operational restrictions or take steps to raise further capital, or could increase the Group's expenses. These changes, which could affect the Group as a whole, include the EU implementation of the Basel Committee's new market risk framework, which reflects rules made as a result of the Basel Committee's fundamental review of the trading book. In addition, in December 2017 the Basel Committee published their finalisation of the Basel III framework, with proposed implementation from 1 January 2022. This includes the following elements:

Description of the Issuer

- Revisions to the standardised approach for credit risk, credit valuation adjustment risk and operational risk to address certain weaknesses identified by the Basel Committee.
- Additional constraints on the use of internal model approaches for credit risk, and removing the use of internal model approaches for credit valuation adjustment risk and operational risk.
- The use of an output floor based on standardised approaches.
- The introduction of a leverage ratio buffer for G-SIBs and refinements to the definition of the leverage ratio exposure measure.

Banking Reform

In accordance with the provisions of the Financial Services (Banking Reform) Act 2013 UK banking groups that hold significant retail deposits, including the Group, were required to separate or 'ring-fence' their retail banking activities from their wholesale banking activities by 1 January 2019. The Group completed its ring-fencing plans in advance of the legislative deadline of 1 January 2019.

Competition

Reviews and investigations may be undertaken by competition authorities (which in the United Kingdom include the CMA, the FCA and the PSR) into any aspect of the Group's operations or the functioning of any markets in which the Group operates, including, but not limited to, personal current accounts, mortgages and the SME retail banking market.

Payments

PSD2 is a fundamental piece of payments-related legislation in Europe, the first part of which came into force in January 2018. The regulation aims to harmonise payment processing across Europe, and is being implemented in the UK by the FCA. In the UK, PSD2 introduced Open Banking, which opened up access to customers' online account and payments data to third party providers (the "TPPs"). Customers are able to give secure access to certain TPPs authorised by the FCA or other European regulators to access account information and to make payments from current accounts. Following the CMA's retail banking market investigation, the nine largest current account providers in the UK (the "CMA-9"), including the Group, were required to accelerate certain of the PSD2 requirements and implement Open Banking by 13 January 2018.

Data Privacy

The coming into effect of the GDPR has introduced new obligations on data controllers and rights for data subjects. The implementation of the GDPR has required substantial amendments to the Group's procedures and policies. The changes have had, and could continue to have, an adverse impact on the Group's business by increasing its operational and compliance costs.

LIBOR

There is uncertainty as to whether LIBOR will cease to exist entirely before the end of 2021, whether the use of LIBOR will be made unlawful or impermissible in future, and whether there will be any transitional arrangements set out either by law, regulation or market practice.

Evolving conduct and regulatory policy

The FCA is currently at various stages (from finalised rules and guidance through to consultation and implementation) in respect of a number of initiatives which could impact or require changes to the Group's approach to products and services. This includes but is not limited to a debate in relation to a duty of care for financial services firms or potential changes to the principles for business, price discrimination and fair pricing initiatives, guidance on the variation of terms in financial services contracts, and reforms to the overdraft market through the high cost credit review. In parallel, the CMA is

Description of the Issuer

developing its role and responsibilities in relation to consumer protection and considering the impact of 'loyalty penalties' on consumers, which could result in changes for firms including those in the financial services sector.

Banking Act 2009

The special resolution regime set out in the Banking Act provides HM Treasury, the BoE, the PRA and the FCA with a variety of powers for dealing with UK deposit taking institutions (and, in certain circumstances, their holding companies) that are failing or likely to fail, including: (i) to take a bank or bank holding company into temporary public ownership; (ii) to transfer all or part of the business of a bank to a private sector purchaser; or (iii) to transfer all or part of the business of a bank to a 'bridge bank'. The special resolution regime also comprises a separate insolvency procedure and administration procedure each of which is of specific application to banks. These insolvency and administration measures may be invoked prior to the point at which an application for insolvency proceedings with respect to a relevant institution could be made.

If an instrument or order were made under the Banking Act in respect of an entity in the Group, such instrument or order (as the case may be) may, among other things: (i) result in a compulsory transfer of shares or other securities or property of such entity; (ii) have an impact on the rights of the holders of shares or other securities issued by the Group or such entity or result in the nullification or modification of the terms and conditions of such shares or securities; or (iii) result in the de-listing of the shares and/or other securities of such entity. In addition, such an order may affect matters in respect of the Group or such entity and/or other aspects of the shares or other securities of the Group or such entity.

If a "bail-in" order were made under the Banking Act as amended by The Financial Services (Banking Reform) Act 2013, such an order would be based on the principle that such creditors should receive no less favourable treatment than they would have received had the bank entered into insolvency immediately before the coming into effect of the bail-in power. The bail-in power includes the power to cancel or write down (in whole or in part) certain liabilities or to modify the terms of certain contracts for the purposes of reducing or deferring the liabilities of a bank under resolution and the power to convert certain liabilities into shares (or other instruments of ownership) of the bank.

Further, amendments to the Insolvency Act 1986 and secondary legislation have introduced changes to the treatment and ranking of certain debts with the result that certain eligible deposits will rank in priority to the claims of ordinary (i.e. non-preferred) unsecured creditors in the event of an insolvency.

Benchmarks Reform

The Benchmarks Regulation is a key element of ongoing regulatory reform in the EU and the UK and has applied, subject to certain transitional provisions, since 1 January 2018. In addition to so-called "critical benchmarks" such as LIBOR and Euro Interbank Offered Rate ("**EURIBOR**"), other interest rates, foreign exchange rates, and indices, including equity, commodity and "proprietary" indices or strategies, will in most cases be within scope of the Benchmark Regulation as "benchmarks" where they are used to determine the amount payable under, or the value of, certain financial instruments (including Securities listed on an EU or UK regulated market or EU or UK multilateral trading facility ("**MTF**")), and in a number of other circumstances.

The Benchmarks Regulation applies to the contribution of input data to a benchmark, the administration of a benchmark, and the use of a benchmark in the EU and UK. Amongst other things, the Benchmarks Regulation requires EU or UK benchmark administrators to be authorised or registered as such and to comply with extensive requirements relating to benchmark administration. It also prohibits certain uses by EU and UK supervised entities of (a) benchmarks provided by EU or UK administrators which are not authorised or registered in accordance with the Benchmark Regulation and (b) benchmarks provided by non-EU or UK administrators where (i) the administrator's regulatory regime has not been determined to be "equivalent" to that of the EU or UK, (ii) the administrator has not been recognised in accordance with the Benchmark Regulation, or (iii) the benchmark has not been endorsed in accordance with the Benchmark Regulation.

Amongst other developments, relevant authorities are strongly encouraging the transition away from IBORs, such as LIBOR and EURIBOR, and have identified "risk free rates" to eventually take the place of such IBORs as primary benchmarks. This includes (i) for sterling LIBOR, a reformed SONIA, so that SONIA may be established as the primary sterling interest rate benchmark by the end of 2021, (ii) for EONIA and EURIBOR, a new Euro Short-Term Rate as the

Description of the Issuer

new euro risk free rate, and (iii) for USD LIBOR, the Secured Overnight Financing Rate to be eventually established as the primary U.S. dollar interest rate benchmark. The risk free rates have a different methodology and other important differences from the IBORs they will eventually replace and have little, if any, historical track record. It is not known whether certain IBORs will continue long-term in their current form.

Financial Crime

The Group is required to comply with applicable AML, CTF, anti-bribery and corruption, sanctions, anti-tax evasion and other laws and regulations in the jurisdictions in which the Group operates. These laws and regulations require the Group, among other things, to conduct customer due diligence (including in respect of sanctions and politically-exposed person screening), ensure account and transaction information is kept up to date and implement effective financial crime policies and procedures detailing what is required from those responsible in order to counter financial crime risks. The Group is also required to conduct financial crime training for its staff and to report suspicious transactions and activity to appropriate law enforcement.

The policies and procedures require the implementation and embedding of effective controls and monitoring within the businesses of the Group, which requires ongoing changes to systems, technology and operational activities. Comprehensive and risk based financial crime training at a Group-wide wide and business unit level is a key element of this, with the FCA providing guidance on expectations within its Financial Crime Guide. Financial crime is continually evolving. This requires proactive and adaptable responses from the Group so that it is able to deter threats and criminality effectively. Even known threats can never be fully eliminated, and there will be instances where the Group may be used by other parties to engage in money laundering and other illegal or improper activities. In addition, the Group relies heavily on its staff to assist the Group by identifying such activities and reporting them, and the Group's staff have varying degrees of experience in recognising criminal tactics and understanding the level of sophistication of criminal organisations. Where the Group outsources any of its customer due diligence, customer screening or anti financial crime operations, it remains responsible and accountable for full compliance and any breaches.

Over the last decade, financial crime risk has become the subject of enhanced regulatory scrutiny and supervision by regulators globally, and such scrutiny continues to intensify. Consequently, AML, CTF, anti-bribery and corruption and sanctions laws and regulations have become, and may continue to become, increasingly complex and detailed and have become, and may continue to become, the subject of enhanced regulatory supervision, requiring improved systems, sophisticated monitoring and skilled compliance personnel. The complexity in the area of financial crime policy is a significant challenge, involving overlapping requirements between different legislation, and, in some instances, conflicts of laws. The divergence of policy approaches between the EU/UK and U.S. in the area of financial sanctions is exacerbated by the lack of clear guidance from the UK Office of Financial Sanctions Implementation.

- (a) an equity index or a basket of equity indices ("**Equity Index Linked Interest N&C Securities**");
- (b) an inflation index or a basket of inflation indices ("**Inflation Index Linked Interest N&C Securities**"); or
- (c) any combination of any of the above ("**Cross-Asset Linked Interest N&C Securities**").

Investors must review the Payout Annex together with the relevant Issue Terms to ascertain how the performance of the Reference Item(s) will affect the interest amount(s) payable on the N&C Securities.

The redemption amount payable in respect of N&C Securities issued under the Programme will be determined by reference to the value of the Preference Shares specified in the applicable Issue Terms and, unless the relevant N&C Securities are Exempt N&C Securities, if the N&C Securities are interest bearing, may be Fixed Rate N&C Securities, Floating Rate N&C Securities or Variable Interest Rate N&C Securities of the types described at (a) to (c) above.

Settlement

Settlement of the N&C Securities will be by way of cash settlement only.

Prospective investors must review the Payout Annex (for Non-Exempt N&C Securities) together with the applicable Issue Terms to ascertain details of the Reference Items (if any) (for the purposes of the determination of interest) and the Preference Shares (for the purposes of the determination of amounts payable upon redemption) and the Conditions and the applicable Final Terms to see how the Final Redemption Amount, Optional Redemption Amount, Early Redemption Amount, and any periodic interest payments are determined and when such amounts are payable, before making any decision to purchase any N&C Securities.

Distribution

As a result of the restrictions set out in the section of this Base Prospectus entitled "*Subscription and Sale*", purchasers of N&C Securities are advised to consult legal or other expert advisors prior to making any purchase, offer, sale, resale or other transfer of such N&C Securities.

Form of N&C Securities

N&C Securities may be issued in bearer form ("**Bearer N&C Securities**") or immobilised bearer form ("**Immobilised Bearer N&C Securities**").

General Description of the Programme

The N&C Securities of each Series will be represented by a global security in bearer form.

Bearer N&C Securities will be issued outside the United States in reliance on Regulation S.

Immobilised Bearer N&C Securities will be issued through Citibank, N.A., London Branch in its capacity as Book-Entry Depositary pursuant to an N&C Securities Depositary Agreement dated on or about the date of this Base Prospectus and may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person, as described in "*Form of the N&C Securities*".

CREST Depositary Interests

If CREST Depositary Instruments are specified in the Issue Terms, investors may hold indirect interests in the N&C Securities (such N&C Securities being "**Underlying Securities**") through CREST (being the system for the paperless settlement of trades and the holding of uncertificated securities operated by Euroclear UK & Ireland Limited or any successor thereto in accordance with the United Kingdom Uncertificated Securities Regulations 2001, as amended) by holding dematerialised depositary interests ("**CREST Depositary Interests**").

CREST Depositary Interests are independent securities constituted under English law issued, held, settled and transferred through Euroclear UK and Ireland Limited (formerly known as CRESTCo Limited) ("**CREST**"). CREST Depositary Interests are issued by CREST Depositary Limited or any successor thereto (the "**CREST Depositary**") pursuant to the Global Deed Poll dated 25 June 2001, in the form from time to time contained in Chapter 8 of the CREST International Manual (which forms part of the CREST Manual) (as defined below in "*Book-Entry Clearance Systems and Settlement*") (as subsequently modified, supplemented and/or restated) (the "**CREST Deed Poll**").

CREST Depositary Interests represent indirect interests in the Underlying Securities to which they relate and holders of CREST Depositary Interests will not be the legal owners of the Underlying Securities. Holders of CREST Depositary Instruments will not be entitled to deal directly in the N&C Securities and, accordingly, all dealings in the N&C Securities will be effected through CREST in relation to the holding of CREST Depositary Interests.

The Underlying Securities (as distinct from the CREST Depositary Interests representing indirect interests in such Underlying Securities) will be held in an account with a custodian. The custodian will hold the Underlying Securities through the relevant Clearance System. Rights in the Underlying Securities will be held through custodial and depositary links through the relevant Clearance System. The legal title to the Underlying Securities or to interests in the Underlying Securities will depend on the rules of the relevant Clearance System in or through which the Underlying Securities are held.

CREST International Nominees Limited or another entity appointed to act as nominee in accordance with the CREST Deed Poll (the "**CREST Nominee**") will hold the legal title to the Underlying Securities and the direct enforcement right in respect of the Underlying Securities. This could result in a holder of CREST Depositary Interests receiving less than, or none of, the full amount payable in respect of the Underlying Securities in the event of any insolvency or liquidation of any relevant intermediary, in particular where the Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

The rights of the holders of CREST Depositary Interests in respect of their indirect interests in the relevant N&C Securities will be governed by the arrangements between CREST and Euroclear Bank S.A., Euroclear Bank N.V. and/or Clearstream Banking S.A., Luxembourg or any other clearing system specified in the Issue Terms in respect of the relevant N&C Securities in which the Underlying Securities are held, including the CREST Deed Poll executed by the CREST Depositary. These rights are different from those of holders of N&C Securities which are not represented by CREST Depositary Interests.

CREST Depositary Interests are further described in the section entitled "*Book-Entry Clearance Systems and Settlement*".

The Book-Entry Depository shall have only those rights, discretions, duties, obligations and responsibilities expressly specified in the N&C Securities Depository Agreement and the Conditions and, other than holding any Immobilised Bearer Global N&C Security as bare trustee, as aforesaid, does not assume any relationship of trust for or with the owners of the Book-Entry Interests or any other person. In particular, the Book-Entry Depository may not extinguish, cancel or otherwise terminate this arrangement other than pursuant to the terms of the N&C Securities Depository Agreement and the Conditions. N&C Securityholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by normal uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

In these Conditions:

4.2 Interest on Fixed Rate N&C Securities

This N&C Security Condition 4.2 applies to Fixed Rate N&C Securities only. The applicable Issue Terms contains provisions applicable to the determination of fixed rate interest and must be read in conjunction with this N&C Security Condition 4.2 and/or the relevant provisions of the Payout Annex for full information on the manner in which interest is calculated on Fixed Rate N&C Securities. In particular, the applicable Issue Terms will specify the Interest Commencement Date, the Rate(s) of Interest, the Interest Payment Date(s), the Maturity Date, the Fixed Coupon Amount, any applicable Broken Amount, the Calculation Amount, the Day Count Fraction, the Business Day Convention and any applicable Determination Date.

- (a) If no Fixed Coupon Amount or Broken Amount is specified in the applicable Issue Terms, the following provisions shall apply with respect to a Fixed Rate N&C Security:

Each Fixed Rate N&C Security will bear interest from (and including) the Interest Commencement Date (which unless otherwise specified in the applicable Issue Terms shall be the Issue Date) at the rate(s) (expressed as a percentage) equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Scheduled Maturity Date.

Such interest will be payable in respect of each Fixed Rate N&C Security Interest Period. In these Conditions and for the purposes of Fixed Rate N&C Securities only, "**Fixed Rate N&C Security Interest Period**" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If a Business Day Convention is specified in the applicable Issue Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day (as defined in N&C Security Condition 5.6 below), then, if the Business Day Convention specified is:

- (i) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (ii) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (iii) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

Unless Day Count Fraction is specified as "Not Applicable" in the applicable Issue Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Fixed Rate N&C Securities which are represented by a Global N&C Security, the aggregate outstanding nominal amount of the Fixed Rate N&C Securities represented by such Global N&C Security; or

General Terms and Conditions of the N&C Securities

- (ii) in the case of Fixed Rate N&C Securities in definitive form held by each N&C Securityholder, the aggregate outstanding nominal amount of such Fixed Rate N&C Securities held by such N&C Securityholder,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with the Rounding Convention (as specified in N&C Security Condition 5 (Payments) below). Where the Specified Denomination of a Fixed Rate N&C Security in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate N&C Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

- (b) If a Fixed Coupon Amount or Broken Amount is specified in the applicable Issue Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Rate N&C Security Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Issue Terms, amount to the Broken Amount so specified.

4.3 Interest on Floating Rate N&C Securities and Variable Interest Rate N&C Securities

This N&C Security Condition 4.3 applies to Floating Rate N&C Securities and Variable Interest Rate N&C Securities only. The applicable Issue Terms contains provisions applicable to the determination of interest in respect of such N&C Securities and must be read in conjunction with this N&C Security Condition 4.3 and/or the relevant provisions of the Payout Annex for full information on the manner in which interest is calculated on Floating Rate N&C Securities and Variable Interest Rate N&C Securities. In particular, the applicable Issue Terms will identify any Specified Interest Payment Dates, any Specified Period, the Interest Commencement Date, the Business Day Convention and any Additional Business Centres. In respect of Floating Rate N&C Securities, the applicable Issue Terms will specify whether ISDA Determination, Screen Rate Determination or Bank of England Base Rate Determination applies to the calculation of interest, the party who will calculate the amount of interest due if it is not the Principal Paying Agent, the Margin, any maximum or minimum interest rates and the Day Count Fraction. Where ISDA Determination applies to the calculation of interest, the applicable Issue Terms will also specify the applicable Floating Rate Option, Designated Maturity and Reset Date. Where Screen Rate Determination applies to the calculation of interest, the applicable Issue Terms will also specify the applicable Reference Rate, any Rate Multiplier, Interest Determination Date(s) and Relevant Screen Page. Where Bank of England Base Rate Determination applies to the calculation of interest, the applicable Issue Terms will also specify the Designated Maturity, Interest Determination Date(s) and Relevant Screen Page. In respect of Variable Interest Rate N&C Securities, the applicable Issue Terms will identify those items specified in the applicable paragraph of the Payout Annex.

(A) Interest Payment Dates

Each Floating Rate N&C Security and Variable Interest Rate N&C Security will bear interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year, as specified in the applicable Issue Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Issue Terms, each date (each such date, together with each Specified Interest Payment Date, an "**Interest Payment Date**") which falls the number of months or other period specified as the Specified Period in the applicable Issue Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, "**Interest Period**" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date)

General Terms and Conditions of the N&C Securities

to (but excluding) the next (or first) Interest Payment Date or the relevant payment date if the N&C Security become payable on a date other than an Interest Payment Date.

If a Business Day Convention is specified in the applicable Issue Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day (as defined in N&C Security Condition 4.6 below), then, if the Business Day Convention specified is:

- (a) in any case where Specified Periods are specified in accordance with N&C Security Condition 4.3(A)(ii) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (b) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (c) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (d) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

(B) *Rate of Interest*

The Rate of Interest payable from time to time in respect of Floating Rate N&C Securities will be determined in the manner specified in the applicable Issue Terms. The Rate of Interest payable from time to time in respect of Variable Interest Rate N&C Securities will be determined in accordance with the relevant paragraph of the Payout Annex as completed by the applicable Issue Terms.

(i) *ISDA Determination for Floating Rate N&C Securities*

Where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be (x) the relevant ISDA Rate (y) plus or minus (as indicated in the applicable Issue Terms) the Margin (if any) the result of which will be (z) multiplied by the Rate Multiplier, if any, provided the Rate of Interest may not be less than zero. For the purposes of this sub paragraph (i), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent, the Calculation Agent or other person specified in the applicable Issue Terms, as applicable, under an interest rate swap transaction if the Principal Paying Agent, the Calculation Agent or that other person, as applicable, were acting as Calculation Agent (as defined in the ISDA Definitions (as defined below)) for that swap transaction under the terms of an agreement incorporating the ISDA Definitions (as defined below) and under which:

- (a) the Floating Rate Option is as specified in the applicable Issue Terms;
- (b) the Designated Maturity is that period specified in the applicable Issue Terms; and

General Terms and Conditions of the N&C Securities

- (c) the relevant Reset Date is the day specified in the applicable Issue Terms.

For the purposes of this sub-paragraph (i), (x) "**Euro-zone**" means the region comprised of member states of the European Union ("**Member States**") that adopt the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union and the Treaty of Amsterdam and (y) "**Floating Rate**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

Where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, unless otherwise stated in the applicable Issue Terms, the Minimum Rate of Interest shall be deemed to be zero.

(ii) *Screen Rate Determination for Floating Rate N&C Securities*

- (a) Where Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be (x) either:

- (i) the offered quotation; or
- (ii) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being either the London interbank offered rate ("**LIBOR**") or the European interbank offered rate ("**EURIBOR**"), as specified in the applicable Issue Terms) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11:00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date (as specified in the applicable Issue Terms) in question, in each case (y) plus or minus (as indicated in the applicable Issue Terms) the Margin (if any), the result of which will be (z) multiplied by the Rate Multiplier (if any), all as determined by the Principal Paying Agent, Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, and provided the Rate of Interest may not be less than zero. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent, Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (i) above, no such offered quotation appears or, in the case of (ii) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

(iii) *Bank of England Base Rate Determination for Floating Rate N&C Securities*

Where Bank of England Base Rate Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be (x) the Bank of England Base Rate (y) plus or minus (as indicated in

General Terms and Conditions of the N&C Securities

the applicable Issue Terms) the Margin (if any), the result of which will be (z) multiplied by the Rate Multiplier, if any, all as determined by the Calculation Agent.

"Bank of England Base Rate" means the most recent published rate for deposits for a period equal to the Designated Maturity (as specified in the applicable Issue Terms) which appears on the Relevant Screen Page (as specified in the applicable Issue Terms) as of 5:00 p.m., London time, on the Interest Determination Date (as specified in the applicable Issue Terms) or, if such Relevant Screen Page is not available, such replacement page as the Calculation Agent shall select, or if the Calculation Agent determines no suitable replacement page exists, the rate determined by the Calculation Agent in good faith and in a commercially reasonable manner.

- (iv) If, in respect of Exempt N&C Securities, the Reference Rate from time to time in respect of Floating Rate N&C Securities is specified in the applicable Pricing Supplement as being other than LIBOR, EURIBOR or the Bank of England Base Rate, the Rate of Interest in respect of such Exempt N&C Securities will be determined as provided in the applicable Pricing Supplement.

(C) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Issue Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (B) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest. If no other Minimum Rate of Interest for any Interest Period is specified in the applicable Issue Terms, then the Minimum Rate of Interest in respect of such Interest Period shall be deemed to be zero and in no event shall the Rate of Interest for such calculation period in accordance with N&C Security Condition 4.3(B) above be less than zero.

If the applicable Issue Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (B) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(D) Determination of Rate of Interest and calculation of Interest Amounts

The Principal Paying Agent, the Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, in the case of Floating Rate N&C Securities, and the Calculation Agent, in the case of Variable Interest Rate N&C Securities will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Variable Interest Rate N&C Securities, if applicable, the Calculation Agent will determine the Rate of Interest as provided in the Payout Annex as completed by the applicable Issue Terms. The Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

In the case of Variable Interest Rate N&C Securities, if applicable, the Calculation Agent will determine the Interest Amount as provided in the Payout Annex as completed by the applicable Issue Terms.

Unless Day Count Fraction is specified as "Not Applicable" in the applicable Issue Terms, the Principal Paying Agent, the Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, in the case of Floating Rate N&C Securities, and the Calculation Agent, in the case of all other Variable Interest Rate N&C Securities, will calculate the amount of interest (the **"Interest Amount"**) payable on the N&C Securities for the relevant Interest Period by applying the Rate of Interest to:

General Terms and Conditions of the N&C Securities

- (a) in the case of Floating Rate N&C Securities and Variable Interest Rate N&C Securities which are represented by a Global N&C Security, the aggregate outstanding nominal amount of the applicable N&C Securities represented by such Global N&C Security;
- (b) in the case of Floating Rate N&C Securities and Variable Interest Rate N&C Securities which are in definitive form held by each N&C Securityholder, the aggregate outstanding nominal amount of such Floating Rate N&C Securities or Variable Interest Rate N&C Securities (as applicable) held by such N&C Securityholder,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with the Rounding Convention (as specified in N&C Security Condition 5 (Payments) below). Where the Specified Denomination of a Floating Rate N&C Security or a Variable Interest Rate N&C Security in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such N&C Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding. In such case, the Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same.

(E) *Linear Interpolation*

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Issue Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent or the Calculation Agent, as applicable, by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Issue Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Issue Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent or the Calculation Agent, as applicable, shall determine such rate at such time and by reference to such sources as it determines appropriate.

"Designated Maturity" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(F) *Notification of Rate of Interest and Interest Amounts*

The Principal Paying Agent, the Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange and/or market on which the relevant Floating Rate N&C Securities or a Variable Interest Rate N&C Securities are for the time being listed and/or admitted to trading and notice thereof to be published in accordance with N&C Security Condition 13 (Notices) as soon as possible after their determination but in no event later than the fourth (4th) London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will promptly be notified to each stock exchange and/or market on which the relevant Floating Rate N&C Securities or Variable Interest Rate N&C Securities are for the time being listed and/or admitted to trading and to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices). For the purposes of this paragraph, the expression **"London Business Day"** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business (including dealings in foreign exchange and foreign currency deposits) in London.

General Terms and Conditions of the N&C Securities

(G) *Certificates to be final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this N&C Security Condition 4.3 (Interest on Floating Rate N&C Securities and Variable Interest Rate N&C Securities), whether by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Principal Paying Agent, the Calculation Agent (if applicable), the other Paying Agents and all N&C Securityholders and Couponholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the N&C Securityholders or the Couponholders shall attach to the Principal Paying Agent or the Calculation Agent (if applicable) in connection with the exercise or non exercise by it of its powers, duties and discretions pursuant to such provisions.

4.4 Interest on Exempt N&C Securities

The rate or amount of interest, if any, payable in respect of Exempt N&C Securities which are not Fixed Rate N&C Securities or Floating Rate N&C Securities shall be determined in the manner specified in the applicable Pricing Supplement.

4.5 Accrual of interest

In respect of each interest bearing N&C Security no interest will be payable on any early redemption of the N&C Securities unless the relevant Interest Payment Date has occurred on or prior to the relevant Early Redemption Date and the interest payable in respect of such Interest Payment Date has not already been paid.

Unless early redeemed or purchased and cancelled, each N&C Security will cease to bear interest (if any) from the date for its final redemption or if earlier, the Scheduled Maturity Date unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue on the relevant payment of principal on a daily basis from and including such date of presentation at the relevant Rate of Interest and on the basis of the applicable Day Count Fraction or, if Day Count Fraction is specified as "Not Applicable" in the applicable Issue Terms, at such day count fraction as would customarily apply to the calculation of interest on securities denominated in the Specified Currency as selected by the Principal Paying Agent, the Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, in the case of Fixed Rate N&C Securities and Floating Rate N&C Securities, or the Calculation Agent, in the case of all other Variable Interest Rate N&C Securities acting in good faith and in a commercially reasonable manner, until whichever is the earlier of:

- (A) the date on which all amounts due in respect of such N&C Security have been paid; and
- (B) five (5) days after the date on which the full amount of the moneys payable in respect of such N&C Security has been received by the Principal Paying Agent or the Registrar, as the case may be, and notice to that effect has been given to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices).

4.6 Business Day

In these Conditions, "**Business Day**" means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and each Additional Business Centre specified in the applicable Issue Terms and if TARGET2 is specified, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (or any successor thereto) (the "**TARGET2 System**") is open; and

General Terms and Conditions of the N&C Securities

- (b) either (x) in relation to any sum payable in a currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant currency (which if the currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) or (y) in relation to any sum payable in euro, a day on which the TARGET2 System is open. Unless otherwise provided in the applicable Issue Terms, or as above, the principal financial centre of any currency for the purpose of these Conditions shall be as provided in the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Associations, Inc. and as amended and updated as at the Issue Date of the first Tranche of the N&C Securities (the "**ISDA Definitions**").

4.7 Interest calculations without a day count fraction

If any amount of interest is to be determined and Day Count Fraction is specified as "Not Applicable" in the applicable Issue Terms such amount of interest will be calculated as specified in the applicable Issue Terms and any reference to a Day Count Fraction in this N&C Security Condition 4 will be deemed not to apply.

4.8 Fixed Income Benchmark

If the applicable Issue Terms specify that a Rate of Interest is to be determined in accordance with this N&C Security Condition 4.8, then, in respect of any relevant Interest Determination Date or Reset Date specified in the applicable Issue Terms for which that Rate of Interest is to be determined, the Rate of Interest will be determined for these purposes only in accordance with this N&C Security Condition 4 (Interest) on the following basis:

- (a) the N&C Securities are deemed to be Floating Rate N&C Securities to which Screen Rate Determination or ISDA Determination or Bank of England Base Rate Determination applies as specified under the heading "Fixed Income Benchmark" in the applicable Issue Terms;
- (b) if Screen Rate Determination applies the Reference Rate will mean the relevant LIBOR or EURIBOR rate as specified under the heading "Fixed Income Benchmark" in the applicable Issue Terms and the Relevant Screen Page will be as specified under the heading "Fixed Income Benchmark" in the applicable Issue Terms;
- (c) if ISDA Determination applies the Floating Rate Option and the Designated Maturity will be deemed to be the relevant option and period respectively specified under the heading "Fixed Income Benchmark" in the applicable Issue Terms;
- (d) if Bank of England Base Rate Determination applies the Designated Maturity and Relevant Screen Page will be deemed to be the relevant period and page respectively specified under the heading "Fixed Income Benchmark" in the applicable Issue Terms;
- (e) each day on which the Rate of Interest is to be determined will be deemed to be a Reset Date;
- (f) each of the Margin, the Minimum Rate of Interest, the Maximum Rate of Interest and the Additional Business Centre, if any, will be the values or centres specified as such under the heading "Fixed Income Benchmark" in the applicable Issue Terms;
- (g) the Calculation Agent will be the party making all Rate of Interest determinations and, where Screen Rate Determination applies, notwithstanding the final paragraph of N&C Security Condition 4.3(B)(ii), if the Calculation Agent is unable to determine the Rate of Interest in accordance with N&C Security Condition 4.3(B)(ii), the Rate of Interest will be determined by the Calculation Agent in good faith and in a commercially reasonable manner as the rate it determines would have prevailed but for the relevant disruption or other event.

General Terms and Conditions of the N&C Securities

4.9 Delay of interest payment

In the event that pursuant to any adjustment or disruption provision in the Conditions any payment of interest would be delayed beyond the Maturity Date payment will be made in such manner as shall be notified to N&C Securityholders in accordance with N&C Security Condition 13 (Notices).

5. PAYMENTS

5.1 Payments in respect of Definitive Bearer N&C Securities

(A) *Payments in respect of Definitive Bearer N&C Securities*

Subject as provided below:

- (i) payments in a Specified Currency other than euro or U.S. Dollars will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency;
- (ii) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
- (iii) payments will be made in U.S. Dollars by transfer to a U.S. Dollar account maintained by the payee with a bank outside of the United States (which expression, as used in this N&C Security Condition 5, means the United States of America, including the States and the District of Columbia and its possessions), or by cheque drawn on a United States bank. In no event will payment in respect of any Definitive Bearer N&C Security be made by a cheque mailed to an address in the United States. All payments of interest in respect of Definitive Bearer N&C Securities will be made to accounts located outside the United States except as may be permitted by United States tax law in effect at the time of such payment without detriment to the Issuer.

(B) *Payment of Principal and Interest in respect of Definitive Bearer N&C Securities and Coupons*

Payments of principal in respect of Definitive Bearer N&C Securities will (subject as provided below) be made in the manner provided in N&C Security Condition 5.1(A) (*Payments in respect of Definitive Bearer N&C Securities*) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Bearer N&C Securities, and payments of interest in respect of Definitive Bearer N&C Securities will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

(C) *Missing Unmatured Coupons*

Fixed Rate N&C Securities in definitive bearer form (other than Long Maturity N&C Securities (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten (10) years after the Relevant Date (as defined in

General Terms and Conditions of the N&C Securities

N&C Security Condition 8 (Prescription)) in respect of such principal (whether or not such Coupon would otherwise have become void under N&C Security Condition 8 (Prescription)) or, if later, five (5) years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

(D) *Unmatured Coupons and Talons void*

Upon any Fixed Rate N&C Security in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmaturing Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate N&C Security, Variable Interest Rate N&C Security or Long Maturity N&C Security in definitive bearer form becomes due and repayable, unmaturing Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A "**Long Maturity N&C Security**" is a Fixed Rate N&C Security (other than a Fixed Rate N&C Security which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such N&C Security shall cease to be a Long Maturity N&C Security on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such N&C Security.

If the due date for redemption of any Definitive Bearer N&C Security is not an Interest Payment Date, interest (if any) accrued in respect of such N&C Security from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against presentation and surrender of the relevant Definitive Bearer N&C Security.

(E) *Payments of Principal and Interest in respect of Global N&C Securities*

Payments of principal and interest (if any) in respect of N&C Securities represented by any Global N&C Security in bearer form will (subject as provided below) be made in the manner specified above in relation to Definitive Bearer N&C Securities and otherwise in the manner specified in the Definitive Bearer Global N&C Securities against presentation or surrender, as the case may be, of such Global N&C Securities at the specified office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of any Global N&C Securities, distinguishing between any payment of principal and any payment of interest, will be made on such Global N&C Securities by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

No payments of principal, interest or other amounts due in respect of a Global N&C Security will be made by mail to an address in the United States or by transfer to an account maintained in the United States.

5.2 Payments in respect of Immobilised Bearer Global N&C Securities

Payments of any amounts owing in respect of the Immobilised Bearer Global N&C Securities (including principal, interest and instalments, if any) will be made by the Issuer in the Settlement Currency to the relevant Paying Agent. The relevant Paying Agent will, in turn, make such payments to the Custodian in its capacity as the bearer of the relevant Immobilised Bearer Global N&C Securities and the amount so received by the Custodian is forwarded by it to the Book-Entry Depositary in accordance with the terms of the N&C Securities Depositary Agreement. Upon receipt of any such amounts, the Book-Entry Depositary will pay the amounts so received to the common depositary for Euroclear and/or Clearstream, Luxembourg, as applicable, which will distribute such payments to participants in accordance with their procedures.

The Issuer, the Principal Paying Agent and the Registrar will treat the bearer of the Immobilised Bearer Global N&C Securities as the owners thereof for the purpose of receiving payments and for all other purposes.

General Terms and Conditions of the N&C Securities

Consequently, none of the Issuer, the Book-Entry Depositary, any Agent, the Registrar or any agent of the Issuer, any Agent or the Registrar has or will have any responsibility or liability for:

- (A) any aspect of the records of Euroclear, Clearstream, Luxembourg or any participants or indirect participant relating to, or payments made on account of, Euroclear, Clearstream, Luxembourg or any participant or indirect participant relating to or payments made on account of a Book-Entry Interest; or
- (B) Euroclear, Clearstream, Luxembourg or any participant or indirect participant.

Payments by participants to owners of Book-Entry Interests held through participants are the responsibility of such participants.

In the event any Immobilised Bearer Global N&C Security (or any portion thereof) is redeemed, the Book-Entry Depositary will, through Euroclear or Clearstream, Luxembourg, as applicable, redeem an equal amount of the Book-Entry Interests in such Immobilised Bearer Global N&C Security from the amount received by it in respect of the redemption of such Immobilised Bearer Global N&C Security. The redemption price payable in connection with the redemption of such Book-Entry Interests will be equal to the amount received by the Book-Entry Depositary in connection with the redemption of such Immobilised Bearer Global N&C Securities (or any portion thereof).

5.3 Payments in respect of Definitive Registered N&C Securities

(A) Payments of principal in respect of Definitive Registered N&C Securities

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Definitive Registered N&C Security will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Definitive Registered N&C Security at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account of the holder (or the first named of joint holders) of the Definitive Registered N&C Security appearing in the register of holders of the Definitive Registered N&C Security maintained by the Registrar (the "**Register**") at the close of business on the fifteenth (15th) calendar day (whether or not such fifteenth day is a business day) before the relevant due date (the "**Record Date**"). Notwithstanding the previous sentence, if a holder does not have a Designated Account, payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank. For these purposes, "**Designated Account**" means the account maintained by a holder with a designated bank and identified as such in the Register and "**Designated Bank**" means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency and (in the case of a payment in euro) any bank which processes payments in euro.

(B) Payments of interest in respect of Definitive Registered N&C Securities

Payments of interest in respect of each Definitive Registered N&C Security, if any, will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Definitive Registered N&C Security appearing in the Register at the close of business on the Record Date at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three (3) business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Definitive Registered N&C Security, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Definitive Registered N&C Securities which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Definitive Registered N&C Security on

General Terms and Conditions of the N&C Securities

redemption will be made in the same manner as payment of the principal amount of such Definitive Registered N&C Security.

Holders of Definitive Registered N&C Securities will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Definitive Registered N&C Security as a result of a cheque posted in accordance with this N&C Security Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Definitive Registered N&C Securities.

5.4 General provisions applicable to payments

- (A) The holder of a Global N&C Security shall be the only person entitled to receive payments or to make a claim in respect of N&C Securities represented by such Global N&C Security and the Issuer will be discharged by payment to, or to the order of, the holder of such Global N&C Security in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg or the relevant clearance system specified in the applicable Issue Terms, as the beneficial holder of a particular nominal amount or number of units of N&C Securities represented by such Global N&C Security must look solely to Euroclear or Clearstream, Luxembourg or the relevant clearance system specified in the applicable Issue Terms, as the case may be, for his share of each payment so made by the Issuer or to the order of, the holder of such Global N&C Security.
- (B) Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment and (ii) any withholding or deduction required: (a) pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto; and (b) pursuant to Section 871(m) of the Code (**871(m) Withholding**). Any such amounts withheld or deducted will be treated as paid for all purposes under the N&C Securities, and no additional amounts will be paid on the N&C Securities with respect to any such withholding or deduction.

In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the N&C Securities, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

Payments on the N&C Securities that reference U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

- (C) Upon the date on which any Variable Interest Rate N&C Securities in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

5.5 Place of Payment

Notwithstanding the foregoing provisions of this N&C Security Condition 5, if any amount of principal and/or interest in respect of N&C Securities (other than those in definitive registered form) is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such N&C Securities will be made at the specified office of a Paying Agent in the United States if:

General Terms and Conditions of the N&C Securities

- (A) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer N&C Securities in the manner provided above when due;
- (B) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (C) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

Any amount payable in respect of an N&C Security which exceeds the sum subscribed represents an amount payable by the Issuer (i) as consideration for the use of the sum subscribed by the Issuer and (ii) as compensation for and in recognition that in certain circumstances the amount repayable on maturity may be less than the sum subscribed or that the amount paid in excess of the sum subscribed may have been less than the prevailing rate of interest (generally payable by the Issuer) at the time when the N&C Securities were issued.

5.6 Payment Days

Subject to N&C Security Condition 4.3(A) (*Interest Payment Dates*), if the date for payment (the "**Relevant Payment Date**") of any amount in respect of any N&C Security or Coupon is not a Payment Day, the holder thereof will instead be entitled to payment on the relevant day determined in accordance with the relevant Payment Day Convention as set out below and will not be entitled to any further interest or other payment in respect of any delay.

Where:

- (a) the Payment Day Convention is specified as "Following" in the applicable Issue Terms, or where no Payment Day Convention is specified in the applicable Issue Terms, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place;
- (b) the Payment Day Convention is specified as "Modified Following" in the applicable Issue Terms, the holder thereof shall not be entitled to payment until the next day which is a Payment Day unless such day falls in the next calendar month, in which event such holder shall be entitled to payment on the Payment Day immediately preceding the Relevant Payment Date (the "**Adjusted Date for Payment**"); and
- (c) the Payment Day Convention is specified as "Preceding" in the applicable Issue Terms, the holder thereof shall be entitled to payment on the Payment Day immediately preceding the Relevant Payment Date (the "**Adjusted Date for Payment**"),

Provided that, in the event that any day upon which a valuation or determination is required to be made for the purposes of determining the amount of the payment to be made in respect of the Relevant Payment Date (each such date a "**Relevant Valuation Date**") would, as a result of the adjustment anticipated in paragraph (b) or (c) above, fall after the second Business Day preceding the Adjusted Date for Payment, N&C Securityholders will not be entitled to the relevant payment due in respect of the Relevant Payment Date until the day falling two (2) Business Days following the last occurring Relevant Valuation Date.

"**Payment Day**" means any day which (subject to N&C Security Condition 8 (Prescription)):

- (i) is a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (a) in the case of N&C Securities in definitive form only, the relevant place of presentation; and

General Terms and Conditions of the N&C Securities

- (b) each Additional Financial Centre specified in the applicable Issue Terms; and
- (ii) either (A) in relation to any sum payable in a relevant currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of each such relevant currency (which if the relevant currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (B) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

5.7 Interpretation of principal

Any reference in the Conditions to principal in respect of the N&C Securities shall be deemed to include, as applicable:

- (A) the Final Redemption Amount of the N&C Securities;
- (B) the Early Redemption Amount of the N&C Securities; and
- (C) the Optional Redemption Amount(s) (if any) of the N&C Securities.

5.8 Rounding Convention

For the purposes of calculations made pursuant to N&C Security Condition 4.2 (Interest on Fixed Rate N&C Securities), N&C Security Condition 4.3 (Interest on Floating Rate N&C Securities and Variable Interest Rate N&C Securities), and N&C Security Condition 6 (Redemption and Purchase) any figure to be rounded will, if other than a sub-unit in the relevant Specified Currency:

- (A) if "Rounded Up" is specified in the applicable Issue Terms, be rounded upwards to the next sub-unit of the relevant Specified Currency,
- (B) if "Rounded Down" is specified in the applicable Issue Terms, be rounded downwards to the next sub-unit of the relevant Specified Currency; or
- (C) in the event that no Rounding Convention is specified in the applicable Issue Terms be rounded down as if "Rounded Down" had been specified,

provided that, in each case, the Calculation Amount in respect of N&C Securities which are (i) held by the same N&C Securityholder, (ii) of the same Series and (iii) in definitive form, shall be aggregated for the purpose of determining the aggregate amount (a) of interest due in respect of any Interest Payment Date or (b) payable in respect of principal due (including for the avoidance of doubt the Final Redemption Amount).

5.9 Sub-units

In these Conditions, "**sub-unit**" means, with respect to any currency other than the euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to the euro, one cent.

6. REDEMPTION AND PURCHASE

6.1 Redemption at maturity

- (a) Unless previously redeemed or purchased and cancelled as specified below, each N&C Security will be redeemed by the Issuer at its Final Redemption Amount in the relevant Specified Currency, on the Maturity Date (each as specified in the applicable Final Terms).

General Terms and Conditions of the N&C Securities

- (b) The "**Final Redemption Amount**" in respect of each nominal amount of the N&C Securities equal to the Calculation Amount shall be an amount rounded in accordance with N&C Security Condition 5.8 above in the Specified Currency calculated by the Calculation Agent equal to:

$$\text{Calculation Amount} \times \frac{\text{Preference Share Value}_{\text{final}}}{\text{Preference Share Value}_{\text{initial}}}$$

Where:

"**Company**" means Santander UK (Structured Solutions) Limited;

"**Final Reference Date**" means the number of Business Days specified in the applicable Issue Terms following the Preference Share Valuation Date;

"**Initial Reference Date**" has the meaning specified in the applicable Issue Terms;

"**Preference Shares**" means the series of redeemable preference shares of the Company specified in the applicable Issue Terms;

"**Preference Share Valuation Date**" means:

- (a) the date so specified in the relevant Issue Terms, or,
- (b) if the Preference Shares become subject to redemption due to a related financial product being subject to early redemption, the date scheduled for valuation of the underlying asset(s) or reference basis(es) for the Preference Shares; or
- (c) if any date(s) for valuation of the underlying asset(s) or reference basis(es) (or any part thereof) for the Preference Shares falling on or about such day described in (a) or (b) above, as the case may be, is or is to be delayed in accordance with the terms and conditions of the Preference Shares by reason of a disruption or adjustment event, the Preference Share Valuation Date will be such delayed valuation or determination date(s) (or, if the relevant Preference Shares have more than one underlying asset or reference basis, the last occurring of such delayed valuation or determination date(s) if there is more than one delayed valuation date or delayed determination date),

in each case, as determined by the Calculation Agent;

"**Preference Share Value**" means, in respect of any day, the fair market value per Preference Share at the Valuation Time on that day as determined by the Calculation Agent using its internal models and methodologies by reference to such factors as the Calculation Agent considers to be appropriate including, but not limited to, (a) interest rates, index levels, implied volatilities in the option markets and exchange rates; (b) the remaining life of the Preference Share had they not been redeemed until the Final Preference Share Valuation Date; (c) the value at the relevant time of any redemption amount which would have been applicable had the Preference Share remained outstanding to the Final Preference Share Redemption Date and/or any Early Preference Share Redemption Date; and (d) prices at which other market participants might bid for shares similar to the Preference Shares;

"**Preference Share Value_{final}**" means the Preference Share Value on the Final Reference Date;

"**Preference Share Value_{initial}**" means the Preference Share Value on the Initial Reference Date, and

"**Valuation Time**" means the time specified as such in the Issue Terms,

all as determined by the Calculation Agent.

6.2 Redemption at the option of the Issuer (Issuer Call)

This N&C Security Condition 6.2 applies to N&C Securities which are subject to redemption prior to the Maturity Date at the option of the Issuer (other than for taxation reasons), such option being referred to as an "Issuer Call". The applicable Issue Terms completes provisions applicable to any Issuer Call and must be read in conjunction with this N&C Security Condition 6.2 for full information on any Issuer Call. In particular, the applicable Issue Terms will identify the Optional Preference Share Redemption Valuation Date.

If Issuer Call is specified as being applicable in the applicable Issue Terms, the Issuer may, having given (i) not less than 5 Business Days' notice to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices) and (ii) not less than 15 days before the giving of the notice referred to in part (i) of this paragraph, notice to the Principal Paying Agent and, in the case of a redemption of Definitive Registered N&C Securities, the Registrar (which notices will be irrevocable and will specify the date fixed for redemption), redeem all but not some only of the N&C Securities then outstanding on any Optional Redemption Date and at the Optional Redemption Amount.

For the purposes of these Conditions:

 - (B) provided that this Equity Index Linked Condition 7(a)(ii)(B) is specified as applicable in the applicable Issue Terms, redeem all, but not some only, of the N&C Securities by giving not less than 5 Business Days' notice to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices). "Averaging Date" means each date specified as an Averaging Date in the applicable Issue Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless such day is a Disrupted Day. If any such day is a Disrupted Day, then:

- (a) if **"Omission"** is specified as applying in the applicable Issue Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant Index Level provided that, if through the operation of this provision no Averaging Date would occur, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant level, price or amount on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if **"Postponement"** is specified as applying in the applicable Issue Terms, then the provisions of the definition of "Valuation Date" will apply for the purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if **"Modified Postponement"** is specified as applying in the applicable Issue Terms then:
 - (i) where the N&C Securities relate to a single Index, the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (a)(ii) of the definition of "Valuation Date" below;

If the first succeeding Valid Date in relation to such Index has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date) in respect of such Index, and (B) the Calculation Agent shall determine the relevant level, price or amount for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of "Valuation Date" below; and

estimate of the value for the relevant security or asset, as applicable, as of the Valuation Time on that eighth Scheduled Trading Day); or

- (b) in the case of N&C Securities relating to a basket of assets, the Valuation Date for each Index, not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Index, affected (each an "**Affected Item**") by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Item unless each of the number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the Scheduled Valuation Date is a Disrupted Day relating to the Affected Item. In that case, (i) the last such consecutive Scheduled Trading Day shall be deemed to be the Valuation Date for the Affected Item, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine the Index Level using, in relation to the Affected Item, the level or price of that Index as of the Valuation Time on the last such consecutive Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the last such consecutive Scheduled Trading Day of each security or asset comprised in that Index, as applicable (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security or asset, as applicable, on the last such consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant security or asset, as applicable, as of the Valuation Time on that eighth Scheduled Trading Day).

"Valuation Time" means the Relevant Time specified in the applicable Issue Terms or if not so specified:

- (a) in the case of a Composite Index, in respect of such Index: (i) for the purposes of determining whether a Market Disruption Event has occurred: (A) in respect of any Component Security, for the purposes of determining an Opening Level, the Scheduled Opening Time or, for the purposes of determining a Closing Level, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (B) in respect of any options contracts or futures contracts on the Index, for purposes of determining an Opening Level, the open of trading or, for purposes of determining a Closing Level, the close of trading on the Related Exchange; and (ii) in all other circumstances, the time at which the relevant Index Level is calculated and published by the Index Sponsor or quoted on the relevant Exchange; and
- (b) in the case of any Non-Composite Index, (i) for the purposes of determining an Opening Level, the Scheduled Opening Time or, for the purposes of determining a Closing Level, the Scheduled Closing Time on the Exchange on the relevant date. If the Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time and (ii) in all other circumstances, the time at which the relevant Index Level is calculated and published by the Index Sponsor or quoted on the relevant Exchange.

INFLATION INDEX ANNEX

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION INDEX LINKED INTEREST N&C SECURITIES

The terms and conditions applicable to Inflation Index Linked Interest N&C Securities shall comprise the General Terms and Conditions of the N&C Securities (the "N&C Security Conditions") and the additional Terms and Conditions set out below (the "Inflation Index Linked Conditions") and the Inflation Index Linked Conditions, together with the Terms and Conditions as set out in each other Annex which is specified as applicable in the applicable Issue Terms (together with the N&C Security Conditions and the Inflation Index Linked Conditions, the "Conditions") and, subject to completion in the applicable Issue Terms. In the event of any inconsistency between the N&C Security Conditions and the Inflation Index Linked Conditions, the Inflation Index Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the N&C Security Conditions and/or the Inflation Index Linked Conditions and (ii) the Issue Terms, the Issue Terms shall prevail.

References below to a numbered N&C Security Condition are to such numbered section of the N&C Security Conditions and references to a numbered Inflation Index Linked Condition are to such numbered section as set out in this Inflation Index Annex. Defined terms used in this Inflation Index Annex or the related section of the Issue Terms where the same term may be used in another Annex (e.g. Determination Date, Hedging Party, Final Valuation Date or Averaging Date) shall have the meanings given in this Inflation Index Annex or in the section of the Issue Terms relating to Inflation Index Linked Interest N&C Securities notwithstanding the same terms being used in another Annex or section of the Issue Terms.

1. INFLATION INDEX LINKED INTEREST N&C SECURITIES

Unless previously redeemed or purchased and cancelled in accordance with the N&C Security Conditions and subject to these Inflation Index Linked Conditions, each Inflation Index Linked Interest N&C Security will bear interest in the manner specified in the applicable Issue Terms and the Conditions.

2. KEY DATES AND BASKETS

(a) Key Dates

The applicable Issue Terms may specify a number of key dates (each a "Key Date") in respect of which an Inflation Index valuation is to be made. For each Key Date the relevant Reference Month, Determination Date(s), Inflation Cut-Off Date and, where applicable, End Date will be specified. The Calculation Agent will apply the provision of these Inflation Index Linked Conditions separately in each case to make the relevant Inflation Index valuation in relation to each Key Date accordingly. Each such Inflation Index level determined will be deemed to be an Observation Level, as specified in the applicable Issue Terms.

(b) Baskets

The applicable Issue Terms may specify that the N&C Securities relate to a single asset or a basket of assets. These Inflation Index Linked Conditions will apply to valuation and determinations in relation to each Inflation Index which forms the single asset or a constituent of the basket of assets referred to above.

3. INFLATION INDEX DELAY AND DISRUPTION PROVISIONS

(a) Delay in Publication

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Inflation Index has occurred with respect to any Determination Date, then the Relevant Level for such Inflation Index

Inflation Index Annex

with respect to the relevant Reference Month subject to such Delayed Index Level Event (the "**Substitute Index Level**") shall be determined by the Calculation Agent as follows:

- (i) if "Related Bond" is specified as applicable for such Inflation Index in the relevant Issue Terms, the Calculation Agent shall determine the Substitute Index Level by reference to the corresponding index level determined under the terms and conditions of the relevant Related Bond; or
- (ii) if (I) "Related Bond" is not specified as applicable for such Inflation Index in the relevant Issue Terms, or (II) the Calculation Agent is not able to determine a Substitute Index Level under (i) above, the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

$$\text{Substitute Index Level} = \text{Base Level} \times \left(\frac{\text{Latest Level}}{\text{Reference Level}} \right),$$

in each case as of such Determination Date,

where:

"Base Level" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

"Latest Level" means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

"Reference Level" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall give notice to N&C Securityholders, in accordance with N&C Security Condition 13 (Notices) of any Substitute Index Level calculated pursuant to this Inflation Index Linked Condition 3.

If the Relevant Level (as defined below) is published or announced at any time on or after the relevant Inflation Cut-off Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Inflation Index Linked Condition 3 will be the definitive level for that Reference Month.

(b) Cessation of Publication

If the Calculation Agent determines that the level for the Inflation Index has not been published or announced for two (2) consecutive months, the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index or the Inflation Index Sponsor otherwise cancels the Inflation Index, then the Calculation Agent shall determine a successor inflation index (the "**Successor Inflation Index**") (in lieu of any previously applicable Inflation Index) for the purposes of the Inflation Index Linked Interest N&C Securities by using the following methodology:

- (i) if at any time (other than after an early cancellation event has been designated by the Calculation Agent pursuant to Inflation Index Linked Condition 3(b)(v) below), a successor inflation index has been designated by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, such successor inflation index shall be designated a "Successor Inflation Index" notwithstanding that any other Successor Inflation Index may

Inflation Index Annex

previously have been determined under Inflation Index Linked Conditions 3(b)(ii), 3(b)(iii) or 3(b)(iv) below;

- (ii) if a Successor Inflation Index has not been determined pursuant to Inflation Index Linked Condition 3(b)(i) above, and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement Inflation Index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Inflation Index Linked Interest N&C Securities from the date that such replacement Inflation Index comes into effect;
- (iii) if a Successor Inflation Index has not been determined pursuant to Inflation Index Linked Conditions 3(b)(i) or 3(b)(ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If four or five responses are received and, of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If three responses are received and two or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If fewer than three responses are received or no Successor Inflation Index is determined pursuant to this Inflation Index Linked Condition 3(b)(iii), the Calculation Agent will proceed to Inflation Index Linked Condition 3(b)(iv) below;
- (iv) if no replacement index or Successor Inflation Index has been determined under Inflation Index Linked Conditions 3(b)(i), 3(b)(ii) or 3(b)(iii) above by the next occurring Inflation Cut-Off Date, the Calculation Agent, subject as provided below, will determine an appropriate alternative index from such Inflation Cut-Off Date, and such index will be deemed a "Successor Inflation Index"; or
- (v) if the Calculation Agent determines that there is no appropriate alternative index in relation to Inflation Index Linked Interest N&C Securities, the Issuer acting in good faith and in a commercially reasonable manner discretion may either (1) require the Calculation Agent to determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to the terms of the N&C Securities (only to the extent such terms are relevant to the determination of an interest amount (but not, for the avoidance of doubt, any terms relating to the redemption of the N&C Securities)) to account for this event or (2) on giving not less than 5 Business Days' notice to N&C Securityholders in accordance with N&C Security Condition 13 (Notices) the Issuer shall redeem all, but not some only, of the Inflation Index Linked Interest N&C Securities, each Inflation Index Linked Interest N&C Security being redeemed by payment of the Early Redemption Amount. Payments will be made in such manner as shall be notified to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices).

(c) **Rebasing of the Inflation Index**

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of the Inflation Index from the date of such rebasing; provided, however, that the Calculation Agent shall make adjustments as are made by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, if "Related Bond" is specified as applicable in the applicable Issue Terms, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased, or, if "Related Bond" is not specified as applicable in the applicable Issue Terms, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it

Inflation Index Annex

was rebased provided that adjustment will only be made to the interest provisions and the Calculation Agent may not adjust the provisions relating to the redemption of the N&C Security.

(d) **Material Modification Prior to Last Occurring Inflation Cut-Off**

If, on or prior to the last occurring Inflation Cut-Off Date, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index then the Calculation Agent shall make any such adjustments, if "Related Bond" is specified as applicable in the applicable Issue Terms, consistent with adjustments made to the Related Bond, or, if "Related Bond" is not specified as applicable in the applicable Issue Terms, only those adjustments to the Inflation Index necessary for the modified Inflation Index to continue as the Inflation Index.

(e) **Manifest Error in Publication**

To the extent that it has sufficient time and it is reasonable to do so prior to the relevant Interest Payment Date if, within thirty (30) calendar days of publication, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may, in its discretion, make such adjustments to the terms of the Inflation Index Linked Interest N&C Securities as it determines appropriate to account for the correction and will notify the N&C Securityholders of any such adjustments in accordance with N&C Security Condition 13 (Notices) provided that adjustment will only be made to the interest provisions and the Calculation Agent may not adjust the provisions relating to the redemption of the N&C Security.

4. ADDITIONAL DISRUPTION EVENTS

"**Additional Disruption Event**" means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging in each case if specified as applying to Inflation Index Linked Interest N&C Securities in the applicable Issue Terms.

- (a) If an Additional Disruption Event occurs, the Issuer acting in good faith and in a commercially reasonable manner may either:
- (i) require the Calculation Agent to determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to any of the terms of the N&C Securities (only to the extent such terms are relevant to the determination of an interest amount (but not, for the avoidance of doubt, any terms relating to the redemption of the N&C Securities)) to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) redeem all, but not some only, of the N&C Securities by giving not less than 5 Business Days' notice to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices). If the N&C Securities are so redeemed the Issuer will pay each N&C Securityholder the Early Redemption Amount in respect of each N&C Security held by him. Payments will be made in such manner as will be notified to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices).
- (b) Upon the occurrence of an Additional Disruption Event, the Issuer will give notice as soon as practicable to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices) stating the occurrence of the Additional Disruption Event (including giving details thereof) and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event or the proposed action.

5. INFLATION INDEX DISCLAIMER

The N&C Securities are not sponsored, endorsed, sold or promoted by the Inflation Index or the Inflation Index Sponsor and the Inflation Index Sponsor does not make any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Inflation Index and/or the levels at which the Inflation Index stands at any particular time on any particular date or otherwise. Neither the Inflation Index nor the Inflation Index Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in the Inflation Index and the Inflation Index Sponsor is under no obligation to advise any person of any error therein. The Inflation Index Sponsor is not making any representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with the N&C Securities. The Issuer shall not have any liability to the N&C Securityholders for any act or failure to act by the Inflation Index Sponsor in connection with the calculation, adjustment or maintenance of the Inflation Index. Neither the Issuer nor its Affiliates has any affiliation with or control over the Inflation Index or the Inflation Index Sponsor or any control over the computation, composition or dissemination of the Inflation Index. Although the Calculation Agent will obtain information concerning the Inflation Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility is accepted by the Issuer, its Affiliates or the Calculation Agent as to the accuracy, completeness and timeliness of information concerning the Inflation Index.

6. DEFINITIONS

For the purpose of the Inflation Index Linked Interest N&C Securities:

"Change in Law" means that, on or after the Trade Date (as specified in the applicable Issue Terms):

- (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or
- (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority),

the Calculation Agent determines acting in good faith and in a commercially reasonable manner that (i) it has become illegal for any Hedging Party to hold, acquire or dispose of any relevant hedging arrangements in respect of the Inflation Index, and/or (ii) any Hedging Party will incur a materially increased cost in performing its obligations in relation to the N&C Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer, any of its Affiliates or any other Hedging Party).

"Delayed Index Level Event" means, in respect of any Determination Date and an Inflation Index, that the relevant Inflation Index Sponsor fails to publish or announce the level of such Inflation Index (the **"Relevant Level"**) in respect of any Reference Month which is to be utilised in any calculation or determination to be made by the Issuer in respect of such Determination Date, at any time on or prior to the Inflation Cut-Off Date.

"Determination Date" means each date specified as such in the applicable Issue Terms.

"End Date" means each date specified as such in the applicable Issue Terms.

"Fallback Bond" means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the relevant Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a maturity date which falls on (a) the End Date specified in the applicable Issue Terms, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-

Inflation Index Annex

linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but notwithstanding the immediately prior sentence, selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

"Hedging Disruption" means that any Hedging Party is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk, including but not limited to currency risk, of the Issuer issuing and performing its obligations with respect to the N&C Securities, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s), as determined by the Calculation Agent.

"Hedging Party" means, at any relevant time, the Issuer, or any of its Affiliates or any entity (or entities) providing the Issuer directly or indirectly with hedging arrangements in relation to the N&C Securities as the Issuer may select at such time.

"Increased Cost of Hedging" means that any Hedging Party would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, inflation price risk, foreign exchange risk and interest rate risk) of the Issuer issuing and performing its obligations with respect to the N&C Securities, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

"Inflation Cut-Off Date" means, in respect of a Determination Date, five (5) Business Days prior to any due date or scheduled date for payment under the N&C Securities for which valuation on the relevant Determination Date is relevant, unless otherwise stated in the applicable Issue Terms.

"Inflation Index" means each inflation index specified in the applicable Issue Terms and related expressions shall be construed accordingly.

"Inflation Index Sponsor" means, in relation to an Inflation Index, the entity that publishes or announces (directly or through an agent) the level of such Inflation Index which, as of the Issue Date, is the Inflation Index Sponsor specified in the applicable Issue Terms.

"Observation Level" means any of the following levels, each as specified in the applicable Issue Terms: (a) the lowest level of the Inflation Index observed by the Calculation Agent on the Scheduled Observation Dates, (b) the highest level of the Inflation Index observed by the Calculation Agent on the Scheduled Observation Dates, or (c) the level of the Inflation Index observed by the Calculation Agent on the relevant Scheduled Observation Date as specified in the applicable Issue Terms.

"Reference Month" means the calendar month for which the level of the Inflation Index is reported as specified in the applicable Issue Terms, regardless of when this information is published or announced; except that if the period for which the Relevant Level was reported is a period other than a month, the Reference Month shall be the period for which the Relevant Level is reported.

"Related Bond" means, in respect of an Inflation Index, the bond specified as such in the applicable Issue Terms. If the Related Bond specified in the applicable Issue Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Issue Terms as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Issue Terms, there will be no Related Bond. If a bond is specified as the Related Bond in the applicable Issue Terms and that bond redeems or matures before the End Date (i) unless "Fallback Bond: Not Applicable" is specified in the

Inflation Index Annex

applicable Issue Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination and (ii) if "Fallback Bond: Not Applicable" is specified in the applicable Issue Terms, there will be no Related Bond.

"Relevant Level" has the meaning set out in the definition of "Delayed Index Level Event" above.

Whilst technically not a requirement for admission to trading, market operators are required to provide CFI and FISN codes to competent authorities/ESMA as part of their reference data/financial instrument reporting under various pieces of legislation (such as MiFIR and MAR) and it is likely that stock exchanges will request these when the Final Terms are filed with them to admit a tranche of securities to market. "Not Applicable" should be specified where the Final Terms relates to an unlisted but Non-exempt Offer or the codes are not otherwise required and the "Not Available" option has been inserted as CFI and FISN codes may not always be available. The reference to the ANNA website (without the actual code) may be relevant if the parties are not sure that the code is correct or if a code has not been requested.

(the "**Programme**")

The Base Prospectus referred to below (as completed by this Pricing Supplement) has been prepared on the basis that any offer of N&C Securities in any Member State of the European Economic Area or the United Kingdom will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of the N&C Securities. Accordingly, any person making or intending to make an offer in that relevant Member State or in the United Kingdom of the N&C Securities may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or to supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of N&C Securities in any other circumstances.

The expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

PART A – CONTRACTUAL TERMS

This document constitutes the Pricing Supplement for the N&C Securities described herein. This document must be read in conjunction with the Base Prospectus dated 20 March 2020 [as supplemented by the supplement[s] dated [●]] (the "**Base Prospectus**"). Full information on the Issuer and the offer of the N&C Securities is only available on the basis of the combination of this Pricing Supplement and the Base Prospectus. The Base Prospectus has been published on the website of Euronext Dublin (www.ise.ie) and the Issuer's website ([insert link]). [The Base Prospectus is also available for viewing during normal business hours at the specified office of Citibank, N.A., London Branch acting as Principal Paying Agent and copies may be obtained from the registered office of the Issuer.] In the event of any inconsistency between the Conditions and the Pricing Supplement, this Pricing Supplement will prevail.

Terms used herein shall be deemed to be defined as such for the purposes of the General Terms and Conditions of the N&C Securities (the "**N&C Security Conditions**" and, together with the applicable Annex(es) the "**Conditions**") set forth in the Base Prospectus. The N&C Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or under any state securities laws, and the N&C Securities may not be offered, sold, transferred, pledged, delivered, redeemed, directly or indirectly, at any time within the United States or to, or for the account or benefit of, or by, any U.S. Person (as defined below). Furthermore, the N&C Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the U.S. Commodity Exchange Act, as amended (the "**CEA**"), and trading in the N&C Securities has not been approved by the U.S. Commodity Futures Trading Commission (the "**CFTC**") pursuant to the CEA, and no U.S. Person may at any time trade or maintain a position in the N&C Securities. For a description of the restrictions on offers and sales of N&C Securities, see "*Important Notice to Purchasers and Transferees of N&C Securities*" and "*Subscription and Sale*" in the Base Prospectus.

For the purposes of this Pricing Supplement, "U.S. Person" means (i) a "U.S. person" as defined in Regulation S under the Securities Act ("**Regulation S**"), (ii) a person who comes within any definition of U.S. person for the purposes of the United States Commodity Exchange Act of 1936, as amended ("**CEA**") (including but not limited to a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the Commodity Futures Trading Commission (the "**CFTC**") pursuant to the CEA and a person other than a "Non-United States person" as defined in CFTC Rule 4.7(a)(1)(iv) excluding for the purposes of CFTC Rule 4.7(a)(1)(iv)(D) the exception for qualified eligible persons who are not "United States persons"), or (iii) a "United States person" as defined in the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder, in each case, as such definition may be amended, modified or supplemented from time to time (each such person, a "**U.S. Person**").

[Include whichever of the following apply or specify as "Not Applicable". Note that the numbering should remain as set out below, even if "Not Applicable" is indicated for individual paragraphs or sub-paragraphs (in which case the sub-paragraphs of the paragraphs which are not applicable can be deleted). Italics denote guidance for completing the Pricing Supplement.]

Whilst technically not a requirement for admission to trading, market operators are required to provide CFI and FISN codes to competent authorities/ESMA as part of their reference data/financial instrument reporting under various pieces of legislation (such as MiFIR and MAR) and it is likely that stock exchanges will request these when the Final Terms are filed with them to admit a tranche of securities to market. "Not Applicable" should be specified where the Final Terms relates to an unlisted but Non-exempt Offer or the codes are not otherwise required and the "Not Available" option has been inserted as CFI and FISN codes may not always be available. The reference to the ANNA website (without the actual code) may be relevant if the parties are not sure that the code is correct or if a code has not been requested.

FORM OF THE N&C SECURITIES

Words and expressions defined in the "Terms and Conditions of the N&C Securities" shall have the same meanings in this Form of the N&C Securities.

Form of the N&C Securities

Other than in the case of Book-Entry Interests, CDIs (each as defined below) and Definitive Registered N&C Securities, the N&C Securities of each Series will initially be represented by a global security in bearer form, with or without interest coupons attached. In addition, interests in N&C Securities may only be offered and sold in offshore transactions in reliance on Regulation S under the Securities Act ("**Regulation S**") outside the United States to non-U.S. Persons and may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. Person and may not be legally or beneficially owned at any time by any U.S. Person. Any offer, sale, resale, trade, pledge, redemption, transfer or delivery of an interest in an N&C Security made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised. Interests in N&C Securities may not be legally or beneficially owned at any time by any U.S. Person and accordingly may only be offered and sold outside the United States to non-U.S. Persons in reliance on Regulation S.

Bearer N&C Securities

Each Tranche of Bearer N&C Securities will be initially represented by either a temporary bearer global N&C Security (a "**Temporary Bearer Global N&C Security**") or a permanent bearer global N&C Security (a "**Permanent Bearer Global N&C Security**") and, together with the Temporary Bearer Global N&C Security, the "**Bearer Global N&C Securities**") as indicated in the applicable Issue Terms of the N&C Securities, which, in either case, will:

- (i) if the Bearer Global N&C Securities are intended to be issued in new global note ("**NGN**") form, as stated in the applicable Issue Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking S.A. ("**Clearstream, Luxembourg**"); or
- (ii) if the Bearer Global N&C Securities are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depository (the "**Common Depository**") for Euroclear and Clearstream, Luxembourg, as the case may be.

Where the Global N&C Securities issued in respect of any Tranche are in NGN form, the applicable Issue Terms will also indicate whether such Global N&C Securities are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global N&C Securities are to be so held does not necessarily mean that the N&C Securities of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg, as indicated in the applicable Issue Terms.

In the case of each Tranche of N&C Securities in bearer form the relevant Issue Terms will specify whether U.S. Treasury Regulation § 1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) ("**TEFRA C**") or U.S. Treasury Regulation § 1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) ("**TEFRA D**") apply in relation to the N&C Securities, or if the N&C Securities do not have a maturity of more than one year, that TEFRA does not apply.

Whilst any Bearer N&C Security is represented by a Temporary Bearer Global N&C Security, payments of principal, interest (if any) and any other amount payable in respect of the N&C Securities due prior to the Exchange Date (as defined

Form of the N&C Securities

below) will be made against presentation of the Temporary Bearer Global N&C Security (if the Temporary Bearer Global N&C Security is not intended to be issued in NGN form) only to the extent that certification to the effect that the beneficial owners of interests in such Bearer N&C Security are not U.S. Persons or persons who have purchased for resale to any U.S. Person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent. If a Permanent Bearer Global N&C Security is issued directly (rather than exchanged from a Temporary Bearer Global N&C Security), then that issuance must, on the earlier of the date of the first payment of interest by the issuer or the date of delivery by the issuer of the obligation in definitive form, comply with the same certification requirements as a Temporary Bearer Global N&C Security, described above.

In respect of each Tranche of N&C Securities in respect of which a Temporary Bearer Global N&C Security is issued, on and after the date (the "**Exchange Date**") which is 40 days after the Temporary Bearer Global N&C Security is issued, interests in such Temporary Bearer Global N&C Security will be exchangeable (free of charge) upon a request as described therein for either:

- (i) interests in a Permanent Bearer Global N&C Security of the same Series; or
- (ii) Definitive Bearer N&C Securities (as defined in the General Terms and Conditions of the N&C Securities) of the same Series (as defined in the General Terms and Conditions of the N&C Securities) with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Issue Terms and subject, in the case of Definitive Bearer N&C Securities, to such notice period as is specified in the applicable Issue Terms).

In each case such exchange shall be made against certification of non-U.S. beneficial ownership as described above, unless such certification has already been given. Purchasers in the United States and certain U.S. Persons will not be able to receive Definitive Bearer N&C Securities or interests in a Permanent Bearer Global N&C Security. The holder of a Temporary Bearer Global N&C Security will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due presentation and certification, exchange of the Temporary Bearer Global N&C Security for an interest in a Permanent Bearer Global N&C Security or for Definitive Bearer N&C Securities is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global N&C Security will be made through Euroclear and/or Clearstream, Luxembourg, as applicable, against presentation or surrender (as the case may be) of the Permanent Bearer Global N&C Security (if the Permanent Bearer Global N&C Security is not intended to be issued in NGN form) without any requirement for certification.

The applicable Issue Terms will specify that a Permanent Bearer Global N&C Security will be exchangeable (free of charge), in whole but not in part, for Definitive Bearer N&C Securities with, where applicable, receipts, interest coupons and talons attached upon either:

- (1) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg, as applicable, (acting on the instructions of any holder of an interest in such Permanent Bearer Global N&C Security) to the Principal Paying Agent, or
- (2) only upon the occurrence of an Exchange Event (as defined below).

No Definitive Bearer N&C Securities will be sent by post or otherwise delivered to any location in the United States or its possessions in connection with such exchange.

For these purposes, "**Exchange Event**" means that:

- (1) an Event of Default (as defined in N&C Security Condition 9 (Events of Default)) has occurred and is continuing;
- (2) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an

Form of the N&C Securities

intention permanently to cease business or have in fact done so and, in any such case, no alternative clearing system satisfactory to the Issuer and the Principal Paying Agent is available; or

- (3) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the N&C Securities represented by the Permanent Bearer Global N&C Security in definitive form.

The Issuer will promptly give notice to the N&C Securityholders in accordance with N&C Security Condition 13 (Notices) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg, as the case may be, (acting on the instructions of any holder of an interest in such Permanent Bearer Global N&C Security) may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (3) above, the Issuer may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Global N&C Securities (other than Immobilised Bearer N&C Securities or Temporary Global N&C Securities), talons and interest coupons relating to such N&C Securities where TEFRA D is specified in the applicable Final Terms or Pricing Supplement, as the case may be:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

N&C Securities which are represented by a Bearer Global N&C Security will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

If a Global Bearer N&C Security is exchangeable for a Definitive Bearer N&C Security at the option of the N&C Securityholders, the N&C Securities shall be tradeable only in principal amounts of at least the Specified Denomination (as defined in the General Terms and Conditions of the N&C Securities) (or if more than one Specified Denomination, the lowest Specified Denomination).

Immobilised Bearer N&C Securities

Interests in N&C Securities to be issued as bearer securities in immobilised form ("**Immobilised Bearer N&C Securities**") of certain issues that may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person will initially be represented by a global security in bearer form (a "**Permanently Restricted Global N&C Security**" or an "**Immobilised Bearer Global N&C Security**"). Any offer, sale, resale, trade, pledge, redemption, transfer or delivery of an interest in a Permanently Restricted Global N&C Security made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised. Interests in Permanently Restricted Global N&C Securities may not be legally or beneficially owned at any time by any U.S. Person and accordingly may only be offered and sold outside the United States to non-U.S. Persons in reliance on Regulation S. Interests in a Permanently Restricted Global N&C Security may not be held otherwise than through Euroclear or Clearstream, Luxembourg, and such Permanently Restricted Global N&C Securities will bear a legend regarding such restrictions on transfer.

The Immobilised Bearer Global N&C Securities will initially be issued in bearer form, without interest coupons, and title thereto will pass by delivery. Pursuant to an N&C securities depositary agreement (such agreement as amended and/or supplemented and/or restated from time to time, the "**N&C Securities Depositary Agreement**") dated on or about the date of this Base Prospectus between the Issuer, Citibank, N.A., London Branch (the "**Book-Entry Depositary**"), Citibank, N.A., London Branch (the "**Custodian**") and Citigroup Global Markets Europe AG (the "**Registrar**"), the Immobilised Bearer Global N&C Securities of each Series will on issue be deposited with the Book-Entry Depositary and held by the Custodian on behalf of the Book-Entry Depositary. If any N&C Securities are issued as Immobilised Bearer Global N&C Securities, then the entire Series of which they form part will be issued as Immobilised Bearer Global N&C Securities.

Form of the N&C Securities

In respect of Immobilised Bearer Global N&C Securities to be settled through Euroclear and/or Clearstream, Luxembourg ("**Permanently Restricted Immobilised Bearer Global N&C Securities**") which are deposited with the Book-Entry Depositary, the Book-Entry Depositary will issue registered certificated depositary interests ("**CDIs**") to a common depositary for Euroclear and Clearstream, Luxembourg, or its nominee, and will record the CDIs in the books and records of the Registrar in the name of the common depositary or its nominee, as applicable. Ownership of interests in the Permanently Restricted Immobilised Bearer Global N&C Securities deposited with the Book-Entry Depositary (the "**Book-Entry Interests**") will be limited to persons with an account with Euroclear and/or Clearstream, Luxembourg or persons who may hold interests through such participants. Book-Entry Interests will be shown on, and transfers thereof will be affected only through records maintained in book-entry form by Euroclear and/or Clearstream, Luxembourg and their participants.

Subject as set out below, the Book-Entry Interests will not be held in definitive form. Instead, Euroclear and/or Clearstream, Luxembourg (as applicable) will credit on their respective book-entry registration and transfer systems a participant's account with the interest beneficially owned by such participant. The laws of some jurisdictions, including certain states of the United States, may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge Book-Entry Interests. In addition, while the Immobilised Bearer N&C Securities are in global form, holders of Book-Entry Interests will not be considered the owners or holders of such N&C Securities for any purpose.

Interests in an Immobilised Bearer Global N&C Security will be exchangeable (free of charge), in whole but not in part, for N&C Securities in definitive registered form without interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means:

- (i) an Event of Default has occurred and is continuing;
- (ii) in the case of Immobilised Bearer N&C Securities registered in the name of a nominee for a common depositary for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that (x) either Euroclear or Clearstream, Luxembourg is unwilling or unable to continue to act as depositary for the N&C Securities and no alternative clearing system is available or (y) both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available;
- (iii) the Book-Entry Depositary is at any time unwilling or unable to continue as Book-Entry Depositary in respect of any Immobilised Bearer N&C Securities or its appointment as such under the N&C Securities Depositary Agreement is (or is to be) terminated and no successor is appointed by the Issuer within 90 days; or
- (iv) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the N&C Securities represented by the Global N&C Security in definitive registered form.

The Issuer will promptly give notice to N&C Securityholders in accordance with N&C Security Condition 13 (Notices) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Immobilised Bearer Global N&C Security) may give notice to the Registrar (or request that the Principal Paying Agent does so) requesting exchange and, in the event of the occurrence of an Exchange Event as described in (v) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

In such an event, the Issuer (or the Registrar on behalf of the Issuer) will exchange the Book-Entry Interests in the relevant Immobilised Bearer Global N&C Security for N&C Securities in definitive form, registered in the name or names and issued in any approved denominations, requested by or on behalf of Euroclear and/or Clearstream, Luxembourg, as applicable (in accordance with their respective customary procedures and based upon directions received from participants reflecting the beneficial ownership of Book-Entry Interests), and which may bear a restrictive legend unless such legending is not required by applicable law.

Form of the N&C Securities

To the extent permitted by law, the Issuer, the Principal Paying Agent and the Registrar shall be entitled to treat the holder of any N&C Security as the absolute owner thereof.

Transfer of Interests

Pursuant to the N&C Securities Depositary Agreement, the Immobilised Bearer Global N&C Securities may be transferred only to a successor to the relevant Book-Entry Depositary.

Unless and until Book-Entry Interests are exchanged for N&C Securities in definitive registered form, the CDIs held for the common depositary for Euroclear and Clearstream, Luxembourg may not be transferred except as a whole to a nominee or a successor approved by the Issuer.

All transfers of Book-Entry Interests between participants in Euroclear or participants in Clearstream, Luxembourg will be effected by Euroclear or Clearstream, Luxembourg, as applicable, pursuant to customary procedures and subject to the applicable rules and procedures established by Euroclear or Clearstream, Luxembourg and their respective participants.

Book-Entry Interests in an Immobilised Bearer Global N&C Security may be exchanged for N&C Securities in definitive registered form upon receipt by the Registrar of instructions from the Principal Paying Agent. It is expected that such instructions of the Principal Paying Agent will be based upon directions received by Euroclear or Clearstream, Luxembourg, as applicable, from the participant which owns the relevant Book-Entry Interests. N&C Securities in a definitive registered form issued in exchange for a Book-Entry Interest will be subject to certain restrictions and will bear the legend provided for in the Agency Agreement and N&C Securities Depositary Agreement.

N&C Securities may not be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person, and any offer, sale, resale, trade, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised.

Immobilised Bearer N&C Securities are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions. See "*Subscription and Sale*".

General

Pursuant to the Agency Agreement (as defined under the General Terms and Conditions of the N&C Securities), the Principal Paying Agent shall arrange that, where a further Tranche of N&C Securities is issued which is intended to form a single Series with an existing Tranche of N&C Securities at a point after the Issue Date of the further Tranche, the N&C Securities of such further Tranche shall be assigned a common code and ISIN and, where applicable, a CUSIP and CINS number which are different from the common code, ISIN, CUSIP and CINS assigned to N&C Securities of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of any applicable period that by law or regulation would require such N&C Securities of such Tranche not to be fungible.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Issue Terms or, in the case of Exempt N&C Securities as may otherwise be approved by the Issuer and the Principal Paying Agent, as the case may be.

An N&C Security may be accelerated by the holder thereof in certain circumstances described in N&C Security Condition 10. In such circumstances, where any N&C Security is still represented by a Global N&C Security and the Global N&C Security (or any part thereof) has become due and repayable in accordance with the General Terms and Conditions of the N&C Securities and payment in full of the amount due has not been made in accordance with the provisions of the Global N&C Security then from 8.00 p.m. (London time) on such day holders of interests in such Global N&C Security credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and/or Clearstream, Luxembourg

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, except in relation to N&C Securities issued in NGN form, be deemed to include a reference to any successor operator and/or successor clearing system and/or any additional or alternative clearing system specified in the applicable Issue Terms.

Any reference herein to the common depositary, depositary or, as applicable, common safekeeper shall, whenever the context so permits, be deemed to include references to any successor common depositary, depositary or, as applicable, common safekeeper or any additional or alternative common depositary, depositary or, as applicable, common safekeeper as is approved by the Issuer and the Principal Paying Agent and the Registrar.

Any reference herein to the nominee or, as applicable, common nominee shall, whenever the context so permits, be deemed to include references to any successor nominee or, as applicable, common nominee or any additional or alternative nominee or, as applicable, common nominee as is approved by the Issuer, the Principal Paying Agent and the Registrar.

The Issuer may agree with any Dealer that N&C Securities may be issued in a form not contemplated by the Conditions, in which event, other than where such N&C Securities are Exempt N&C Securities, a supplement to this base prospectus or a new prospectus or prospectus will be made available which will describe the effect of the agreement reached in relation to such N&C Securities.

Use of Proceeds

USE OF PROCEEDS

The net proceeds from each issue of N&C Securities will be applied by the Issuer for its general corporate purposes. If, in respect of an issue, there is a particular identified use of proceeds, this will be stated in the applicable Issue Terms.

The relevant Paying Agent will, in turn, make such payments to or to the order of the Book-Entry Depositary in its capacity as bearer of the relevant Immobilised Bearer Global N&C Securities. Upon receipt of such amounts, the Book-Entry Depositary will pay the amounts so received to the common depositary for Euroclear and Clearstream, Luxembourg, as applicable, which will distribute payments to participants in accordance with their procedures, as detailed above.

Transfers of any interests in N&C Securities represented by a Global N&C Security or a CDI within Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant Clearance System and, in the case of CDIs, in accordance with the provisions of the N&C Securities Depositary Agreement.

However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Agents or any Dealer will be responsible for any performance by Euroclear or Clearstream, Luxembourg or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the N&C Securities represented by Global N&C Securities in bearer form or for maintaining, supervising or reviewing any records relating to such beneficial interests.

The Issuer will not be responsible for the operation of the clearing arrangements which is a matter for the clearing institutions, their nominees, their participants and the investors.

Euroclear UK & Ireland Limited

Following their delivery into a clearing system, interests in N&C Securities may be delivered, held and settled in Euroclear UK & Ireland Limited (formerly known as CRESTCo Limited) ("**CREST**") by means of the creation of dematerialised depository Interests ("**CREST Depository Interests**") representing the interests in the relevant N&C Securities ("**Underlying Securities**"). Such delivery, holding and settlement is governed, *inter alia*, by the terms of the CREST Manual issued by CREST (as the same may be amended, modified, varied or supplemented from time to time, the "**CREST Manual**"). The CREST Depository Interests will be issued by CREST Depository Limited or any successor thereto (the "**CREST Depository**") to holders of the CREST Depository Interests and will be constituted and governed by English law. CREST International Nominees Limited or another entity appointed to act as nominee in accordance with the CREST Deed Poll (as defined below) (the "**CREST Nominee**") will hold the legal title to the Underlying Securities and the direct enforcement right in respect of the Underlying Securities.

The CREST Depository Interests will represent indirect interests in the interest of the CREST Nominee in the Underlying Securities. Pursuant to the CREST Manual, N&C Securities held in global form by the Common Depositary may be settled through CREST, and the CREST Depository will issue CREST Depository Interests. The CREST Depository Interests will be independent securities which may be held and transferred through CREST.

Interests in the Underlying Securities will be credited to the CREST Nominee's account with Euroclear and the CREST Nominee will hold such interests as nominee for the CREST Depository which will issue CREST Depository Interests to the relevant CREST participants.

Each CREST Depository Interest will be treated by the CREST Depository as if it were one Underlying Security, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to holders of CREST Depository Interests any interest or other amounts received by it as holder of the Underlying Securities on trust for such holder. Holders of CREST Depository Interests will also be able to receive from CREST notices of meetings of holders of Underlying Securities and other relevant notices issued by the Issuer.

Transfers of interests in Underlying Securities by a CREST participant to a participant of Euroclear or Clearstream, Luxembourg will be effected by cancellation of the CREST Depository Interests and transfer of an interest in such N&C Securities underlying the CREST Depository Interests to the account of the relevant participant with Euroclear or

Clearstream, Luxembourg. The CREST Depository Interests will have the same ISIN as the ISIN of the Underlying Securities and will not require a separate listing on the Official List of Euronext Dublin or the Official List of the FCA.

Holders of CREST Depository Interests are referred to Chapter 8 of the CREST International Manual (as contained in the CREST Manual) which contains the form of the CREST Deed Poll to be entered into by the CREST Depository (the "**CREST Deed Poll**"). The rights of the holder of CREST Depository Interests will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the Issuer including the CREST Deed Poll executed by the CREST Depository. These rights may be different from those of holders of N&C Securities which are not represented by CREST Depository Interests.

If issued, CREST Depository Interests will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service (the "**CREST International Settlement Links Service**"). The settlement of the CREST Depository Interests by means of the CREST International Settlement Links Service has the following consequences for holders of CREST Depository Interests:

- (i) holders of CREST Depository Interests will not be the legal owners of the Underlying Securities. The CREST Depository Interests are separate legal instruments from the Underlying Securities to which they relate and represent an indirect interest in such Underlying Securities;
- (ii) the Underlying Securities themselves (as distinct from the CREST Depository Interests representing indirect interests in such Underlying Securities) will be held in an account with a custodian. The custodian will hold the Underlying Securities through a clearing system. Rights in the Underlying Securities will be held through custodial and depository links through the appropriate clearing systems. The legal title to the Underlying Securities or to interests in the Underlying Securities will depend on the rules of the clearing system in or through which the Underlying Securities are held;
- (iii) rights under the Underlying Securities cannot be enforced by holders of CREST Depository Interests except indirectly through the intermediary depositories and custodians described above. The enforcement of rights under the Underlying Securities will therefore be subject to the local law of the relevant intermediary. The rights of holders of CREST Depository Interests to the Underlying Securities are represented by the entitlements against the CREST Depository which (through the CREST Nominee) holds interests in the Underlying Securities. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries;
- (iv) the CREST Depository Interests issued to holders of CREST Depository Interests will be constituted and issued pursuant to the CREST Deed Poll. Holders of CREST Depository Interests will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to, the CREST International Manual and the CREST Rules applicable to the CREST International Settlement Links Service (in each case as contained in the CREST Manual) and such holders must comply in full with all obligations imposed on them by such provisions;
- (v) the provisions of the CREST Deed Poll and the CREST Manual (including for the avoidance of doubt the provisions of the CREST International Manual and the CREST Rules) contain indemnities, warranties, representations and undertakings to be given by holders of CREST Depository Interests and limitations on the liability of the issuer of the CREST Depository Interests, the CREST Depository;
- (vi) holders of CREST Depository Interests may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of holders is drawn to the terms of the CREST Deed Poll and the CREST Manual (including for the avoidance of doubt the provisions of the CREST International Manual and the CREST Rules), copies of which are available from CREST at 33 Cannon Street, London EC4M 5SB or by calling +44 (0) 207 849 0000 or from the CREST website at: <https://www.euroclear.com/en.html>;

Book-Entry Clearance Systems and Settlement

- (vii) holders of CREST Depository Interests may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the N&C Securities through the CREST International Settlement Links Service;
- (viii) neither the Issuer, the Dealer nor any Paying Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations; and
- (ix) N&C Securities issued in temporary global form exchangeable for a Permanent Global Bearer N&C Security will not be eligible for CREST settlement as CREST Depository Interests. As such, investors investing in the Underlying Securities through CREST Depository Interests will only receive the CREST Depository Interests after such Temporary Bearer Global N&C Security is exchanged for a Permanent Bearer Global N&C Security, which could take up to 40 days after the issue of the N&C Securities.

Taxation

TAXATION

Tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Notes. Prospective N&C Securityholders who may be unsure as to their tax position should seek their own professional advice.

1. United Kingdom Taxation

The following applies only to persons who are the beneficial owners of N&C Securities and is a summary of the Issuer's understanding of current law and published HM Revenue and Customs ("HMRC") practice in the United Kingdom relating only to certain aspects of United Kingdom taxation. Some aspects do not apply to certain classes of person (such as dealers and persons connected with the Issuer) to whom special rules may apply. The United Kingdom tax treatment of prospective N&C Securityholders depends on their individual circumstances and may be subject to change in the future.

Investors who are resident in the United Kingdom or who will otherwise be within the scope to United Kingdom tax in respect of the N&C Securities should note that some N&C Securities linked to Preference Shares may qualify as "excluded indexed securities" within the meaning of section 433 of the Income Tax (Trading and Other Income) Act 2005.

An N&C Security may qualify as an "excluded indexed security" if the amount payable on redemption is determined by applying to the amount for which the security was issued the percentage change (if any) over the security's redemption period in the value of chargeable assets of a particular description.

The Issuer expects that the Preference Shares will be "chargeable assets" for these purposes. Whether or not any particular series of N&C Securities linked to Preference Shares will qualify as "excluded indexed securities" will therefore generally depend on whether for United Kingdom tax purposes they are treated as redeeming for an amount equal to their Issue Price increased or decreased (as relevant) by the percentage change in the value of the Preference Shares over their redemption period.

Investors should note that profits or gains made on a disposal or redemption of "excluded indexed securities" held for investment purposes are normally subject to capital gains tax. Profits and gains made on a disposal or redemption of N&C Securities that do not qualify as "excluded indexed securities" would normally be subject to income tax.

The Issuer and its Affiliates cannot advise investors on the proper classification of the N&C Securities or any series of N&C Securities. Prior to purchasing the N&C Securities, investors should discuss with their professional advisers how such purchase would or could affect them. Investors with any questions regarding whether any N&C Securities qualify as "excluded indexed securities" or otherwise regarding the impact of an investment in the N&C Securities on their tax position should consult their tax advisers. Neither the Issuer nor any of its Affiliates provides tax or legal advice.

2. Irish Taxation

The following is a summary of the Irish withholding tax treatment of the N&C Securities. The summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, own or dispose of the N&C Securities. The summary relates only to the position of Irish withholding taxes on the N&C Securities.

The summary is based upon Irish tax laws and the practice of the Revenue Commissioners of Ireland as in effect on the date of this Base Prospectus. Prospective investors in the N&C Securities should consult their own advisers as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the N&C Securities including, in particular, the effect of any state or local law taxes.

Irish Withholding Tax

Irish withholding tax applies to certain payments including payments of:

Taxation

- Irish source yearly interest (i.e. interest that is capable of arising for a period in excess of one year);
- Irish source annual payments (annual payments are payments that are capable of being made over a period in excess of one year and are pure income-profit in the hands of the recipient); and
- Distributions (including interest that is treated as a distribution under Irish law) made by Irish resident companies,

at the standard rate of income tax (currently 20 per cent.).

On the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, nor does the Issuer operate in Ireland through a branch or agency with which the issue of the N&C Securities is connected, nor are the N&C Securities held in Ireland through a depository, or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on the N&C Securities, such payments would not be regarded as payments having an Irish source for the purposes of Irish taxation.

Accordingly, the Issuer or any paying agent acting on behalf of the Issuer should not be obliged to deduct any amount on account of these Irish withholding taxes from payments made in connection with the N&C Securities.

Separately, for as long as the N&C Securities are quoted on a stock exchange, a purchaser of the N&C Securities should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the N&C Securities.

Irish Encashment Tax

Payments on any N&C Securities paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of the N&C Securities may be subject to Irish encashment tax at the standard rate of Irish tax (currently 20 per cent.), unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the N&C Securities entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland.

3. U.S. Dividend Equivalent Withholding

Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Code**) treats a "dividend equivalent" payment as a dividend from sources within the United States that is generally subject to a 30% U.S. withholding tax which may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) and (ii). U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the **Section 871(m) Regulations**) require withholding on certain non-U.S. holders of the N&C Securities with respect to amounts treated as dividend equivalent payments. Under the Section 871(m) Regulations, only an N&C Security that has an expected economic return sufficiently similar to that of the underlying U.S. security, based on tests set forth in the Section 871(m) Regulations, will be subject to the Section 871(m) withholding regime (making such N&C Security a **Specified N&C Security**). Certain exceptions to this withholding requirement apply, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on, or upon the date of maturity, lapse or other disposition of the Specified N&C Security. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified N&C Security, withholding generally will still be required even if the Specified N&C Security does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the N&C Securities in respect of any dividend equivalent arising

Taxation

with respect to such N&C Securities regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a non-U.S. holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A non-U.S. holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the U.S. Internal Revenue Service. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified N&C Securities issued on or after 1 January 2017. If the terms of an N&C Security are subject to a "significant modification" (as defined for U.S. tax purposes), the N&C Security generally would be treated as retired and reissued on the date of such modification for the purposes of determining, based on economic conditions in effect at that time, whether such N&C Security is a Specified N&C Security. Similarly, if additional N&C Securities of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of N&C Securities out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing N&C Securities are Specified N&C Securities as the date of such subsequent sale or issuance. Consequently, a previously out of scope N&C Security, might be treated as a Specified N&C Security following such modification or further issuance.

In addition, payments on the Specified N&C Securities may be calculated by reference to dividends on underlying U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Final Terms will indicate whether the Issuer has determined that N&C Securities are Specified N&C Securities and may specify contact details for obtaining additional information regarding the application of Section 871(m) to such N&C Securities. A non-U.S. holder of Specified N&C Securities should expect to be subject to withholding in respect of any underlying dividend-paying U.S. securities. The Issuer's determination is binding on non-U.S. holders of N&C Securities, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to N&C Securities linked to U.S. securities and their application to a specific issue of N&C Securities may be uncertain.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the N&C Securities.

4. Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by foreign financial institutions (foreign passthru payments), and (ii) dividend equivalent payments (as described above in "*U.S. Dividend Equivalent Withholding*"), in each case, to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including the UK) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the N&C Securities, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the N&C Securities, are uncertain and may be subject to change. If withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and N&C Securities characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of

Taxation

a substitution of the Issuer). The grandfathering date for (A) N&C Securities that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, and (B) N&C Securities that give rise to a dividend equivalent pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional N&C Securities (as described under "*Terms and Conditions of the N&C Securities—Further Issues*") that are not distinguishable from such previously issued grandfathered N&C Securities are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all N&C Securities, including the N&C Securities offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the N&C Securities.

SUBSCRIPTION AND SALE

The Dealers have in a Programme Agreement (such Programme Agreement as modified and/or supplemented and/or restated from time to time, the "**Programme Agreement**") dated on or about the date of this Base Prospectus agreed with the Issuer a basis upon which the Issuer may from time to time agree to issue N&C Securities. Any such agreement will extend to those matters stated under "*Form of the N&C Securities*" and "*General Terms and Conditions of the N&C Securities*". In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the issue of N&C Securities under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith. The price and amount of N&C Securities to be issued under the Programme will be determined by the Issuer and the relevant Dealer(s) at the time of issue in accordance with prevailing market conditions. The N&C Securities may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Programme Agreement also provides for N&C Securities to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers. If a Tranche of N&C Securities is syndicated, the details of such syndication will be specified in the applicable Final Terms or, in the case of Exempt N&C Securities, Pricing Supplement.

In connection with the issue of any Tranche of N&C Securities, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms or, in the case of Exempt N&C Securities, Pricing Supplement may over-allot (provided that, in the case of any Tranche of N&C Securities to be admitted to trading on a regulated market in the European Economic Area or in the United Kingdom, the aggregate principal amount of N&C Securities allotted does not exceed 105.00 per cent. of the aggregate principal amount of the relevant Tranche) or effect transactions with a view to supporting the market price of the N&C Securities of the Series (as defined below) of which such Tranche forms part at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of N&C Securities is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of N&C Securities and 60 days after the date of the allotment of the relevant Tranche of N&C Securities.

Certain Tranches of N&C Securities with a denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to as a "**Non-exempt Offer**". This Base Prospectus has been prepared on a basis that permits Non-exempt Offers of N&C Securities in each state in relation to which the Issuer has given its consent (from amongst Member States and the United Kingdom) as specified in the applicable Final Terms (each specified State a "**Non-exempt Offer Jurisdiction**" and together the "**Non-exempt Offer Jurisdictions**"). Any person making or intending to make a Non-exempt Offer of N&C Securities on the basis of this Base Prospectus must do so only with the Issuer's consent to the use of this Base Prospectus as provided below and provided such person complies with the conditions attached to that consent.

Save as provided above, neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any Non-exempt Offer of N&C Securities in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

10. Consent to use this Base Prospectus

The consent and conditions attached to it are set out under "*Consent*" and "*Common Conditions to Consent*" below.

Neither the Issuer nor any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and neither the Issuer nor any Dealer has any responsibility or liability for the actions of that Authorised Offeror.

Except in the circumstances set out in the following paragraphs, the Issuer has not authorised the making of any Non-exempt Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of N&C Securities. Any Non-exempt Offer made without the consent of the Issuer is unauthorised and neither the Issuer nor, for the avoidance of doubt, any Dealer accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Non-exempt Offer, an Investor is offered N&C Securities by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Non-exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether they can rely on this Base Prospectus and/or who is responsible for its contents they should take legal advice.

12. Common Conditions to Consent

The conditions to the Issuer's consent to the use of the Base Prospectus in the context of the relevant Non-exempt Offer of N&C Securities are (in addition to the conditions described in paragraph 11(ii) above if Part B of the applicable Final Terms specifies "General Consent" as "Applicable") that such consent:

- (i) is only valid during the Consent Period; and
- (ii) only extends to the use of this Base Prospectus to make Non-exempt Offers of the relevant Tranche of N&C Securities in each relevant state, as specified in the applicable Final Terms.

As used herein, "**Consent Period**" means the period beginning on the start date of the relevant Offer Period specified in the applicable Final Terms and ending on the earliest of (i) the end date of the relevant Offer Period specified in the applicable Final Terms, (ii) the date occurring 12 months after the date of this Base Prospectus or (iii) in the event that the Base Prospectus is superseded by a base prospectus of the Issuer which is approved and published by the Issuer during the relevant Offer Period (a "**New Base Prospectus**") and the Issuer has

amended, restated and issued the applicable Final Terms pursuant to the New Base Prospectus, the date on which such amended and restated Final Terms are published.

An Investor intending to purchase or purchasing any N&C Securities in a Non-Exempt Offer from an Authorised Offeror will do so, and offers and sales of such N&C Securities to an Investor by such Authorised Offeror will be made, in accordance with the terms and conditions of the offer in place between such Authorised Offeror and such Investor including arrangements in relation to price, allocations, expenses and settlement.
